

FELLOWS' IMPROVED BONESET CANDY.

The only true and genuine. Don't be deceived by the worthless trash sold under the same name!

This Candy is an agreeable, and at the same time, active remedy for Coughs, Colds, Tickling and Dryness of the Throat, Hoarseness, &c., and in clearing the Voice—particularly useful to Public Speakers and Vocalists. It is perfectly safe at all times, and when dissolved in a small quantity of warm water, may be given to very young Children with advantage.

The Proprietors would state that having added ingredients to this already celebrated Candy, rendering it not only the more effectual in subduing the above named complaints, but one of the most pleasant preparations of the kind ever made. They would CAUTION the public against the many productions called Boneset Candy, which differs from the true article in quality and composition, and would respectfully announce that they have, at considerable expense, obtained an apparatus, by which every stick of the genuine will in future be Stamped *Fellows' Compound Boneset Candy*, all others must be spurious.
