REAL ESTATE OPPORTUNITIES.
REAL ESTATE is the best of nearly all large fortunes. When purchased at the right price in a fast-growing town it is the best investment on earth.

THE FASTEST growing town in Canada today is Welland. It has grown from 100 people to nearly 6000 in five years. It has seven railroads, over 30 passenger trains a day stop at the Union station. It has cheap electric power, cheap natural gas and the Welland Canal.

IT HAS 24 factories, with an average pay roll of over \$2,000,000. It needs 600 houses a day, and its factories will soon need 100 more men.

THE CHOICEST residential district for workers in Welland South, beside the large factories; no house can be built under \$1000; a nice house can be rented for \$10 per month, or purchased for \$100 down and \$15 per month. You can purchase a good lot for \$100 on easy terms, and secure a good position at good wages, by sending your

THE HILL ON THE HILL

Walmer Hill is not only a very high, healthful and beautiful location in itself, but also is situated in the Hill District—the most desirable high-class home district in all Toronto.

Walmer Hill is already the home of some beautiful homes, and price was a secondary consideration to those who have decided to locate there. There are some splendid lots left for investment, and YOU will have a chance to sell to the same kind of people—moneyed people—who do not mind paying YOUR price when they want your lot.

READ this. We will bargain with you for any of the remaining lots, as we must clean off the remainder rapidly. We have a big proposition which cannot be started until we have the last Walmer Hill lot sold. Let us motor you out Saturday. Telephone Main 412 for appointment.

TEMPLE BUILDING

WAINWRIGHT

There would be no hesitation about investments in Western towns if you knew you could not lose. Well, you cannot lose in Wainwright. Our "guaranteed protection" clause appears in every contract. We guarantee to deliver a clear deed under Torrens system upon completion of payments, and we further agree to buy back, after two years, any lots purchased from us in South Wainwright, paying for them the full purchase price, plus six per cent. interest.

Wainwright, Alberta, is one of the famous young cities of the West that have been created by the Grand Trunk Pacific Railway. Wainwright is almost exactly midway between Fort William and Prince Rupert, and it will be the most important junction pivot in that whole stretch of 2200 miles of railway.

Wainwright is not only a divisional point on the Grand Trunk Pacific, but it is also an important railway junction. A line of the Canadian Northern Railway has been surveyed, and is on the program of immediate construction, crossing the Grand Trunk at Wainwright, and branch lines of both these roads will radiate from this point.

Wainwright is now the second largest shipping point for cattle in the Province of Alberta. The town is the centre of one of the largest grazing, stock-raising and farming districts of the whole West. Wainwright grain yield for 1911 increased 400 per cent. over 1910. Wainwright in the near future will not only be to the Grand Trunk Pacific what

Moose Jaw is to the Canadian Pacific, but it will also be, on its own account, the centre of a larger and better producing district.

We hold a large quantity of inside business property at South Wainwright, immediately south of the Grand Trunk Pacific yards, station and shops, and all of it within the half-mile circle that embraces the present town. These lots are picked locations, and will become the most desirable business and residence property in Wainwright when this town begins to get its growth. These lots for business purposes and with track frontage from \$150 to \$200 each; residential lots priced from \$75 to \$125 each.

Wire us to-day at our expense, and we will reserve lots for you to the amount of your expected purchase, and will immediately send you plans and all data concerning these or our other properties in South Wainwright. Remember, you are taking no chances. Your money back, with interest at six per cent., if, after two years you are not satisfied with your investments.
