IRA HANNAH OF PORTLANDS IS LEADING PITCHER OF CITY LEAGUE

Compiled Averages Show He Allowed Only 3.83 Runs Per Game—Charlie Gorman Led the Batters and Also Had the Most Stolen Bases.

Ira Hannah of the Portlanders again showed his class by leading the pitchers in the Senior Amateur League the last season.

Among the hitters Charles Gorman of the Portlanders was an extremely mean war club, as his average of .320 shows.

His team mate, Aubrey Snodgrass, who is also playing manager, is runner-up to Hannah in batting, with the excellent mark of .378.

The league champions won their victory by heavy hitting, backed by Hannah's good pitching, as the records show.

A peculiar feature of the series was the fact that the Clippers drew practically as many bases on balls as the other teams combined.

Averages for the special five-game series between the St. Roses and Portlanders are not included in these figures.

An encouraging feature of the season's play was the very much increased attendance of fans.

Another feature was the fact that Messrs. McAllister and Cooper officiated at every league game and gave general satisfaction.

Joe Irvine Boxes Draw in Glace Bay

Sydney, N. S., Sept. 30.—After receiving the worst lacing of his fist career at the hands of Joe Irvine of St. John in their 10-round bout at Glace Bay last night, Joe Carbone managed to squeeze a draw decision from Referee Tommy Casey, which award did not on the whole meet with the approval of the 500 fans present.

SENATORS' LEADER CLINCHES PENNANT

Harris Starts Double Play, Which Ends Game and Decides Series.

New York, N. Y., Sept. 30.—The King is dead, and the King's makers are at work behind the scenes, preparing for the world series convention which will name his successor.

John McGraw, veteran Warwick of baseball, will nominate the Giants, Stanley Harris, newcomer in diamond politics, will direct the campaign for the American aspirant, Washington.

Deliberation on the diamond congress will begin in the capital city on Saturday and continue through Sunday, after which the struggle will be continued in New York.

Four ballots are necessary, the fifth will also be taken here, and the sixth will cast in Washington.

The race in the American League, decided yesterday when Washington won from Boston 4 to 2, was another victory for the tortoise over the hare.

Washington, chronic tailender, a baseball wheeze as old as the mother-in-law, plodded along steadily while the Yankee hare, browsed on the sweet sloops of its reputation.

It looked up too late, and was pounced upon by its enemy, the Tiger, while racing through the jungle.

Harris, 28-year-old manager of the successful team which gave Washington its first pennant, climaxed his sensational season's work yesterday by giving evidence of mechanical as well as inspirational qualities.

In the final of the ninth, with his team leading 4 to 2, a Boston runner on first and one out, Harris picked a sharp grounder from the field just back of second base, touched the bag, pivoted and threw almost without looking to first completely a double play which ended the game and beholder the King.

The White Sox defeated Detroit, 16 to 2, in a farcical contest which ended the season in Chicago, Pittsburgh winning 5 to 4.

The American League season is over now, the Yankees playing a double-header at Philadelphia, and Washington meeting Boston in a single contest.

\$4,000,000 IS LEFT TO CHARITIES BY ARTIST-ACTRESS. Lotta Crabtree Bequeaths \$2,000,000 as Fund for Disabled Veterans. WAS 77 YEARS OLD.

Famous Comedienne Was One of Largest Taxpayers in Boston.

By Canadian Press. Boston, Mass., Sept. 30.—A trust fund of \$2,000,000 for disabled veterans of the great war and for wives, mothers and other dependents is created by the will of "Lotta" Crabtree, the actress, who died here last Thursday.

New York Debut a Failure. On June 1, 1865, before an audience composed almost entirely of unemployed veterans of the Civil war, she appeared for her New York premiere in Niblo's Garden and her act was a dismal failure.

Charlotte Mignon Crabtree, one of the rarest personalities that the stage of the last century produced and one of the wealthiest women in New England, died last week in her suite at the Hotel Brewster after a long illness. She was 77 years old.

The famous comedienne of the days of August Daly, who in 1860, from the stage saying she "would rather die unknown than survive on the stage a wrinkled old woman," took her last certain call on Thursday, after a consultation of doctors had reached the conclusion that she could live very little longer.

With her death her family name of Crabtree becomes extinct. Her brother, Charles, died many years ago. She will be buried at his side in Woodlawn cemetery, New York City, the city of her birth.

Her first real estate investment from which she pyramided fortune in bonds and real estate holdings was a piece of land on what is now 125th street. Her friends laughed. Lotta wisely laid away the deed to the land, until the rapid transit line bought up a right of way. She sold out at an immense profit.

At the Woodlawn Park, Albany, in 1896, a pacer was entered who in the first heat showed such remarkable speed that he was protested as a ringer. It was "My Star," the first of the stable of race horses that Lotta Crabtree owned with her brother Jack. For four years the Grand Circuit purses were won handsly by Lotta Crabtree's horses. She started the world of the turf in 1907 by paying \$25,000, an unheard-of sum, at that time, for Sonoma Girl, a trotter.

Becomes an Artist. In the latter years of her life she interested herself in a study of birth control and devoted much of her time to her hobby of landscape painting. To perfect her talent for that branch of art she went to Europe and for a time lived in the artists' quarters of various art centres.

In 1916 she took up residence for the summer season in the art colony at East Gloucester. Even in that branch of artistic endeavor she excelled. Her paintings were considered marvels of artistic simplicity. She had a fine flair for depicting simple country scenes with a realistic touch. Many of her studies were of little children.

QUEEN MARY AND THE PRESS. (Cardiff Times.) Her Majesty does not neglect the newspapers, and with strict impartiality in political affairs, she peruses the organs of all parties. News affecting women's welfare is always carefully read, and it would astonish many people to find how extensive is her knowledge of the industrial conditions under which women work. Much of this knowledge has, of course, been gained at first-hand by visits to factories and work-shops, and much by reading the reports of Royal Commissioners and publications of the Labor Ministry.

But the Queen realizes that the newspapers do not suffer from those limitations which govern official visits and reports, and she amplifies her information by reading, as far as possible, all press articles dealing with those questions.

On the night of July 29, 1867, she appeared at Wallack's Theatre in her own birthplace and succeeded in captivating the audience. She was starred in a dual role in the stage version of Dickens' Old Curiosity Shop, a play called "Little Nell and the Marchioness."

Triumph succeeded triumph after that. She scored in "The Fire Fly," "Topsy," "Bob," "The Little Detective," "Zip," "The Giggle," "Musette" and "Mlle. Ninouche."

She was judged the finest comedienne that the reminiscence of the American stage produced. Her acting was emotional but whimsical, humorous and pathetic. She was the reigning toast of the town until her retirement from the stage in 1890.
