### THERE IS DANGER IN TENDER GUMS

To preserve healthy teeth the ordinary tooth-paste is futile. You must first care for the gums, on which tooth health depends.

How many people think of this? Yet four out of five people over forty suffer from gum-disease, or Pyorrhea (Riggs' Disease).

At first the gums become tender, though actual gum-shrinkage is imperceptible. But in time receding gums will surely loosen your teeth, and then only a dentist can save them.

The tender, bleeding gums of Pyorrhea also act as so many doorways for disease germs to enter the system—infected joints or tonsils—or causing other ailments.

Forhan's (For the Gums) prevents Pyorrhea, if used in time and used consistently. So, automatically, Forhan's prevents tooth loosening.

Brush your teeth with it. It scientifically cleans the teeth—keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for treatment.

30c and 60c tubes. All Druggists.

IS ACTUALLY THE BEST COAL VALUE IN THIS MARKET  
Consider—  
There's more than price to reckon when you buy Coal: It's the amount of heat you get for your money that counts. The more ash your coal contains, the more that coal costs you, for ash is waste, and the cost of its removal adds to the price of your coal. Chemical and other experiment has shown that  
CONSUMER COAL CO.'S AMERICAN ANTHRACITE  
gives the most in heat, the smallest proportion of ash and other waste and, as a result, you get more for your money. Our American Anthracite is all re-screened before delivery. Should it prove faulty, we will gladly remove and replace it or refund your money.  
Our Motto—Quality First, Then Service!
