

Bartle

"Canadian Cuba" "Cuba's Banner Colony"

Such Are Some of the Many Names Given to Our Colony in Cuba. WHY? "FORWARD" IS OUR MOTTO.

The following letter, written by our manager at BARTLE shows how our motto is being adhered to:

THE CUBAN REALTY CO., Bartle, Cuba, January 10th, 1906.
Temple Building, Toronto.

GENTLEMEN,—I beg to report as follows the improvements, etc., since I left here last December:

HOUSES FINISHED AND PEOPLE LIVING IN:

Bartle Hotel,	Finished.
E. Richards, House,	"
Dr. Bestuel, House,	"
Bartle Store,	"
E. Richards, Store and Hotel,	"
E. Smith, House,	"
R. P. Bearman, House,	"
H. L. Spencer, House,	"
Mr. Bunbury, House,	"
Mr. Hoffman, House,	"
Mr. Abraham, House,	"
Mr. Newall, Kitchen,	"
Mr. Selley, Kitchen,	"
Mr. Abbot, House,	"
Mr. Downey, House,	"

[This store was started when I was North]

HOUSES BUILDING:

Mr. J. E. Roberts,
Ball & Co.,
Mr. W. White.

I am going to build a church and a school house. On behalf of the Company I subscribed \$50 towards the furnishing of Church with organ, books, etc., and for myself \$10. So far we have over \$100 subscribed.

I trust this will be satisfactory to you. Last night I had a meeting of a few of the leading lights, and we decided to call a meeting of the citizens on Saturday night and elect a "board of trade" and "board of health."

We are going to get a charter, if possible, for Masonic Lodge. Any information about this you can get will be acceptable.

Am going to publish a paper each week. The saw mill is now in good shape and can cut 7 to 10 thousand per day.

Yours truly,

F. A. MULHOLLAND,

Superintendent at Bartle.

Fortunes Made in Oranges

Orange groves in Cuba come into bearing in the third year and produce from half a box to a whole box of marketable fruit per tree. Compare that with your apples here, where you have to wait ten years before a tree is bearing properly. Orange groves are known in Florida, where the frost has not struck them, to be 300 years old and still bearing. An orange grove of 10 years old is estimated to yield a net profit of \$1,000.00 per acre. An orange grove will pay for the land it is growing on, pay the cost of planting and caring for it for 5 years in the third, fourth and fifth years' crops. Future crops are all profit. Why not have a small grove at Bartle, where you don't have to fertilize and where you have abundance of rain?

Native corn grows abundantly, three crops per year, and pays an average \$1 per bushel in the ear. Can be grown between orange trees for first five years.

Vegetables for New York.

Is there money in them? Here are some of the prices being paid on the ground in Cuba:
Tomatoes \$2.00 to \$2.60 per bushel.
Cabbage \$3.00 to \$3.50 per dozen.
Irish Potatoes \$3.00 per bushel.
Asparagus \$8.00 to \$9.00 per dozen.
Sweet corn, carrots, radishes, spinach, onions, strawberries and others bring high prices. Vegetables are planted in September and are ready for marketing in January.

Price of Lands \$50 Per Acre. Town Lots \$150 Each.

Cuban Realty Co., Limited

510 Temple Building, Toronto.

D. O. BULL, General Manager.

NOT ALL SMOOTH SAILING TO EFFECT REORGANIZATION

Shareholders of Toronto Roller Bearing Co. May Not Assist Henderson Creditors.

The directors of the Toronto Roller Bearing Co. held a short but stormy meeting yesterday to consider the proposition made to them by the reorganization committee in regard to the plan of reorganization of the Henderson Roller Bearing Manufacturing Co., of which they are the largest shareholders.

The plan submitted by the reorganization committee was as follows: Upon payment to the Toronto Roller Bearing Company of \$5000, now past due, the patent rights for Canada held by the Henderson Roller Bearing Manufacturing Company, Limited, are to be transferred to and vested in the reorganization committee for transfer to the new company. The sum of \$50,000—which is an additional liability to the Toronto Roller Bearing Company if the Henderson Roller Bearing Manufacturing Company, Limited, is wound up—is to be assigned to the reorganization committee for the new company, so that the new company will not be called upon to pay this amount or any part thereof. The right of forfeiture as to the patents which now exists in case of insolvency is to cease upon payment of said sum of \$50,000, and the patents are to be vested absolutely in the new company. In case the Toronto Roller Bearing Company acquires or becomes entitled to acquire any improvements in the inventions covered by the said patents, such improvements must be communicated to the new company, and if the subject of letters patent in Canada, must be assigned to the new company without further payment.

It was finally decided that a meeting of the shareholders of the Roller Bearing Co. be called this week to consider the new scheme. All the directors but one were in accord with the scheme to give the new company a start.

It was learned from outside sources that many shareholders of the company will side with the director, who will oppose the scheme of reorganization, both at the shareholders' and at the annual meetings.

Secretary Frank Adams of the reorganization committee has issued a circular to the shareholders of the Henderson Roller Bearing Manufacturing Co. setting forth the plan in detail. The committee have entered into an agreement known as the "reorganization agreement" with the Henderson Roller Bearing Company, whereby the Trusts & Guarantee Company agree to act as trustees for the shareholders and the committee in carrying out the said plan, and all shareholders depositing their certificates of stock with the Trust Company under the terms of the agreement become parties to the agreement and entitled to its benefit.

DOMINION SHORTHORN BREEDERS.

20th Annual Meeting Finds Affairs in Good Shape.

The twentieth annual meeting of the Dominion Shorthorn Breeders' Association was held in the St. George's Hall yesterday. W. G. Pettit was in the chair. The president in his report was glad to say that instead of the balance being on the wrong side, as he very much feared it would be, by the moving of the record office to Ottawa, the business done has resulted in a very large increase, and everything now pointed to that increase being continued in the present year. Farmers and breeders of America had a prosperous year, all records of former years having been broken. The breeding of the shorthorns was now on a firmer foundation than it had ever been since the association was incorporated, and the association being the favorite to all best producing countries in the world to cross on the common native cattle.

Speaking of the foreign trade, he regretted that this was so small, and although fully aware of the many obstacles to be encountered in shipping to the different countries, yet thought, considering the excellent conditions that prevailed in the present year, such as regards climate, feed and absence of any contagious diseases, that more should be done in this direction.

The report of the registrar showed 11,768 registrations, 13,950 certificates, 2889 transfers, and fees collected \$11,275. The twenty-first volume of the Herd Book containing 4940 bulls and 6290 cows, or a grand total of 11,230 animals of 11,500 pedigrees. The Herd Book closed on Dec. 31 contains 12,000 pedigrees.

The report of the secretary shows that during the life of the association \$24,000 has been granted to the members for the purpose of the recent fairs. The following grants were approved for exhibition purposes: New Brunswick, \$100; Ontario, \$100; Alberta, \$100; Regina, Sask., \$200; Winnipeg, Man., \$500; Ontario, \$2000 (provisional); Sherbrooke, Que., \$200; Halifax, N.S., \$100; Charlottetown, P.E.I., \$100; Fredericton, N.B., \$100; Winter Park, Minn., \$500, of which \$200 is to be devoted for special prizes for the encouragement of shorthorn breeding. The total grants are about \$1500 in excess of any previous year.

There are 2288 members, from whom \$486 fees were collected. The amount paid in prizes was \$2350. The receipts were \$20,775, and disbursements about \$12,000.

Hon. Nelson Monteth, minister of agriculture, in an address urged great consideration of the question ever before the association—as to whether it should breed for dairy or beef purposes. A resolution was carried changing the standard and adopting the 4th volume of the English herd book, so as to make the Canadian and American herd books uniform and prevent confusion.

The closing portion of the session was taken up with the appointing of officers, who were re-elected with the exception that Capt. T. E. Robson of the latter becomes second vice-president, and P. White, Jr., vice-president for Ontario, and Dr. Hopkins, Winnipeg, is added to the board of directors.

TEMPLEMAN FOR VICTORIA
RILEY, M.P., FOR THE SENATE
Ottawa, Feb. 6.—After the installation of the two ministers this morning they were congratulated by the government and the prime minister and his colleagues and then proceeded to where they took the tariff commission. Mr. Templeman will resign from the senate and run for Victoria, B.C., at present represented by George E. Fry. The latter will be appointed to the senate in succession to Mr. Templeman.

Suits Are Settled.
The Toronto Railway Co. have settled for \$5000 the suit brought by Ida Lewis, who was injured by a car, and the court suggested a settlement of \$5000 or a new trial. Wm. McIlroy, suing for \$5000, accepted \$1000.

More Pupils at School.
That the attendance in the public schools is rapidly increasing is shown by Mr. Hughes' comparative statement between last year and this. The registered attendance for Jan. 1906 was 997 greater than a year ago, and the average attendance was 1582 more.

THE cling-sole on "Canadian" Rubbers is better than an accident policy.

It clings to slippery pavements and gives you a firm and confident step on icy walks.

The "Canadian" mark of quality on a rubber means an excellence not found in other makes.

Look for "the mark of quality."

"CANADIAN" RUBBERS

NATIONAL RIFLE ASSOCIATION.

Asked if There is Objection to Shoot at Ottawa.

(Canadian Associated Press Cable.)

London, Feb. 6.—Lord Chelmsford, president at the annual meeting of the N.R.A. today, said a letter had been received from the American N.R.A. asking if there was any objection to the Palma Trophy competition taking place at Ottawa. Lord Chelmsford replied there would not be on the part of the N.R.A., but the Ottawa authorities were the ones which should be consulted. He said no doubt the N.R.A. would be asked to send a team to compete for the Palma Trophy, but whether the N.R.A. would send a team or not would have yet to be discussed.

When the election of vice-presidents was proposed, a member moved that the names of Walter Winans, the American shot, should be removed from the list of names, the vice-president proposed, the objection to Winans being on account of the article he had written to a London journal claiming that a shooter at Bisley was no good in war time. The member, after some discussion, withdrew the motion.

OUR SHIPS PAY DUES.

Canada Maintains Free Lightships British Does Not.

(Canadian Associated Press Cable.)

London, Feb. 6.—Geoffrey Drake, M. A., addressing the Liverpool chamber of commerce, laid stress on the great injustice Canada is suffering in regard to light dues. "Canada," said Mr. Drake, "maintains a lightship system free. The British government does not do so. Canadian ships are subject to great disadvantage if they trade with the United States." He also drew attention to the fact that American settlers naturalized in Canada were not British subjects if they traveled in England, Australia, or New Zealand.

PRIVY COUNCIL JUDGMENTS.

(Canadian Associated Press Cable.)

London, Feb. 6.—The following cases are on the list of judgments to be given at the present sitting of the judicial committee of the privy council: Montreal, St. Lawrence Light and Power Co. v. Robert, to have the validity of the sale of certain land by the respondent to the appellant company declared ultra vires on alleged want of authority on the part of the appellant; Dame Mary Miller v. the G. & R.; Robertson v. Fairweather, a New Brunswick case; the attorney-general of British Columbia v. C.P.R.; and whether the public have the right of access to the sea over and thru a certain railway embankment belonging to the respondents. The appeal of the City of Montreal v. Cantin and others, as to whether the right of the city to recover on certain assessments for local improvements has been extinguished by prescription, is being heard to-day.

MUST ASK WITHIN YEAR OR DO WITHOUT GRANT

St. Catharines, Feb. 6.—(Special.)—The city council to-day made a grant of \$75 towards the erection in the new armory of a memorial to the Niagara District soldiers who fell in the South African war.

A motion was passed to the effect that in future no grants not claimed within the calendar year will become null and void.

W. J. Scott Seriously Ill.

Ottawa, Feb. 6.—W. J. Scott, superintendent of immigration, is seriously ill. He was removed to St. Luke's Hospital this morning.

Men, It's Free!

Any Weak, Puny Man Can Have My Electric Belt Free, Without the Payment of One Cent.

I make this offer to weak men, particularly those men who have spent their earnings for years on dope (the drugs that make them feel like a young colt one day and like an old, broken-down hack the day after), those men who have tried so many things that they are tired of feeling and want a cure. Those are the men I appeal to, and I am willing to give my Electric Belt free, without a cent of cost to you, if you will secure me.

Man with small, flabby muscles, thin-chested, dull-eyed, short of breath, without endurance, courage, ambition, sand or grit in their make-up, are WEAK MEN. If they were not born weak I can make physical giants of them.

How do I do it? By filling the blood, the nerves, the organs and muscles with electric energy—that is what Nature gave them at first—that is what they have lost when they break down.

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no stinging or burning, as in old-style belts), and you feel the nerves tingle with the new life in the system. You get up in the morning feeling like a two-year-old.

Wherever you are, I think I can give you the name of a man in your town that I have cured. Just send me your address and let me try. This is my twenty-fourth year in the business of pumping new vim into worn-out humanity, and I've got cures in nearly every town on the map.

If you will come and see me I'll fix you up. If you can't call let me send you my book, full of the things a man finds inspiring to strength and courage. Free if you send this coupon.

Consultation Free.

There's nothing surer than the word of an honest man, and when such men as these admit that I cured them, you know that I can cure you.

Here is Proof of my Arguments:

I was cured of heart disease and stomach trouble in August, 1904, and have never experienced a return of it in over a year.

Your Belt cured me and I feel like a new man.

I cannot say too much for your Belt; it is better than drugs.

I have been cured of weakness and various ailments, and feel like a different man; would not be without your Belt for any money.

In one month's use of your Belt I have gained seven pounds. No bladder trouble, constipation or headache any more, and have developed a lot of muscle and strength. Thank you very much.

AMSTERDAM, ONT.

JEROME SCANLON.

I have cured thousands of men who have squandered the savings of years in useless doctoring.
