

REPORT OF THE EXECUTIVE COMMITTEE OF THE TORONTO HOUSE OF INDUSTRY.

There have been seventeen meetings of this committee during the past year.

The work of the House being much lighter in the summer months than throughout the winter, it was determined to hold only monthly instead of semi-monthly meetings from May until October.

The members of the committee have been diligent in their attendance, and most careful in their supervision of all the expenditure of the Institution. As may be seen by the records of the committee's transactions, a meeting has never failed for want of a quorum. Out of the ten members of the committee no one has failed in his attendance at some meetings, and some members attending at almost every meeting of the committee.

At each meeting all the accounts for expenditure have been submitted, and have been carefully supervised and compared with previous accounts and checked over by the committee before being passed for payment. And the expenses have been kept within the strictest economy, while taking care at the same time to preserve the usefulness of the Institution in doing all the good for our less fortunate fellow-citizens within the power of the House with the means placed at its disposal.

No new matters not already made known to the Directors have come before your committee.

All which is respectfully submitted.

THOMAS HENRY INCE,

Secretary.

A. J. BROUGHALL,

Chairman.

29th April, 1892.

REPORT OF CASUAL POOR COMMITTEE.

To the Board of the House of Industry:

The total number of men Casuals who were in the Lodge for the years ending 31st March, 1890, '91, '92, was respectively 1,481, 1,247, 1,050; for the same years, the number who were
