

CANADIANS NEAR BELGIAN BORDER; AMERICANS IN DEEP THRUST

With the Canadian Forces, Oct. 23—(By J. F. B. Livesey, Correspondent of the Canadian Press)—Our troops which occupy the line of the Scheldt Canal immediately north of Valenciennes have been closing in the area contained within the sharp bend which the canal makes northwest of Conde.

We are now only a few miles from the Belgian boundary. Since we crossed the Canal de La Senese, south of Douai, many of our troops have marched more than thirty miles over almost impassable roads and in miserable weather. Today the sun was shining for the first time in ten days.

With the American Army Northwest of Verdun, Oct. 24—(By the Associated Press)—American patrols early today penetrated deeply into the German lines in the region of Verdun. The enemy has been using his artillery and machine guns freely along the entire front. There has been little change in the situation since last night.

NEW COMPANY

Fredericton, Oct. 24—The Smith Lumber Company Limited, with capital stock of \$80,000 and head office at Woodstock, has been incorporated under provincial charter. Those incorporated are Wallace Miller Smith, Roy Gordon Smith and Mrs. Miss E. Smith. The company is formed to take over the plant, business and assets of the lumber concern of Wallace M. Smith, now doing business at Woodstock and elsewhere under the name of the Smith Lumber Company.

IN WALL STREET

New York, Oct. 24—(Wall Street)—Uncertainty regarding local money conditions influenced the market and prices at the opening of today's stock market. Speculative issues were most affected by this condition, with the oil losing one to three points, while others rose one to two and a half.

Baldwin Locomotive works, the strongest was issued at an advance of almost two points, United States Steel and other industries and equipment, marine fractions. Southern Pacific, Maine Preferred and Studebaker made substantial gains before the end of the first half hour.

Assurance that no drastic measures would be adopted by the money committee infused further strength to the market. Trading ran mainly in unmemorable way, however, with a pronounced reaction of activity. Advances of seven points were made by Standard Oil of Petroleum and East-American Petroleum common and preferred, and two to four and one-half points by United States Industrial Alcohol. American Tobacco was conspicuous among high-grade specialties for its six-point decline. Prices caused materially, when news broke that the United States Steel yielding below yesterday's final quotation and Baldwin Locomotive reacted almost three points.

Notice of Births, Marriages and Deaths, 50c.

MARRIAGES

LYNCH-DOYLE—On Oct. 23, at St. John's, Rev. F. J. McMurray, Joseph Leo Lynch of West St. John to Jennie Agnes Doyle of this city.

MCGILLIVRAY-REED—On October 23, 1918, at St. Theresa's church, Sterling Place, Fredericton, N. B., by the Rev. Rev. Joseph McNamee, V.G., Francis Dennis McGillivray of New York, formerly of St. John, to Mary Florence, daughter of the late James and Sarah Reed of this city.

GROUPEES SUCH AS WORLD HAD NOT KNOWN

Rev. Dr. Hillis on the Hun's "Kamerad" Spirit

Terrorism in Hope of Getting His Aim—Acted the Part of Wild Beasts in Property Destruction and Worse

(From a sermon Sunday, Oct. 13, in Plymouth church, Brooklyn, by the pastor, Rev. Newell Dwight Hillis, who has just returned after a summer spent on the battlefield.)

Another reason why our soldiers at the front deserve our support is that they are called to endure such cruelties as the world has never before known. The rage of the Hun at being compelled to give up north France and Belgium amounts to insanity. The Hun knows that his one hope is the chance to retreat to the heights east of the Meuse River, and there shorten his lines and re-organize his forces. In the hope of terrorizing the French general, Foch, and the French people, the Hun ordered his soldiers to commit cruelties and excesses that would paralyze the French will to believe that the French people would say that rather than suffer these cruelties they would allow the Hun army to retreat back to a place of safety.

A single illustration of Hun ferocity will exhibit the method. Captain D., with a few soldiers, hurried to a village where the Germans had retreated the night before. Lieutenant G. gave me the details of what his captain found. There was a blacksmith, with his hands bound up in cloths. He was a man of fifty to fifty-five, with open, hairy chest, huge back and brawny arms. The aged priest explained that in their retreat the Germans needed a smith. When the Hun officers found that this blacksmith was very skilful they held a brief conference at the door of the shop, and decided that the splendid blacksmith was too valuable a man to be left to the French and British. The soldiers therefore seized the smith, held his hands on his own anvil, and the Hun officer smashed the fingers with the hammer. It is the most exquisite form of agony, probably, that the human body may suffer, having the fingers of the hand, the Hun went away.

It is not the fact that they are cutting down all the orchards and vineyards, poisoning the wells and looting the houses, but it is the ferocity and the ferocity of the Hun that is the tragedy. On Sept. 26, on the edge of Verdun, upon the guns booming just beyond, north of the city, the Hun captured the strong war issues at an advance of almost two points, United States Steel and other industries and equipment, marine fractions. Southern Pacific, Maine Preferred and Studebaker made substantial gains before the end of the first half hour.

Assurance that no drastic measures would be adopted by the money committee infused further strength to the market. Trading ran mainly in unmemorable way, however, with a pronounced reaction of activity. Advances of seven points were made by Standard Oil of Petroleum and East-American Petroleum common and preferred, and two to four and one-half points by United States Industrial Alcohol. American Tobacco was conspicuous among high-grade specialties for its six-point decline. Prices caused materially, when news broke that the United States Steel yielding below yesterday's final quotation and Baldwin Locomotive reacted almost three points.

PERSONALS

Arthur S. Connor, of the Western Union Telegraph staff, arrived in the city yesterday accompanied by his bride, who was formerly Miss Mary Daly of Cambridge, Massachusetts, and Mrs. Connor were married about six weeks ago and after a honeymoon trip went to New York, Philadelphia and Washington. While away Mr. Connor attended a convention of Western Union operators. He was the only delegate present at the convention from Canada, and Mrs. Connor will reside at 61 St. John street.

A. P. Ryan, accompanied by Mrs. Ryan and child, arrived from Toronto Tuesday morning.

The last word received in the city as to the condition of Rev. J. V. Young is that he is believed to do not set in his recovery is assured.

DEVON SERGEANT WINS MILITARY MEDALS

Fredericton, Oct. 24—Sergeant Fred McNeil, of the 10th Battalion, has been awarded the Military Medal for gallantry during the British offensive before Amiens. He was wounded at that time and is now convalescing at Kitchener's Hospital, Brighton, England. The award is believed to have been the highest honor conferred on a Canadian soldier during the war.

Engagements Announced. Mr. and Mrs. David Wallace, North Devon, announce the engagement of their daughter, Betty, to Mr. William Marr of Millville. The wedding will take place at the home of the bride, Mrs. John L. Simms of Fredericton, on the 26th inst.
