### Jewtraw Skates The 440 Yards Final In World's Record Time

MORE THAN 20,000 PEOPLE SEE GOOD RACES AT SECOND SESSION OF ICE CLASSIC

Donovan Skates Mile Within One Second of Record—Cold Wind, But Hush Crowd Does Not Seem to Mind it—Yesterday's Results.

The throng of spectators who assembled at Lily Lake yesterday afternoon witnessed the second day's racing of the International Outdoor Skating Championships, which was the largest ever brought together in Canada to witness such an event. The crowd in the grandstand was estimated at 20,000. The people present were highly pleased with the performance of the skaters.

The star performer of the day was Charles Jewtraw of Lake Placid, who equalled the world's record in the 440 yards of 2-3. He also won third place of the mile, which was skated within a second of the world's record. Richard Donovan won the mile.

Charles Gorman skated well, but got a bad start in the 440. He finished fourth. In the mile he skated well for the laps, but was forced to drop out before the finish.

The weather condition was fair, but still breeze cut along the shore from the northwest. The spectators found the temperature rather low, but there were few protests and almost everybody stayed until the last event.

Hilton Belyea, Canada's champion skater, was a competitor in the mile and was awarded third place in his heat. In the semi-final he was beaten by Kasky and was out of the race. Kasky skated inside of three of the miles and was disqualified.

### ESTIMATES FOR FEDERAL PURPOSES DO NOT EXCEED \$51,000,000

Main Budget Presented in the Commons Yesterday—Reparations Resolutions Declared Out of Order.

Ottawa, Feb. 17.—(Canadian Press).—In the House of Commons, yesterday, Hon. W. S. Fielding, Minister of Finance, tabled the main estimates of government expenditures for the year ending March 31, 1934. The grand total was \$427,511,238.73, as compared with \$479,171,891.90 total estimates last year, or a reduction of \$51,660,653.17.

The bill authorizing the loan of \$5,000,000 for the improvement of the port at Vancouver passed its third reading.

The resolution of J. W. Woodsworth, Labour member for Centre Winnipeg, that Canada withdraw all claims for reparations from Germany, was declared out of order after Premier Mackenzie King, Right Hon. Arthur Meighen, leader of the Conservatives, and Robert Forke, leader of the Progressives, had declared themselves opposed to it.

The Civil Service.  
Debate ensued on the resolution of C. G. Power, Liberal member for Quebec South, that the Civil Service Act of 1918, under which the commission now operates, be repealed. Mr. Power described the civil service commission as the most autocratic and irresponsible body in Canada.

Effort to Sound Belgium on Reparations Negotiations is Read Into Visit.  
Brussels, Feb. 17.—It is announced that King Gustav of Sweden is planning shortly to visit King Albert and that he will be accompanied here by the Swedish Premier, Hjalmar Branting.

While no official information is obtainable, Belgian political circles profess to see in Mr. Branting's journey an attempt by Belgium to sound Belgium on the possibility of negotiations in the present reparations difficulty. Mr. Branting, it is pointed out, is known to be favorable to Germany's entry into the League of Nations, which would only be possible after the cessation of hostilities.

The Foreign Affairs Committee of the Chamber of Deputies has approved the explanations given by Foreign Minister Jaspard of the measures that have been taken in the Ruhr.

Conservative Caucus.  
Ottawa, Feb. 17.—(Canadian Press).—Conservative members of the Senate and the House of Commons met yesterday in caucus for an hour, the gathering being broken up only by the bell summoning the members to the Senate Chamber. The Conservative caucus included proportional representation and the alternative vote, and the distribution bill. The attitude to be taken by the party towards the French Settlement Act, 1922, and heretofore authorized the governor-in-council to make such arrangements as he may deem expedient thereunder and to expend the monies hereby voted in the manner and subject to such regulations as he may prescribe.

Today's Session.  
In the House of Commons on Monday the debate will probably be resumed on the resolution of C. G. Power, of Quebec, that the civil service act of 1918 be repealed.

WANTS GUNS SOLD UNDER LICENSE  
Head of Revolver Association Advocates a Measure Like the Capper Bill.  
New York, Feb. 17.—Dr. R. H. Sayre, president of the United States Revolver Association, appeared before the Police Efficiency Forum at police headquarters and advocated the passage of the Capper bill, regulating the sale and distribution of firearms. The bill now pending in the Senate, said Dr. Sayre, will be effective only if the Department of Justice is able to issue a license to the Sullivan law, a law-abiding citizen to get a revolver and impose little penalty upon the crook who is caught with one.

K. T. Frederick, counsel for the association, said after the hearing, that while he considered "gun-toting" vicious, criminals were not prevented by the Sullivan law from purchasing guns. "They are easier to amass into this country than whiskey at present, which is surely not difficult," he added.

Because the law-abiding citizen has found it difficult to buy guns, criminals have been able to commit crimes at will, he said. Speaking on behalf of the sportsmen, 8,000 of whom, he said, belonged to the organization, Mr. Frederick asserted that shooting with a revolver was an innocent and pleasant pastime. He estimated the number of pistols in this country at 20,000,000.

The Capper bill provides that the purchaser of a pistol be of age; that the seller be licensed; that delivery be made only after sale; that the purchaser's record can be looked up; that the purchaser be identified to the seller, and that the seller be equally guilty as the buyer if a crime is committed with the weapon.

Mme Viviani Dead.  
Paris, Feb. 17.—Mme. Rene Viviani, wife of former Premier Viviani, died at 11 o'clock last night after an illness of a few hours. Death came to her in her home near Paris.

Mrs. J. E. Mayor and her son, James, were the guests of honor at a farewell party given last night by several of her days by A. J. Caven, chief live stock and dairy inspector of the health of animals bureau, Ottawa. He left for Halifax today.

ONTARIO FORESTS TO BE MAINTAINED

Government Offers to Plant Trees—Licenses for Tourists Proposed.

Toronto, Feb. 17.—The Ontario Government has under consideration a proposal to compel every tourist to forest in the province and to inform the forest ranger of his whereabouts.

This is a plan proposed to minimize the great losses to the province through forest fires. It was laid before the legislature by the Government recently, and was today laid before the delegation of the associated boards of trade by Premier Drury.

Both bodies viewed the proposal with approval. The delegation from the boards of trade submitted a number of resolutions to the Government, including one that greater efforts should be made to maintain the forests of the province. It was spoken by J. W. Woodsworth, editor of the Ontario Standard, and pointed out that ten feet of timber was burned to every foot destroyed by the axe, and was being replaced, claiming that the province was being denuded of her timber resources.

The prime minister said there was an offer to plant five of charge any land secured by municipalities. This offer had been open for some time and only 15 townships and two counties had taken advantage of it. The municipalities could often get these lands at little or no cost, and they would become great assets.

"It is for you, gentlemen, to urge this project along," said the premier. "There is no reason why counties should not take it up and even towns. We are ready to supply up to 80,000,000 young trees a year."

Two items tied for the day's highest price, each bringing \$600. One of these was No. 928, the novel of Sir Walter Scott, fifty-one volumes, bought by W. C. Bird. The other item was No. 945, The Works of William Shakespeare, bound and extra illustrated, bought by W. C. Bird.

Other items which brought good prices were: Works of Washington Irving, fifty volumes, bought by J. W. Woodsworth; The Masterpieces of George Sand, translated by Gabriel Weis for \$460; The Masterpieces of George Sand, translated by Gabriel Weis for \$460; The Masterpieces of George Sand, translated by Gabriel Weis for \$460.

### SAVED FROM AN OPERATION

Now Recommends Lydia E. Pinkham's Vegetable Compound

Washington, D. C.—"Lydia E. Pinkham's Vegetable Compound saved me from an operation which I was to have had. I have been a sufferer from a very bad case of female trouble. My system was all run down for two years before my little girl was born. Then I read of your wonderful medicine and decided to try it. I could hardly drag one foot after the other, and after taking six bottles of the Vegetable Compound I felt like a new woman. I weigh 140 pounds. When I started taking it I weighed 97 pounds. I gladly recommend Lydia E. Pinkham's Vegetable Compound to any one who is suffering from female trouble or is run down. You may use this testimonial for I am only too glad to let suffering women know what the Vegetable Compound did for me."—Mrs. Ida E. Hyatt, 1829 Penna. Ave. S. E., Washington, D. C.

### LITTLE TEA IN THE WORLD'S TEA CENTRE

London, England, for generations the tea market of the world, is faced with a most serious tea shortage. Recently the world consumption has seriously increased, also, it is estimated there has been eighty million pounds less tea produced this year than in the previous year. As a result of this, the stocks in London are now practically exhausted and the price of tea has risen to a level never reached and may still go higher.
