The Ozone Company, Toronto:
Dear Sirs,—I cannot speak too highly of your Ozone, as it was of great benefit to me. I was in a very poor state of health as my system was entirely run down, but I had not taken many bottles before I was greatly improved. Victory Over Disease. The Ozone Company, Toronto:

Dear Sirs,—I have much pleasure in testifying to the wonderful curing powers of your Ozone, and what it has done for me, For 18 years past I have been treubled with tropical dysentery, also a complication of other (diseases. I attended St. George's Hospital, London, England. They told me my disease was incurable. I then went to the West London Hospital, at Hammersmith, England. I was told the same thing. For the last 8 years I have been treated by the General Hospital, Grace Hospital, and also Simcoe-street Dispensary; they all did their best, but all said I was incurable. One of the hospitals asked me for my body when I died. This showed how bad my case was. I had also a tump in my stomach about the size of a hen's legg, which was thought to be cancer. It burned like fire all the time. Finally I could keep nothing on my stomach, and I also lost my appetite. Mr. A. Cunningham advised me to try Ozone, as he thought it would cure me. After taking Ozone a few days my appetite came back and the lump in my stomach went away, and in a week's poor Ozone, as he thought it would cure me. After taking Ozone a few days my appetite came back and the lump in my stomach went away, and in a week's proved a total failure. Over a year ago I was induced to give Ozone a trial, and to day I feel glad and rejoice in being cured fan obstinate case of Chronic Catarrh. My yesight is much better. My hearing is immoved to give Ozone and all my complaints have been completely cured. I never felt better In my life. It is certainly a miracie to cure my diseased body after all the treatment I have gone through.

At Simpson's yestemporary, tho very effective nowrooms up in the new store were thronged with admiring femininity-an whom it has become a custom to purchase millinery in Toronto-all bent upon secur ing early in the season a smart and becom having its own color, reveals many inter-esting facts in regard to the millinery for the incoming season. Strikingly noticeable is the flat, broad effect in toques, berets,

vogue. Then, Simpson's have an especially

heart. Many of them are black-in fact, black flowers and pompoms are the ea-the note of color being sup Idled by the elaborate and ornate centre

Of the hats, per se, shown at Simpson's there is a deal to be said. The Paris models are dreams of loveliness, while the home models are equally desirable. There is a Lynn Faulkner capeline, for example, whose lines and tone will commend it to the fastidious dresser. It is composed entirely of folds of silvery grey panne velvet, and laced with draped white epingle. Two large grey doves are the sole trimming of this simple, yet exceedingly stylish, and

Another grey creation, a beret in style, is composed of grey panne, with a gold and silver embroidered and spangled drape effective bow of grey merveilleux ribbon, and directly in front of the brim a handsome gold buckle holds in place a long grey plume, which droops away along the left side. It is the grace of line and plume which these capelines and berets have that makes them so exceedingly attractive.

But the toques are still in high favor, and Simpson's are showing some beauties. One, which comes over the face, is of reseda panne, in two shades; about the brim is a rich and beautiful drape of embroidery, in varied tones of reseda, and a high mount of white coque feathers, with a reseda bird of paradise aigret at the left side completes an exceedingly stylish affair.

Flatter and broader is a toque of white epingle, having a crown of green velvet eaves and a drape of renaissance lace or brim. A white bird of paradise aigret which rises high at the side, is caught by a handsome buckle of reseda and steel

The double-brimmed hat, which droops over the face, is one of the very new affairs shown at Simpson's. It is of white panne velvet, each brim bound with black velvet, and has a low black velvet crown. At each side of the crown is a large black feather pompom, and between these, and directly across the front of the crown, is a beautiful steel and green metal buckle At the back there is a huge broad bow of black velvet, stitched three times about the edges. Chronic Dyspepsia Cured.
Ozone Company of Toronto, Toronto:
Dear Sirs,—I am pleased to say I have had the most beneficial results from Ozone for Chronic Dyspepsia that has troubled me for ten years. I only took a few bottles, and I am entirely free from that awfully distressing disease. My general health has greatly improved. Yours very truly, (Signed) J. GIBBS, 724 Queen St., Toronto.

Very striking and stylish is a capeline lined below the brim with narrow frills of black taffeta, bound with black velvet. On the bandeau is a long buckle of enamel and steel, handsomely studded with turquoises. The crown is composed of drapes of tur quoise panne velvet, edged with narrow fringes of black ostrich feathers, and a large drooping breast of black feathers

Alternate frilled rows of narrow black velvet and ribbon are em-ployed with stylish effect, to form a low, drooping - brimmed hat, with graceful lines. The trimming of this hat is a huge black feather pompom, whose leaves are edged with chenille: be low the brim, at the side, are black feather flowers, spangled with black se quins; finishing the whole are strings of

Black and mourning hats are especially good this year at Simpson's. I noticed that a great many of them are made of black silk, bound with black velvet, and often the crown is a huge black rose. Others equally stylish are composed en tirely of softly folded black epingle. Indeed, softly-draped brims are the general rule in all hats this season

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in cholera was Chiorodyne.— See Lancet, Dec. 31. 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE is prescribed by scores of orthodox practitioners. Of course, it would not be thus singularly popular did it not supply a want and fill a place.—Medical Times, January 12, 1866.

DR. J. COLLIS BROWNE'S CHLORODYNE, the best and most certain remedy in coughs, colds, asthma, consumption, neuralgia, rheumatism, etc.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure for cholera, dysentery, diarrhoea, coile, etc. Caution: None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp.
