**MEETINGS RESUMED** 

There is in the local Boy Scout office

Scoutmaster of No. 6 Edith Avenue Troop, East Saint John, and he presented the cup to the local Scout Association to be used for competition among the Scout Troops of this city. In 1924 Troop No. 6 challenged any Scout Troop in the city to play for the cup, and as no Troop accepted this challenge the cup was given to them for that year, as they played several games. The cup will be presented to the team with the greatest number of games to its credit for the season. No team can claim the cup outright. The name of each season's winning team will be engraved on the cup from year to year. It is hoped that several of the Troops will enter for the cup this year. Troops desiring to compete should communicate with the secretary at once.

## Time Payments on General Motors cars

TATE take pleasure in announcing important reductions in time payment charges on General Motors cars—notwithstanding the fact that General Motors charges have always been extremely low.

The important thing to the purchaser is the total cost of a car. The time payment charge is a part of such total cost when the car is bought on time. These reductions therefore mean, in such instances, a substantially lowered total cost.

It is the policy of General Motors to pass on to the car purchaser economies wherever effected—in financing as well as in engineering, manufacturing or merchandising operations.

The purchase of a car out of income is a universally accepted practice. Six years ago General Motors organized the General Motors Acceptance Corporation (GMAC) to make credit available at the lowest possible cost to purchasers of General Motors cars.

The standard time price of any General Motors car is the cash delivered price, plus only new GMAC charge.
