Over 7500 of the employed were present for the presentation, which took place in the armories, and the event was symbolical of the high esteem and appreciation in which Sir John Eaton is held by those in the company's service.

cal of the high esteem and appreciation in which Sir John Eaton is held by those in the company's service.

The gift, which represents over \$20,000, was subscribed by the employes of the T. Eaton Company, who, out of sympathy for the suffering little ones, and in recognition of their chief, Sir John Eaton, presented the gift to him, who in turn passed it on to the hospital authorities. Sir John Eaton was accompanied by Lady Eaton; his mother, Mrs. Timothy Eaton, and his sister, Mrs. Burnside. Each of the three ladies were presented with floral tributes by three of the youngest members of the staff—two little girls, Miss Margaret Smith and Miss Georgina Hosg, and George Smith. Lady Eaton was presented with a bouquet of sweetheart roses, and Mrs. Burnside was also the recipient of a bouquet of American Beauty roses. Mrs. Timothy Eaton was presented with a basket of orchids.

day holiday, we, the employes of the T. Eaton Co., Limited, Toronto, wish to ex-

women, boys and girls who will benefit so immeasurably by the extra hours thus afforded us for rest and recreation, desire to commemorate the occasion with some tangible and permanent evidence of our appreciation and of the high esteem in which you are held. Knowing how keenly you are interested in the welfare of suffering little ones, we feel that our tribute could take no more acceptable form than the endowment of something permanently helpful. Learning that the Sick Children's Hospital required more spacious accommodation for X-ray equipment, we have erected a suitable addition to be used exclusively for this purpose. We have also endowed a cot in the same hospital, taking the liberty of naming it in your honor, the "Sir John Craig Eaton Cot."

In this way we hope in some small degree to symbolize the kindly thoughtful sistant postoffice in sorted to the some hospital to the extent that their maximum salary is raised, but no immediate increase is received by any of them, except the superintendent.

Petitions and wires have been forwarded to Mr. Maclean, the father of the bill, and to the Toronto members to be the money order branch, account ant's staff and that of the postoffice inservice are sending a united protest against the adoption of the bill.

There are some glaring injustices if the interpretation placed on the bill to the remainder the whole affair is a gold brick. The letter carriers benefit to the extent that their maximum salary is raised, but no immediate increase is received by any of them, except the superintendent.

Ten Thousand Names.

A beautifully bound volume, containing inspector. The peculiar part wer ten thousand names of the employes of the matter is that the male part of the inspector's staff

who subscribed to the gift, accompanied the address.

In receiving the address, Sir John Eaton said that words failed him to express his pride and gratitude in the honor that was being bestowed upon him. In shortening the hours of the employes, Sir John stated that he was carrying out his father's wishes and he hoped that the employes would benefit considerably by the early closing measure and become more useful citizens of the Dominion. In conclusion he said that no gift could have been more fitting and referred to the help it would be to the hospital in relieving numbers of poor little sufferers, who were to be the future citizens of Canada. Sir John in turn passed the gift on to H. H. Willlams, who represented the hospital, in the unavoidable absence of Sir Edmund Osler.

H. H. Williams expressed appreciation is already on the control of the inspector's staff at Toronto are graduates of the Toronto are graduates of the Toronto postoffice and railway mail service, yet none of these are eligible for promotion to the higher positions of the office.

Instead of the clerks in Toronto postoffice making any progress their maximum salary will be reduced from \$1800 to \$1620 and the registration clerks to \$1680. Needless to say dissatisfaction is rife in every branch of the service, from that of the chief postoffice superintendent down.

Waited Six Months.

After waiting six months, placing faith in the promises sof the government, it is found that the reclassification bill is a huge hoax, and a deputation bill is a huge hoax, and a deputation is already on the service.

H. Williams expressed appreciation H. H. Williams expressed appreciation of the gift and the spirit of the employes who donated the funds. He stated that the cot, in future to be known as the Sir John Eaton Memorial Cot, had already been filled and that the equipment of the X-ray room was a most needed improvement and would help considerably in providing the required attention to the little tots who were so unfortunate as to be inmates of the hospital.

Lation is already on the way to Ottawa to provide the present bill and saking for immediate and generous treatment.

Press despatches from Ottawa this last week indicated that something good might be expected of the reclassification, but a brief visit to the Toronto postoffice will quickly convince all and points.

ATTACK GRANGERS

Grain Growers' Grain Co. Assailed by Several Members.

Ottawa, June 24.—There was a spirited debate in the commons tonight over Major-General Mewburn's bill to authorize an increase in the permanent military force of the Dominion from five to ten thousand men. The minister defended the bill on the ground that a force of ten thousand was none too large for a country like Canada, more particularly in view of present conditions. He intimated that it was not the intention at present to increase the force by more than a couple of thousand.

Corposition to the measure came from Hon. T. A. Crerar, Dr. Michael Clark, Mr. A. R. McMaster, W. F. Nickle and other members of the house. Mr. Crerar thought it unwise to maintain law and order by the maintenance of large armed forces. Mr. Nickle, Mr. McMaster and others thought the present was not a good time to create a larger force.
