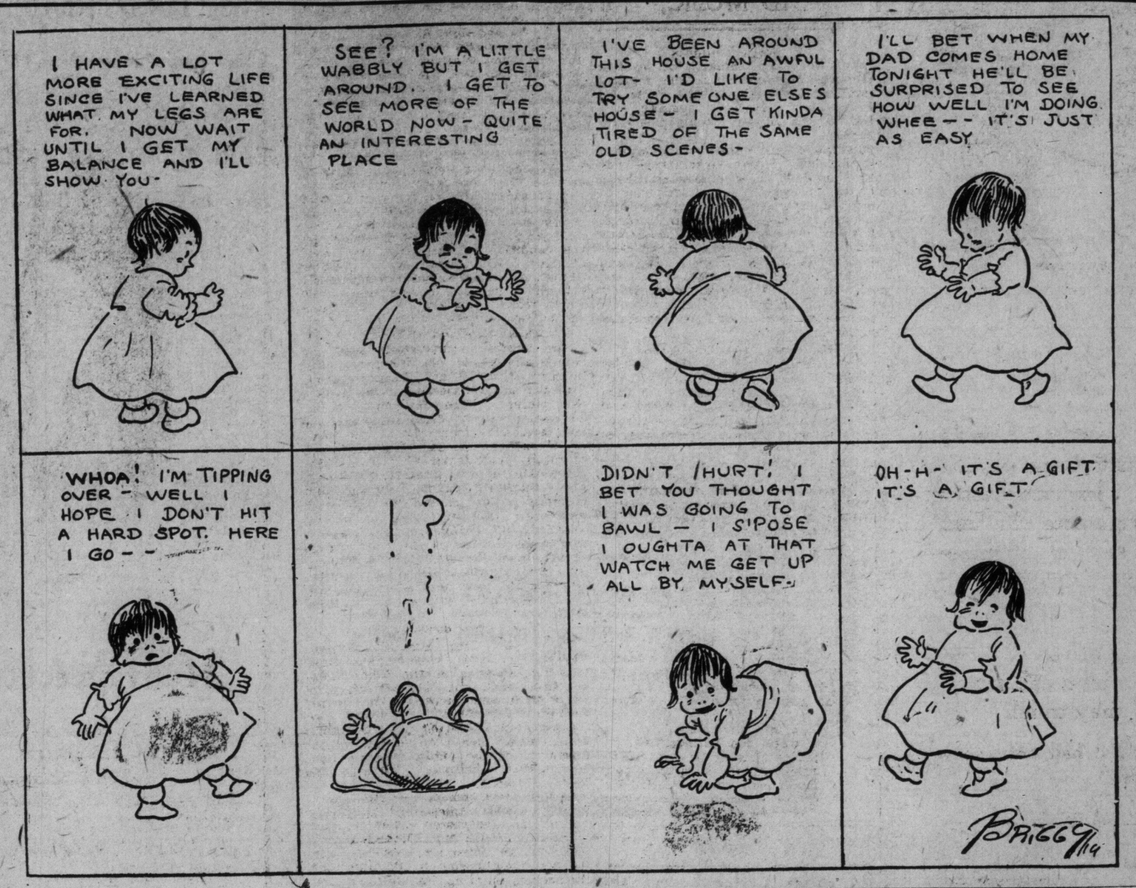
Wonder What a Year-Old Baby Thinks About : : : : By BRIGGS



OVERSEAS PRESS DISCUSSES G. T. R.

The London Times Welcomes Indications of Arranging a Settlement.

London, April 5.—The papers are still giving prominence to the Grand Trunk controversy. The Times, for example, contests several points raised in the Canadian government's reply, including their statement that the present situation was brought about by the war, is wholly unfounded. In this connection it cites the fact that British railways are being worked at less than the estimated hundred million pounds sterling per year. It, however, welcomes indications that the government is wishful to approach the question in a conciliatory manner, and thinks that with signs of good will on both sides, there ought not to be any difficulty in arranging a settlement.

Opinion of Post.

The Morning Post notes that the Canadian government's rejoinder had no ill effects on Grand Trunk stock quotations, but rather the reverse. The paper enlarges on the results of the extensions of the Canadian Northern upon the Grand Trunk, adding that the result was that neither line could be worked on a commercial basis, but whereas the Canadian Northern was first assisted out of public funds and then altogether relieved of its difficulties by nationalization on terms very favorable to the stockholders, the Grand Trunk was left to bear its burdens practically without assistance, and is now to be offered what are undeniably harsh and drastic terms.

BROOM MAKERS ENJOY HIGH WAGE SCHEDULE

The broom and whisk makers of Toronto, recently organized by William R. Boyer, the general secretary and treasurer of the kindred organization in Chicago, Ill., has induced J. C. O'Connor of the Thrift Broom Company to use the union label of the organization on all the brooms and whisks manufactured by the company. The wage schedule adopted by Local 38, is one of the best in the organization, assuring the members of conditions never before enjoyed by the broom makers of Toronto.

HUNGARIAN WORKMEN HAVING A GOOD TIME

Motor Rides, Cheap Baths and Meals as Long as the Food Supply Lasts---Population Divided Into Three Classes.

Budapest, April 6.—The workmen's freedom continues, with automobile rides, cheap baths and cheap meals, so long as the meagre supply of reserve food lasts. Meatless days were instituted a fortnight ago, but the order has ceased to be enforced. Large amounts of money are tied up in the banks, and the existing supply of currency will be exhausted shortly by the payment of the wages of the workmen, who no longer work.

The communists may print more paper money from the Vienna presses, but there are no presses in Budapest for this purpose.

The Hungarian population will be divided into three classes. Intellectual workers will be assured a minimum income of $7,200 at the peace time rate of exchange. Merchants and trade and industrial workers will receive $5,000 and workmen and day laborers $3,300.

The state plans to supplement the difference between what the various classes earn and the minimum decided upon.

Socialization of Press.

London, April 6.—A wireless despatch from Berlin says that the Hungarian government, in fulfillment of its plan for the socialization of the mining industry, will arrange for the production of food, houses, clothing and materials.

The government is also considering a project for the socialization of the press, in which advertisements will be given only to official organs and newspapers which are being used for purposes of public enlightenment. The newspapers already are adopting a determined attitude against this plan, which would stifle all but the Socialist papers.

Government Reconstructed.

Paris, April 6.—The Hungarian cabinet has been reconstructed, according to advices received tonight, with M. Garbai as premier; Bela Kun, minister of foreign affairs and war; M. Boehn, minister of war under M. Kun; M. Kunfi, minister of education, and M. Varga, minister of social protection.

HAMILTON NEWS

Hamilton, April 6.—The audience assembled in Loew's Theatre this afternoon at the regular meeting of the citizens' open form, applauded the speaker, W. E. RANK BOLSHEVISM AT PEOPLE'S FORUM

Capitalist Britain Responsible for Death of German Babies.

TAKE THEIR LIVES

C. Mantz Would Kill All Opposing His Propaganda.

"The Bolsheviki are not going to take the life of one useful citizen in the world, or of one capitalist, unless he blocks the road to progress," said C. Mantz, manager of The Industrial Banner, in his address to a meeting at the People's Forum, in St. George's Hall last night.

"If he will block the way," continued Mr. Mantz, "then he is going to get hurt. We do not hate any capitalist personally, just his devilish methods, which throw us and our children into the river of misery."

Every seat in the hall was filled, and among those present could be seen a number of men well known in labor circles. That a large percentage of Toronto's foreign element was present was another noticeable feature of the evening's proceedings. The speaker had a broad American accent, distinctly southern in its nature. His opening address dealt with the progress of labor. He pointed out how hard it was some years ago for labor to gain recognition in various publications. "Today you can't take up a newspaper or magazine without seeing something, directly or indirectly, about the labor movement, either denouncing it or propagating it," he said. "But we Socialists do not mind that," he continued, "as long as it is mentioned at all; it will attract attention, and people will investigate and become interested.

Old School Socialism.

"We of the old school of Socialists have had the opportunity of studying socialism from its source. There are many who do not go back that far, but look at it as it is today—a force which the capitalists call Bolshevism. It was the German and British capitalists that brought on the war, and they told you that you were fighting for democracy and the rights of little nations."

The speaker then touched on the condition in Russia and its relation to Socialism. He said in part: "There are some folks getting hurt in Russia but there have been only about 40,000 people killed since the new regime there, and they were killed in fair fight. Let Russia take care of herself. If Britain and other capitalists will raise their blockade they will save thousands of lives. I know the damnable things Germany did in this war but I have a clipping at home which I intend to have till after the war. It states that Britain, thru her blockades, killed 57,000 babies in Berlin."

The speaker mentioned the housing question and stated that Socialism had the key to the situation. He also declared foreigners as his friends, remarking that Canada had room for five million of them, altho admitting that under the present system he was not in favor of their competition.

NEW POLICE HOURS START NEXT WEEK

A Conference Called for Today of Inspectors of Outside Divisions.

It is the intention of the police department to start policemen working on the beat on their 8-hour straight shift one week today. Deputy Chief Dickson has called a conference today of the inspectors of all the outside police divisions to receive from them suggestions for the inauguration of the new schedule. The inspectors will confer today in the city hall with the deputy. One of the suggestions offered is the selection of a permanent traffic squad. At present men doing duty at the intersections are subject to being shifted at the change of the relief back to walking the beat. It was pointed out last night that a good way to settle the traffic question would be to make traffic duty come as a form of promotion to the policeman.
