

Shoe

Of all the 20 improvements of the clever-looking Napoleon Shoe the feature which best pleases the eye of the buyer is the Artistic Arch. Special lasts are made for every pair of Napoleons-foot-sculptured lasts and inside there is a stout steel arch which snugly holds the instep.

That free, athletic stride which marks the man of action is not possible when the arch support of the shoe fails in its function.

Showing the Napoleon Shoe is a pleasure—whether you come to see or to buy.

Sold everywhere in Canada, the United States and Great Britain at the same price \$5, \$5.50 and \$6.
