bride's house, where she humbly sued for the forgiveness of her father, kneeling at his feet all tears.—" Forgive, forgive me, dearest father?" sobbed the lovely suppliant. "Forgive you?" exclaimed the old gentleman; "why, I am only too glad to get rid of you. Your ill-temper and idleness have been the plague of my life, and make your marriage to loss to me, my dear child. So take her," added the old gentleman, generously, addressing the happy man; "and may you be happy!"

GRATIFYING SCIENTIFIC INFORMATION .-- If there is anything that we like in a scientific work it is clearness. When, therefore, we read recently, in medical volume, that "the thanmaoptici are the essentials of the senstry tracts, as the corpora starlata are of the motor," we felt completely happy, because we perceived at once, with stereoscopic distinctness, precisely what the author meant. What he means is, of course, that the thalmloptical are the essen-tials of the senstry tracts, as the corpora starlata are of the motor. The information is especially gratifying, because we must all be impressed with the conviction that if the thalamioptical had not been essentials of the sensity tracts, existence would at once have become a disgusting and unendurable burden, and woman's love a hollow mockery. As it is, we are filled with a holy and satisfying caim.

Loss of memory is ever the first indication of a disorder or degeneration of Nervous element, The rapidity with which the mind is restored by the use of Fellows' Compound Syrup of Hypophosphites is perhaps the best proof of its power in re-establishing the strength of the nervous system.

No testimony speaks higher of Jacobs' Liquid than its merits deserve.

O. H. Ramsey, Coboarg.—In your Problem (marked No. 3.) is there not a Bik. pawn required at 4.5th to prevent Black's playing :—2. R. takes Q. E. F., and might not the pawns at R. 2nd and Q. 7th beomitted in that case? It seems to us that a Bik. B. at K. B. 3rd instead of pawn, weaklibe an improvement.

GEO. E. DESBARATS.

Size of Map. about 7ft. x5ft. Extending (East and West) from Newfoundland to Manitoba and (North and South) from Hudsen's Bay to latitude of New York, drawn on a scale of 25 miles to the inch. and compiled from the latest Astronomical Observations, Official Surveys, and Records of the Departments of Crown Lands, as well as from County maps, Local and Italiway Surveys. From Manitoba to Vancouver Island will be delineated on a scale of 50 miles to the inch. This arrangement of the Map admits of the old Provinces of Upper and Lower Canada. New Brunswick and Nova Scotia being mapped on a scale large enough to shew accurately all bond fide surveys. The Great N. W. Territory and British Columbia—where comparatively little has been done in the way of actual survey—a smaller scale answers every purpose. The whole Map is thus kept within the dimensions best adapted for general office use.

The following are some of the most important details, which have been collated with great care, from the latest Official Plans and Reports:—Recent Explorations and Surveys in the "N. W. Territory;" New Boundary Lines: Electoral Districts and Divisions: New Townships and Mining Locations; all New Railways; Canals and Colonization Roads; the "Free Grant Lands" and New Settlements; Elevations of the Inland Waters and Mountainous regions above the Sea—marked in feet—and the correct delineation of all prominent Topographical features. In connection with the General and Detail Map, there will be two supplementary on commercial ways exhibiting the relative geographical position of the Dominion and other countries, shewing the creat Routes of Travel both by Land and Water; shortest incs of communication; Telegraph lines in operation and projected; distances. Ac., &c., with much other new and valuable information.

The explored route for the Canadian Pacific Railway of Map, the convention specially prepared for this Map, has been ent to Mr. Johnston by the Chief Engineer.

DR. RADWAY'S SARSAPARILLIAN RE-SOLVENT.-THE GREAT BLOOD PURI-

Every drop of the Sarsaparillian Resolvent communicates through the Blood. Sweat. Urine and other fluid, and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula. Syphilis, Consumption, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system. Sore Eyes, Strumorous Discharges from the Ears, and the worst forms of Skin Diseases, Frantions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Ache, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Nicht Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative rarge of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them. If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing succeeds in arrecting these weakes, and repairs the same with new material made from healthy blood, and this the Sarsapari lian will and does secure a cure is certain; for, when once this remedy commences its work of parisfiation and succeeds in diminishing, he loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and strenger, the food digesting better, appetite improving, and fle h and weight increasing.

Not only does the SARSAFARILLIAN RESOLEVENT excel all known and remedial agents in the cure of Chronin, Scrofulous Constitutional and Skin Diseases, but it is the only positive cure for KIDNEY AND BLAIDER COMPLAINTS.

A CHEMICAL FOOD AND NUTRITIVE TONIC.—Without Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and its compounds are known to be the motive power of the nervous and muscular system. They constitute more than half the material of the human body, being found in every tissue, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrofulous, Consumptive and V.—A id discasses which are caused by impoverished on poisoned blood; and in diseases of women suffering from irregularities, obstructions, and exhausting discharges, in pale puny children and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as a fast life. The great reliability and promptness in its effects in immediately and permanently restoring the devitalized constitution, has made Dr. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA a great favorite with the Physicians and public.
