At the last meeting of the Earlscourt B.I.A. it was resolved that a letter be sent to Commissioner Harris, asking that channeling on the north side of the Morrison avenue main sewer, at Dufferin street and Morrison avenue, to carry the water to the manholes of the sewer, be done, as this part of the city, after wet weather, resembles a lake, and is impassable for pedestrians. Being at the foot of the slope, the water has no outet except by the means asked for.

"Look at the houses which are erected and in process of building, for which no allowances are made for a garage. This is a drawback to the sale of such houses for persons owning automobiles. There are presents on the process of the sale of such houses for persons owning automobiles. There are now quite a few persons in the district who have to house their cars at a con and the public garage would be some measure (relief for them."

OAK RIDGES.

At a special meeting of the ratepayers, held last Saturday, it was finally decided to expend \$8000 upon the erection of a new school building. It is the intention of the school board to proceed at once with the new structure, the plans for which were ready some time ago for which were ready some time ago. For a long time it has been felt by the majority of the people that the old school was not in keeping with the prominence and prosperity of the section, one of the richest in the county.

SUSPENDED BY JUDGE

Bolton of Lambton Mills Will Appear Before the Magistrates' Board in April.

County Constable Bolton of Lambton Mills has been suspended by Judge Win- that even (with my nerve) I would not chester following an investigation which revealed irregularities in the bills he turned in for attendance on various courts at the city hall. Under the reguations a constable is entitled to \$1.50 for each day he attends court, and the amount is supposed to cover all the cases that are handled on that particular day. Judge Winchester's examination of Bolton's hills showed that he was changled.

Residents in the Cedarvale vicinity are agitating for a sidewalk to be laid on Woodbine avenue, north of Danforth, to aid the young children who attend the kindergarten class, which is being conducted in the Church of the Resurrection. The school stands in a hollow and when the thaw comes the only means of access is by planks.

Cowleson is, and has been for the last forty years, one of the most prominent and most pronounced Liberals in North York. Gordon Brown was cradled in Liberalism, and John Marritt of Keswick is probably the best-known Liberal, and without offence, I think I may say one of the most extreme, in the northern part of the constituency, while the Snider family, in the southern portion of the Township of King, have always taken an active part in every election on behalf of the Liberal candidate.

Mr. Godfrey tells us the local board that first selects the jurors consists of the reeve, clerk, and assessor, and suggests that these local ooards may be responsible for there being so many Conservatives from North York. He asks:
