Boer delegates who were recently in the United States, have been interviewed since they returned to France, and they expressed their hope that a satisfactory compromise would follow Mi Schalk-Burger's mission. Mr. Wessels is credited with declaring that Mr. Kruger would approve any terms of peace arrived at in South Africa.

THE HAGUE, March 31 .- Mr. Kru ger. Dr. Leyds and the Boer delegates in Europe are expected to hold an important meeting at Utracht, April 2, to consider the situation in view of Acting President Schalk-Burger's peace move. Well informed persons here say Gen. Schalk-Burger evidently was influenced by the receipt of the news of the result of the Dutch note to Great Britain on the subject of peace in South Africa and by other despatches sent him from here. It is known that Steyn and Gen. De Wet, which heretofore have been carried on easily, were interrupted by the recent British mill tary movements, and, as it was necessary to communicate with Mr. Steyn and Gen. De Wet before any peace proposals could be formulated. Gen. Schalk-Burger had to apply to Lord Kitchener for a safe conduct. Considerable surprise is expressed here at Schalk-Burger's delay in getting in ouch with De Wet, and it is the that something unusual must be behind it. But, even if the Orange Free State and the Transvaal officials agreed to peace terms, it would be necessary for both republics to call a general meeting of the commanders and submit the plainly thinks that there is not in the proposals to the burghers before they could be submitted to Lord Kitchener. Logs at Palmers' Point and Mouth Belleisle Let Loose—Will Be Recovered.

The heavy rain of Saturday and yesterday has had no noticeable effect on the water of the lower river, which is still failing. On Saturday afternoon J. F. Gregory's big sheer boom at Pal-mers' Point parted under the pressure of down-coming ice and logs, and a large number of the logs went through, but were blown by the southeasterly wind along the western sheres of the river, where they can be recovered with comparatively little trouble. The break in the boom was soon repaired.

It was reported yesterday that a big boom across the mouth of the Belleisle also gave away Saturday aftern letting out the whole drift of lun which it was holding. These logs were also piled up along shore by the wind, and none have yet drifted down, though a number of small boats lay in the Narrows yesterday afternoon awaiting

The tug Hercules with a long stretch of boom started up river Saturday night to rescue the floating logs. In the darkness the ferry boat G. Ross ran into the boom, breaking it about halfway up. The loose portion surrounded her so that extrication was impossible and the tug with the logs was drifting rapidly toward the falls when a small boat put out and released her. The piece of boom went through the falls.

Campbell told him he could not waste time in talking and that he must come along at once, at the same time producing a pair of handcuffs and a revolver, threatening to use the latter if any attempt at resistance was made. All thought of fight was evidently taken out of him, and he begged hard to be spared the indignity of

being handcuffed, promising to go quietly and do anything the constable ordered. Campbell was taking no risks and till they were out of the woods and daylights had brought them to the settlements he was kept shackled. When all danger of escape was passed the irons, were removed, and Sussex was reached in time to take the Quebec express for the shiretown. A telegram announcing the capture had been received by the middle of the morning, and when the train arrived there was quite a crowd on the platform, but Constable Campbell and Deputy Sheriff Freeze, who had come from Sussex with them, hustled the

prisoner off across the square and up to the Court House, where Magistrate James W. Smith, Philip Palmer, attorney for complainant, Fred M. Sproul who acted as clerk of the court, and a few others were gathered. Soon the complainant came into court, and in a moment father and daughter were weeping profusely. The information of the girl was read over, and after a moment's pause the prisoner asked for R. LeB. Tweedie, K. C., who came and talked with him, and announcing that

PORTLAND Me. March 21 - The shooting affray at Cape Elizabeth last last night, when Mrs. Margaret E. On Thursday a rumor came that he had been at Salmon River, but as he could be dead. Ten bodies have been recovered to be dead. Ten bodies are reported to be work. From the story told by Mrs. one of a party of young men and women, was as much of a mystery as of age. Yesterday foreneen Mrs. Galwork. From the story told by Mrs. Mansfeld and the young man who was in the house with her when the shooting occurred, the police believe the assailant and his companions were off on a "good time" under the influence of liquor, and the shooting was done more to impress the other members of the party by his bravade rather than to injure the woman. Working on this theory, they are now looking for a hack driver who drove a party to Cape Elizabeth last night, but thus far have been unable to find one.
