You press hard on a pen when making one or more carbon copies. A Waterman's Ideal writes just as smoothly as under light pressure, the ink flows just as evenly, and the copies are perfect. Manifolding nibs are rigid. There are many advantages in Waterman's Ideals which fulfill special requirements of writing. **Not a Complicated Pen—but Simple and Sure for Writing**

L. E. Waterman Co., Limited, 136 St. James St., Montreal  
173 Broadway, New York 12 Golden Lane, London 6 Rue de Hanovre, Paris.
