REVISION OF THE SOCIETY'S PRINTED LISTS OF INSECTS.

On the motion of Rev. C. J. S. Bethune, duly carried, it was resolved that the Society should, as soon as possible, publish a Revised List of the Canadian Diurnals, adopting as a basis the list and classification of Mr. W. H. Edwards, of West Virginia ; and that the Society should also publish additional lists of such moths as have been found to be Canadian, and are not contained in the Society's existing lists.

In view of the desirability of the publication of the descriptions of hitherto undescribed larvæ, and with a view to aid therein, the President, Vice-President, Rev. C. J. S. Bethune and W. H. Harrington were appointed a committee to prepare blank forms for the use of members in describing larvæ : the Society being of the opinion that following the practice of Westwood and Stainton, the body should be considered as consisting of thirteen segments, the head being the first.

The Rev. T. W. Fyles then read an interesting paper on "Observations on Form and Color as Exhibited in Insect Life."

A. A. A. S.

The President submitted a report of the proceedings of the Entomological Club of the American Association for the Advancement of Science, held at Minneapolis in August last, which he attended as the representative of the Entomological Society of Ontario.
