POTATOES are selling at Andover, Victoria Co., N.B., at 15 cents per bushel.

THE grape crop now being harvested in Essex County is something enormous, no less than twelve carloads leaving Windsor daily.

MESSRS. CAMERON & CURRY, of Windsor, last week sold \$19,000 worth of Colchester township five per cent. debentures to the Canada Assurance Company.

THE German patent law provides that inventions shall be considered new if they have been lost sight of for one hundred years. The principle of granting subsidiary patents has been extended, and the patent office has been a good deal remodeled by the employment of legal and technical experts.

WHEN a man puts his advertising card in any paper, he owes a duty to the advertisement to do his part toward securing the benefit to be derived from it. Unless an advertisement be looked after or suitably changed, it soon takes an old appearance, which repels rather than attracts. If a man buys a painting he does not put it in some dark, neglected corner, and then complain that the picture is no good. He gives it every advantage of light and position. Then what right has he to complain against the returns from a long neglected advertisement?

THE St. John Plumbago Mining Company are making another shipment of the products of their mine to Cleveland, Ohio, and Springfield, Mass. The first carload sent as a sample tested so satisfactory that an order for two carloads followed.

F. MCGIBBON & SONS shipped 300,000 feet of red oak to Antwerp, Germany, last week, to be used for furniture manufacture. It was taken from their mill at Penetanguishene by the propeller "Niagara" to Quebec, from whence it will be shipped to its destination. The freight will amount to nearly \$20 per thousand feet.—*Sarnia Observer*.

A STORY is told by the Philadelphia Record of the arrival at that city of a large cargo of East India jute. It was landed last week from the British iron ship "Battle Abbey," from Calcutta. The cargo consists of 10,229 bales of jute and 1,383 bales of jute rejections, in all valued at \$130,000. The peculiarity of the "Battle Abbey's" cargo is the superior quality of the staple, some of the fibre being by actual measurement thirty-six feet long. Instead of being sent to the cordage mills to be converted into hawsers and rope, it will be used for silk manufacture, having already been purchased by the largest silk making concern in the United States.

**Mercantile Summary.**

THE New York Shipping List has good authority for saying that the world's production of phosphate rock is as follows: South Carolina, 600,000 tons; Florida, 150,000; France, 400,000; Belgium, 200,000; Canada, 30,000; England, 20,000; Germany, 40,000; Norway, 20,000; West Indies, 50,000; other countries, 100,000. Total, 1,610,000 tons.

A FIRST dividend, at the rate of 35 cents in the dollar, has been declared by the assignee, F. H. Lamb, in the estate of James Calhoun, general dealer, of Dundalk, Ont. The liabilities amount to \$11,614, due to forty-five merchandise creditors, of whom seventeen are in Toronto, nine in Hamilton, eight in Montreal, and eleven in other places. The stock, amounting to \$6,607, was sold to W. H. Calhoun at 65 cents in the dollar, realizing thus \$4,294, while \$1,228 was derived from notes and accounts. Expenses were \$798, and claims, privileged or other, were settled at \$372, making \$1,172. The sum of \$4,061.88 has been apportioned as a first dividend, payable after October 5th, leaving \$287.44 to apply on a second dividend. The assignee's statement says there remain a number of outstanding accounts and notes against farmers, which will be collected or disposed of during the next two months, when a final dividend will be made.
