

DOMINION'S NEED IS BUILDING PLAN AND TO KNOW WHERE SHE IS HEADED

affords. You have this one opportunity. Choose now!"—could he answer? Could you?
Or I?
Or the Lord's Day Alliance of

Other nations would not be quite embarrassed. Australia, for example, has a clear conscience. It is not it comes to saying what one wants of her neighbors. She has definite no-objection to the United States. She has fairly clear ideas about the United States and about the British Empire. Australia speaks, she speaks at least like one who speaks with a consciousness of her ultimate intent and a clear desire to stand by it.

Or Great Britain? She knows what she needs and what she must have. She knows what she must do to obtain raw materials to maintain her industries. Control, among other things, is a necessary part of her life. Such privileges in the Far East and the Balkans.

And the Balkans knows where she wants to sell her wines and where she must get coal and iron. How she

Uncle Sam Has a Plan.
The United States has even an Am-

[illegible]

But he will not stay long. Spies come and some newspaper item tells him hungry to see the prairie again to smell the Ontario northland. He quits and wanders north once more. Sometimes it is the poetic instinct the wanderer that moves him. Sometimes it is debt—or domestic trouble or melancholia. The Boomer is the wanderer and the despair of the railroad office. And to my mind the Boomer is the

Now the Boomer in any and all trappings of life—is the hope and the dream of the future. He is the wandering instinct, or for those of things which make men restless. For that matter America might not have been discovered. The lust for adventure, the trade of commerce, the trade of medicine, or farming, or butchery, or any other trade, might never have flowered with souls. Vancouver might never have been discovered. The Boomer speaking in the wider sense of the word—the Boomer who gives to the place that knows him the name of Boomer—might never give it. The stupid man dare be a Boomer. His hold on life is so tight that he cannot let it go, and clutches it tight. It is the Boomer who dreams and dares and does! But we must anchor the Boomer. Consider the Canadian Boomer who is the Boomer of the law and the profession of law and then fly

Commissioner General on Hon. Anthony Caminetti He Uses Nuxated Iron

For want of Iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and "run-down," while at 50 or 60 you are plucky, full of vim and plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy.

As proof of this take the case of Former United States Senator and Vice-Presidential Nominee Charles A. Towne, who at past 38 is still a veritable mountain of tireless energy. "I have found Nuxated Iron of the greatest benefit to me," says he, "regulative. Henceforth, I shall not be without it. I am in a position to testify for the benefit of others to the remarkable and immediate helpfulness of this remedy and I unhesitatingly recommend Nuxated Iron to all who feel the need of renewed energy and the regularity of bodily functions."

Then there is Former Health Commissioner William R. Kerr of Chicago, who is at the 50 year mark, but still vigorous, active, full of life, vim and energy. "Former Health Commissioner Kerr says he has been using Nuxated Iron personally for some time. His activity today is largely due to this use of Nuxated Iron, and that he believes it ought to be prescribed by every physician and used in every household."

If you are not strong or well you owe it to yourself to make the following test. Take two or three meals for one becoming tired. Then take two five-grain tablets of ordinary Nuxated Iron with each meal for two weeks. Then test your strength again and see how much you have gained.

HON. ANTHONY CAMINETTI
United States Commissioner of Immigration.

WHO IS HE?

Born Jackson, California, July 30, 1854. Admitted to the California Bar 1877—District Attorney, Member of the California Assembly 25th, 32nd and 33rd Sessions. State Senate 27th and 28th Sessions. Member Congress 1891-5. Presidential Elector on Cleveland ticket 1888. Delegate to the Democratic National Convention 1896; received vote of his party for U. S. Senator (15th ballot) at 33rd Session California Legislature 1899. Made Commissioner General of Immigration by appointment of President Wilson, Author of the law known as the Caminetti Law, passed by Congress 1893, under which hydraulic mining was resumed in California, and Chairman of the California Commission for the revision and reform of the law.

Manufacturers' Note.—Nuxated Iron, which has been used by Commissioner Caminetti and other officials with such stupendous results and is recommended above by Dr. Baker, is not a "strong" or "stimulating" medicine, but is a drugless everywhere. Unlike the other "strong" iron products, it is easily assimilated and does not inflame the teeth, make them black, nor upset the stomach. It is a safe, reliable, and successful and entirely satisfactory result to ever produced in this country. It is now being dispensed in this city by Standard Drug Company.

The old-fashioned methods of handling men were bad. They have gone, never to return—at all events never in general practice. There was a time when the "sharp" official was supposed to be the successful man—always harsh, maintaining discipline on the German

[illegible]

To build up and maintain the morale of our Canadian people we must have equal treatment for all citizens. We should be quit of the exploiter of low-class labor and the speculator in necessities of life. We should see that working conditions and living conditions for our people are right. Sooner or later we shall thus be enabled to wipe out the "boomer" tradition in Canada, and create a national consciousness capable of formulating plans for our future as a nation.

**LADY BORDEN WANTS
VICTORY BONDS FOR
PRINCESS PATRICIA**

Fund Will Remain Open Until
About February
20th.

Ottawa, Feb. 17.—In response to the many inquiries as to the form which the wedding gift by the women of the Dominion will take, Miss Patricia MacFarlane, on behalf of the committee in charge of arrangements, that, after consulting the various provinces it is felt that the gifts should consist of Victory bonds and the various provincial committees have been so advised. This announcement will enable friends throughout Canada to set to work upon definite lines in support of the gift which, it is hoped, will remain open until about February 20.

Arva, Feb. 7.—A public meeting in the interests of the Ontario United Farmers was held in the town hall here on Wednesday evening. A large number of farmers attended. Interesting and instructive addresses were delivered by Mr. Forsyth of Chatham and Mr. Currie of Strathroy. At the close the local club was reorganized, with the following officers in charge: President, G. E. Hudson; vice-president, A. Ironside; secretary, H. E. Ralph; directors, R. A. Gough, W. Foster, H. Knapton, W. Carmichael, J. Docker and James

The monthly meeting of the W. M. S. and Mission Circle was held in the parsonage. A large number of ladies were present and a interesting session was held.

L. C. Hudson will open a garage here shortly, having secured the agency for two leading manufacturers of automobiles.

Scott, 46th; Ralph Sheppard, 3rd; Frank Thompson, Mounted Rifles; John Thompson, 43rd; N. Waddell, Mounted Rifles; Wm. Walker, 75th.

HAMILTON JURORS SUE HERALD PRINTING CO

TORONTO, Feb. 7.—R. B. Spera and thirteen others are plaintiffs in an action against the Herald Printing Company of Hamilton to recover \$14,000 damages for libel alleged to have been contained in remarks upon "professional jurymen" which appeared in the issue of November 27. This morning at Osgoode Hall Mr. Justice Rose struck out a paragraph of the newspaper's de-

a fair and accurate report of the proceedings of the municipal council, and directed the amendment of another paragraph setting forth that the comment complained of was bonafide comment on a matter of public interest namely, with regard to the proper practice of summarizing corporate financial

MADE IN CANADA

**The Only One
With Organ Pipes**

In all the wide world, there is only one make of phonograph that has taken advantage of the principle of the pipe organ and installed inside

Records played on this "Organola" Model are given a really wonderful reproduction. Play the "Sextette" record on the "Organola" Model, and you will have a real idea of the value of the tone control pipes. There is none of that confused blurring as when played on ordinary makes of phonograph, the tone control pipes of the "Organola" Model separating the different voices and notes, giving a pure, clear, lifelike rendition.

Try a record of a violin, a piano, a soprano, or anything else you know the ordinary phonograph does not quite reproduce faithfully, and you will find that the "Organola" Model renders the selection perfectly and with a surprising volume.

If you are going to invest upwards of \$250 in a phonograph, you will, of course, want to procure the finest that can be built. You will want to get the best of the
