## DRAGONS WITH BAYONETS CHARGED POLICE SWING BATONS ON TWO HUNDRED HEADS ONE MAY DIE; SCORES ARE INJURED

Hamilton, Nov. 25.—(Special.)—As a result of the riots Saturday night there are probably two hundred men and women in Hamilton nursing broken heads and lame shoulders. There were no fatalities, but many were seriously hurt.

Colonel Septimus Denison, who is in command of the soldiers, was assaulted with a whip and is so stiff and sore from bricks hurled at him that he can scarcely walk.

Arthur Bertrand, a strikebreaker, was hit on the spine and so seriously hurt that it is said that he will die. Sheriff Middleton read the riot act from the city hall at 7.15. He was jeered and hooted until his voice was drowned. He had hardly finished when sixty policemen with batons in hand rushed down the steps and started to strike out right and left. Two score of men and women, some of them on their way to the stores and to the market, were knocked down.

The dragons with drawn swords then charged the crowd, and they were followed by 150 infantry, with bayonets fixed. The dragons galloped over the sidewalks, some rushed for the stores and lodged behind the counters shrieking and fainting.

The soldiers, also they were showered with bricks and subjected to all kinds of insults, kept their tempers. They struck a few of the obstreperous with the flat of their swords. People died with the butt of their rifles, but anyone who tried to escape was allowed to do so.

They had been pelted with stones and had been working for days with only snatches of sleep. When they were turned loose on the streets, some of them appeared to go wild with the lust for revenge. They ran after people who were doing their best to get out of the way, and they knocked everybody they could reach down with no reference to age or sex. Women and children were beaten down as men. At one time there were a score of people lying on the pavement in front of the city hall, who had been batted over the heads.

The police and soldiers were rushing the people about the streets in the vicinity of the hall, the gang kept up a regular volley on the three streets that operated on the East King-street run. The windows of the cars were covered with wire netting, and

## FALLS IN FRONT OF TRAIN STRATFORD MAN KILLED

**Charles Reynolds Has Both Legs  
Cut Off by Freight.**

Woodstock, Nov. 25.—(Special.)—Struck and fatally injured by an east-bound G.T.R. freight at Wilson-street crossing at 4.20 yesterday afternoon, Charles Reynolds of Stratford died at Woodstock hospital to-day.

Reynolds, who had been visiting his brother in Blenheim, was waiting here for the evening Stratford train. He was in a weak condition from a recent attack of typhoid fever and stumbled several times, falling to the sidewalk once and it is believed he lost all control of himself and attempted to cross in front of the freight train. He must have had warning of the train's approach, for the electric bell was ringing at the crossing, the whistle had been blown and no cars intercepted the view of the train. Both legs were cut off, one at the ankle, the other near the knee and a severe blow was sustained on the forehead.

## SIFTON TO SUCCEED CARTWRIGHT

**Shake-up of Dominion Cabinet Forecast, With Hugh Guthrie  
of Guelph as the Only New Ontario Man.**

Ottawa, Nov. 25.—(Special.)—It now seems reasonably certain that Sifton is to go in the cabinet, but as the successor of Sir Richard Cartwright, as minister of trade and commerce.

Legislation will be introduced transferring to this department immigration and other matters now belonging to the department of the interior. The labor bureau, too, may be annexed and the title of the minister changed to minister of trade and labor.

At present, Postmaster-General Lemieux is minister of labor. It is felt that the interior department is overloaded, and that the postmaster-general has enough to do in his own department. The new minister will have powers and duties corresponding to the important department of commerce and labor in the United States government.

Another cabinet rumor promotes Mr. Brodeur to public works, Mr. Tempieman to marine and fisheries, Mr. Power of Quebec West to inland revenue, and solves the solicitor-general feud between Montreal and Quebec by the selection of Hugh Guthrie of Guelph.

## HYMAN WILL NOT RETURN.

London, Nov. 25.—(Special.)—The news of the proposed cabinet changes at Ottawa is giving the politicians here much to talk about. London is greatly interested in what is transpiring at Ottawa these days. It is not expected that Hon. C. S. Hyman will come back to London to seek re-election. In fact, it is persistently stated that he is out of it for good, notwithstanding the premier's request that he stay. However, if Mr. Hyman should seek a vindication it is almost certain William Gray will again be his opponent, and Mr. Gray's friends are determined that the result of a year ago will not be repeated.

"Will the Liberals ask Mr. Sifton to accept a nomination?" a leader of the party was asked, and the answer was emphatically "No." They want a local man.

## CANADA'S PROTEST TO U.S. AIMED AT THE MAGAZINES

**Dominion Finds Fault With Con-  
struction Placed on Second-  
Class Matter Carried for One  
Cent a Pound.**

Washington, Nov. 25.—The United States postoffice department will be guided by congressional legislation in dealing with the issue raised by the Canadian government in abrogating the provision of the postal convention between the two countries, relating to second-class matter, which, according to Canada's notice, will expire May 7, 1907.

This provision permits the transmission through the mails of periodical publications, which include newspapers at the rate of 1 cent per pound. A joint commission of the senate and house, of which Senator Penrose is chairman, has been engaged since October in taking testimony covering the whole subject of second-class mail matter, and as an outcome of the enquiry the general expectation is that some legislation will be enacted.

If no legislation be enacted, then the two governments will fall back on the international union provision of the postal convention, which provides that second-class matter shall be carried at a rate of one cent per pound.

Some time past the Canadian government has found fault with the construction placed on classes of second-class mail matter by the American government. The international postal union provides that second-class matter shall be carried at a rate of one cent per pound.

## OFFICERS CAN'T FORFEIT CONTRACT, SAYS VAN HORNE

**Sir William Makes Public His  
Reasons for Resigning From  
Coal Directorate.**

Montreal, Nov. 25.—(Special.)—Sir William Van Horne has given out the letter which he wrote to Mr. James Ross on the 10th of November, explaining his reasons for resigning from the Dominion Coal Company. He says, amongst other things, that "while the individual action of the managers, or even of the executive officers of the two companies, cannot destroy the effect of a contract which has been ratified by the boards of directors of both companies, such action may expose their respective companies to claims for damages, which in the present case are likely to be enormous, and the question of damages is not the only one to be considered, for very important public interests are involved, and the effect of the present difficulty is likely to be far-reaching."

"It is not to be expected that two of the greatest industries of the country can be paralyzed and the thousands of people thrown out of employment at the beginning of winter because of a disagreement between a few individuals, without danger of the most powerful intervention possible on the part of both the provincial and Dominion governments. As a director in both companies I do not want to be one of the acts which precipitated the present crisis were known to or authorized by the board of directors of either company. What some of the directors may have known in their individual capacity makes no difference whatever, and, apparently, this whole contract is ended, repudiated, and Sir William, asked if he disputed the claim of the coal company that the contract is ended, replied: "Most certainly I do. That claim is absurd. The contract between the two companies was made under the authority of their respective boards of directors and the petition of both companies was confirmed by the legislature of Nova Scotia."

## NEARLY NAILED UP CHURCH TO PREVENT THE INDUCTION

**Those Objecting to Curate, How-  
ever, Compromised in the  
Reading of a Formal Protest  
Forcing Ceremony to Be Aban-  
doned—Bishop Expresses Con-  
fidence.**

As rector of the parish of St. John's and the Balm Beach Mission, I am responsible for its management and subject to the approval of the bishop. I have asked for and secured the appointment of Rev. Mr. McIntyre as my curate. As long as I am rector, and the lord bishop is Lord Bishop of Toronto, he is the head of the church, and as such I will be loyal to him."

So said Rev. W. L. Baynes-Reed in the Balm Beach Anglican Mission Church last night, the occasion being the induction to the curacy of Rev. E. A. McIntyre, formerly curate of St. Paul's.

Continuing, Rev. Mr. Reed said that a great misconception existed with respect to the new appointments and the conditions. It was not proposed to form a new parish, but to continue as before under the rectorship of St. John's.

"I trust," said the rector in conclusion, "that this church will witness no more of the unseemly scenes hitherto enacted here."

## FLAX STRAW IS ONLY FUEL SASK. FARMERS IN PLIGHT

**Coal Famine in West Owing to  
Coal Miners' Strike Which  
May Soon Be Settled.**

Winnipeg, Man., Nov. 25.—(Special.)—The coal situation is growing desperate through Saskatchewan and Alberta, and a great deal of suffering has already taken place. W. MacKenzie King, deputy minister of labor, is in Lethbridge endeavoring to settle the strike, but even if trouble was settled to-morrow, it would be several weeks before any coal could be shipped, and it would be a mere bagatelle compared with what is needed.

A despatch from Yellowgrass, Sask., shows how great is the famine. Saturday morning word was passed around in Yellowgrass that a car of coal was on the road. By noon the road leading to the railway was blocked with men and teams. When the car arrived there was a rush for the scales. Some had come 16 to 20 miles and had left their wives and children at home with nothing but flax straw to burn.

One man reported that he had to burn a wooden bedstead to cook breakfast. All teams received little coal when the car arrived.

## GOVERNMENT OFFICIAL IS MOBBED TAKEN FOR SOUGHT-FOR CRIMINAL

**Belleville, Nov. 25.—There was a wild  
time in this city for an hour or so last  
night. For the past few days the citi-  
zens have been greatly worked up  
over the series of attempted criminal  
assaults which have taken place. The  
assault on little Myrtle McCune, on  
Friday night, was the last, and public  
opinion was on the qui vive, because  
it was known that the police expected  
to make an arrest in connection with it.  
Last night Front-street was crowded,  
and suddenly there was a wild commo-  
tion. It is said that a woman near the  
City Hotel had pointed to a well-dressed  
stranger, who was quietly walking  
along, and denounced him as the man  
who had been committing the out-  
rages. Some men who were near  
pounced upon him. Luckily a police-  
man was near and arrested the man  
and started off with him to the station.  
The story started that a man who  
had been caught attempting to assault  
a woman had been arrested, and in a  
short time a big crowd had gathered,  
many of whom were in favor of harsh  
measures. The man had been staying  
at the Anglo-American Hotel and there  
the police took him to escape the mob.  
By this time a crowd of several hun-  
dreds had gathered in the street. Ex-  
planations quickly showed that the  
man arrested could not possibly have  
been connected with the assaults. He  
is a government official here for a day  
or two on business, and quickly con-  
vinced the police that a mistake had  
been made. The chief of police ad-  
dressed the crowd which, after having  
had the mistake explained, quietly dis-  
persed.**

## CRAPSEY BOWS TO CHURCH RENOUNCES MINISTRY REAFFIRMS BELIEF

**Declares He Will Carry His Case  
to Free Intelligence of People  
and Says Tribunal of Free  
Thought Will Decide Contem-  
tion.**

Rochester, N. Y., Nov. 25.—Bowling to the will of the church, but refusing to make a cowardly retraction of the belief which induced the church to terminate his ministry, the Rev. Algernon S. Crapsey, rector of St. Andrew's Church of Rochester, to-day renounced his ministry in the Protestant Episcopal Church in a letter to Bishop William David Walker of the Western Diocese of New York.

In this letter Rev. Mr. Crapsey reaffirmed his belief that "the notion of the origin of Jesus, that a son of man was born without a human father, is without foundation in history."

He also asserted that "When I say of Jesus that He ascended into heaven, I do not mean and cannot mean that with his physical body of flesh, blood and bones, he floated into space and has for 2000 years been existing somewhere in the sky, in that very physical body of flesh, blood and bones."

Declaring that he is about to carry the case to the free intelligence and enlightened conscience of the world, he counsels the "hundreds of clergy-men and thousands of laymen in the Protestant Episcopal Church who have reached the same conclusion," as he has, not to be dismayed and to stay where they are.

"I appeal," he says, "from those in places of authority in the church itself to the great body of people." He asserted that he does not blame his judges and that he bows to their will and feels that it is final for him. He says, "I am equally certain that it is not final for the church. When the great tribunal of free thought has decided this contention," he adds, "the men who administer the church on earth will conform to this decision."

"Having let go of the 'temporary and unstable interpretation of the creed,' he declares that he holds more firmly to the gospel.
