

FOAMING DELICIOUSNES

Holliday's 'East Kent' Ale

Is not only deliciously refreshing, but it is, above all things, characterized by absolute pureness.

"IT HAS THE HOPPY TASTE"

"EAST KENT" has been brewed in Guelph in the good old-fashioned English way by two generations of the Holliday family. They brew ale as it should be brewed. You will agree with this if you once try it.

BIG MEETING IN REID AVENUE FAVORS UNION

Will Resubmit Petition Under Board's New Ruling—County News Notes.

The board of control and Assessment Commissioner Foran have virtually endorsed a proposal to extend the area in York Township, seeking annexation with the city.

Instead of annexing 200 feet north of Danforth-avenue, it is now proposed to extend a distance of 100 feet, including the old "Chester" line from the Belt Line to 200 feet east of Leslie-street, and thence southerly to within 200 feet of Danforth-avenue, easterly to East Toronto.

This was the statement handed out at a big rally of annexationists in Reid-avenue Presbyterian church last night, and backed home as it was by representatives from the Chester district, who declared that the petition would win, the meeting having the statement with the greatest enthusiasm.

Rev. Mr. Christie presided, and many ladies graced the gathering with their presence.

J. W. Miller, who was largely associated with the original petition, who declared that the railway and mill-sites and industrial expenses, said Mr. Miller, "but we are all willing to do it again, and the next time we will submit a showing which will admit of no dispute."

"We are out to win this fight," and with one exception the big meeting cheered the statement.

Major Encourages.

"We in East Toronto are watching your fight for better light, better sewage and better home conditions, with the greatest interest," said Mayor McMillen of East Toronto. "We want to unite ourselves with the big city, but we do not want to be separated from it by 1600 acres of land, with no common interest." The mayor assured them of his hearty support.

"I am the owner of Lindenhurst, some 40 acres in the disputed territory," said J. W. Linden, "and the golf opponents of the measure try to enlist my support, pointing out the tax-bugaboo. If I owned 500 acres I would still want sanitation and progress," said he, and the applause shook the building.

Take in Chester.

Charles Lennox gave a concrete statement of the progress made since the rejection of the petition by the board, and outlined the proposed increase in area, which it was considered judicious to annex.

"I am with you in your fight for better living conditions," said Ald. Onisholm. "The City of Toronto will give you at once better lighting facilities, one of the great needs. He reviewed the comparative cost of taxation and showed clearly that the advantage was

with the city. City water was not the least among the benefits which would accrue.

Never Saw District.

"Where did the members of the railway board get their geographical information?" asked Mr. Christie. "Why did they not come up Reid, Ashdale or Coxwell-avenues? We plead for the moral welfare of our families and the improved sanitary and home conditions which come from union with the city," he said.

"It is all very well for the golf club to enjoy themselves seven days in the week, but we are plain people, and only ask for common necessities of life," was a statement which brought a volley of applause.

Mr. Fallon, as representing Chester, voiced the opinion of a large number as favoring the enlarged area, and declared that the movement would receive large support.

Edward Gillespie, who probably more than any other man, has worked indefatigably, made a strong appeal for unanimity and aggressive work.

James Brown, 4 Coxwell-avenue, who in the earlier stages of the meeting wanted to submit a question or two, was then accorded the privilege.

Mr. Brown's question was with respect to the application of certain Wyntonwood and Bracondale residents of a fixed assessment, as suggested by the railway board.

Would Oppose It.

"Whoever the board of control may do, and it is well understood that applications for annexation are unconditional," said Ald. Onisholm, "I am utterly opposed to granting any."

"Straight annexation for us," said the big gathering, and so it stood.

Committee Nominations.

This committee was appointed: Chairman, Edward Gillespie, and Messrs. D. Leslie, G. G. MacKenzie, C. Lembo, J. M. Miller, J. Linden, J. M. Boyce, J. Perrier, L. Gillespie, J. Burton, H. Anderson, R. Robinson, W. W. Johnston, J. Fallon.

AURORA.

AURORA, Nov. 12.—(Special).—This morning the 20 employees of the L. J. Sisson Shoe Co. quit work, or as they claim, were "locked out," due to a dispute between the company and the latter, the latter, eleven in number, objected to a reduction in wages consequent upon the introduction of labor-saving machinery. The men say that whereas they have averaged \$1.00 to \$2 a day, the new terms would bring them to about a dollar a day, while the company claim that the machinery will allow them to do faster work and so make up the reduced prices per piece. Others of the employees quit work in support of the latter. They include 15 girls.

"The trouble was caused by the introduction of labor-saving machinery, doing better and faster work," said Fred Underhill to The World to-night. "We could not run to advantage with a portion of the works tied up, and have accordingly closed down until the strikers' places are filled."

LESS FAVORABLE WHEAT SOWING THIS YEAR'S CROP REPORT

Statistical Bureau Issues Bulletin of Yield of Root Crops and Other Farm Products.

No. 11.

In typewriting we have won the championship of Canada, of America, & of the world—the last in 17 successive contests. We mention it to show that we have something behind these little talks.

The Kennedy School is at 9 Adelaide St. E. in Toronto.

OTTAWA, Nov. 12.—(Special).—The following statement, issued by the census and statistics office, presents final estimates of yield during the past season in the Dominion of root crops, clover seed, fodder corn and hay, with market prices.

Potatoes on 503,600 acres yield an average of 142 bushels per acre, being a total of 71,511,000 bushels. The average market price is reported at 30 cents per bushel, and the total value of crop may, therefore, be put at \$35,755,500.

Turnips and other field roots on 271,800 acres, and an average yield of 871 bushels per acre, show a total production of 100,705,363 bushels, which is considerably in excess of the preliminary estimates a month ago. The market price averages 19 cents per bushel, which indicates a total value for these crops of \$19,134,000.

The area of hay and clover is 8,211,000 acres, which at an average yield of 1.52 tons, indicates a production of about 12,481,000 tons. At an average price of \$10.25, the value of the crop may be put at \$128,882,150.

Fodder corn, occupying an area of 539,700 acres, yielded an average of 11.08 tons per acre, and a total production of about 5,978,000 tons. The average market price is \$4.05 per ton, and the total value represents \$11,656,000.

The yield per acre of clover seed is estimated at 2.38 bushels in 1908, as compared with 2.02 bushels in 1907, and of alsike clover seed at 2.32 bushels in 1908, as compared with 2.21 bushels in 1907. The market price of red clover seed this year averaged \$7.00 per bushel as compared with \$9.77 in 1907, and alsike clover seed this year averaged \$9.57 as compared with \$9.06 in 1907.

It is estimated that the volume devoted to clover seed this year exceeded that of 1907 by 29 per cent. in the case of red clover and 5 per cent. in the case of alsike.

An attempt was also made to ascertain the extent of the increase or decrease in the area sown this year for next year's crop of fall wheat, the year's crop being represented by 100. According to replies received it would appear that the area under fall wheat will next year be less than that of 1908 by 4 per cent. It is estimated that the acreage of summer fallow land this year is 3 per cent. less than in 1907.

"FAIR OF ALL NATIONS" A BRILLIANT SPECTACLE

Event Under Auspices of Toronto Nurses Opens Successfully at Massey Hall.

Massey Hall has become transformed as no by night into a scene of life and color. The ground floor has been cleared of its rows of seats and the interior now presents a bazaar-like appearance. The floor is spread a sweeping canopy of white and green and around the walls are ranged booths, gay in drapings of all the colors of the rainbow and a few more.

Charming music is being furnished by many of the races of Europe and of the Orient fit-hither and thither, and in word, the "Fair of All Nations," under the auspices of the Toronto Graduate Nurses' Club, opened last night.

The presence of Sir Morimer and Lady Carr lent to the pleasant occasion the last touch it needed. The attendance was all that could have been desired, the spacious arena being densely thronged from the time of the arrival of the party, who were met at the entrance by the president, Miss nurses, numbering 150 in all. In white, formed a double line from the entrance to the platform, where the former lieutenant-governor was received by some crops. Corn and tomatoes showed no increase, while strawberries were retarded in growth.

An Ontario producer, A. MacMeen, said he was induced to try irrigation to save two acres of a celery crop from drought, and that he saved enough that year to pay the cost.

Secretary J. Lockie Wilson said there was a need of legislation regarding the non-warranty clause found in seed packages and in catalogs, and penalizing seed vendors who dispose of seeds which show less than 60 per cent. vitality.

He suggested that the Guelph College be asked to test seeds and publishing results as a further means of getting rid of inferior grades. "The new bank deposits is increasing," he said.

Meeting for Students.

A students' meeting will be held in Toronto University Convocation Hall on Sunday afternoon, to be addressed by E. T. Colton of New York, representing the International Y.M.C.A. and N. W. Powell, K.C., chairman of the Laymen's Movement for Missions. President Falconer will be chairman.

WEST TORONTO.

Council in General Endorse Terms of Annexation.

WEST TORONTO, Nov. 12.—Every meeting held to discuss annexation brings the union of this city with Toronto nearer a reality. The agreement, as endorsed by the board of control, was discussed at a special meeting of the West Toronto City Council and received with favor. There was one dissenting vote, however, in the person of Ald. Howell, who declared that the agreement as it stood at present was too vague and that West Toronto, in his opinion, would gain nothing by annexation on the terms now proposed.

"I don't see," said he, "how we are to be benefited by the terms of this agreement in any shape or form, and I think annexation on this basis would bring about a business depression in West Toronto such as has not been seen for some time."

City Solicitor Anderson made a splendid address in favor of the agreement and enumerated the different reasons why a union of the two cities would be desirable.

"We will be part of the great City of Toronto with its splendid credit," said he. "We have a debt of one million dollars, which has hampered us in all our financial work."

Mayor Baird explained that the terms would be submitted to a popular vote and if they were not favorably received by the voters, he would be voting against annexation.

R. L. McCormack also spoke in favor of the agreement as it is.

Police Magistrate Ellis returned yesterday from his hunting trip in the Muskoka wilds, and has a yearling doe to his credit.

Supr. O'Donnell has installed a powerful new arc lamp on the corner of the old fire hall to light the approach to the new one.

KLEINBURG.

KLEINBURG, Nov. 12.—(Special).—The death of John Brown, a well-known Vaughan Township farmer, took place here to-day. Deceased was 55 years of age and a native of Guelph. He was for some time resident in Morristown and Rockton, later removing to Kleinburg, where he had lived for 25 years. He leaves a widow, six sons and three daughters. Mr. Brown was a member of the C. O. O. F. and the Woodmen of the World, and had been ill about a year. In politics he was a Liberal.

WEST TORONTO.

Templeman Inquest Opened.

NORTH BAY, Nov. 12.—(Special).—An inquest into the Temiskaming steamboat disaster opened this morning at Mattawa and was adjourned until Saturday.

Ryan, Morrison and Roy, the most seriously injured of the survivors, are doing well.

Battlefields Commission Hears.

Sir George Garneau, mayor of Quebec, Hon. Adolard Turgeon and Byron E. Walker, members of the Quebec Battlefields Commission, met in Toronto yesterday. The work before the commission yesterday was the passing of accounts. The commission will meet again to-day.

Fugger Gets Two Months.

ST. CATHARINES, Nov. 12.—(Special).—Convicted of passing a forged cheque on Peter Freeman, Robert Collins was sentenced to two months in the county jail.

Chambers-Perland Strike.

A telegram was received last night that a new strike of ore was made on the Chambers-Perland property at Cobalt.

WANLESS & CO.

396 Yonge Street TORONTO.

NEED MORE PROTECTION DO VEGETABLE GROWERS

Opinion That Canadian Market is Too Open to Outside Producers, Expressed at Convention.

The feeling that the tariff should be revised so as to give more protection to small fruit and vegetable growers was freely expressed at the fourth annual convention of the Ontario Vegetable Growers' Association held at the city hall yesterday. President R. H. Lewis, Hamilton, presided, and the attendance was large.

Hon. James Duff, the new minister of agriculture, spoke briefly, commiserating the organization on its useful work. He had noted the clamor among vegetable growers for the protection of their interests, and was glad to know that the measure of protection given by the Dominion government was a benefit to the growers. It would not be fair to throw open Canada's markets to the growers of other countries, who would market their crops a little earlier.

C. D. Seelye, M.P., said the tariff should be regulated and improved for the benefit of the small fruit grower, as in the case of the manufacturer. He suggested that the vegetable growers should ally themselves with the agricultural societies, and go before the Dominion house.

Prof. Macoun of the government experimental farm, Ottawa, speaking on "Irrigation and its effect on the growth of vegetables and small fruits," cited a number of experiments made in different parts of the United States, and in Ontario. One particularly significant experiment was that of Geo. A. Mitchell, Penland, New Jersey, who, drawing water from a creek with simple, inexpensive apparatus, had a capacity of 150 gallons a month. The cost of irrigation per acre was \$2.50, and the increase in production was: Cabbages, 120 per cent.; sweet potatoes, 72 per cent.; white potatoes, 36 per cent.; melons, 34 per cent. Irrigation was of no benefit for some crops. Corn and tomatoes showed no increase, while strawberries were retarded in growth.

An Ontario producer, A. MacMeen, said he was induced to try irrigation to save two acres of a celery crop from drought, and that he saved enough that year to pay the cost.

Secretary J. Lockie Wilson said there was a need of legislation regarding the non-warranty clause found in seed packages and in catalogs, and penalizing seed vendors who dispose of seeds which show less than 60 per cent. vitality.

He suggested that the Guelph College be asked to test seeds and publishing results as a further means of getting rid of inferior grades. "The new bank deposits is increasing," he said.
