

simple fact that Your advisers, while I was in the Government, refused a grant towards the erection of a bridge across the River St. John at Woodstock is meted by another evidence of their want of foresight.

Year Excellency's advisers state that my reference to what occurred at the meeting of Council on the 10th April last was "an unfortunate thing for me."

The simple facts are these: Complaints were frequent and numerous from all parts of the country that the Debates and Journals were not properly delivered by Post and Way Office keepers.

Nothing has as yet been done in the way of making roads and opening up settlements, excepting a survey of one tract for the Scotch settlers; but it is gratifying to know that the pledges of Government to Mr. Glass, "for opening up that settlement," are likely to be fulfilled.

Some interesting trials of the new breechloading rifle carbine, the invention of Mr. Letch, took place on the practice ground of the Royal Engineers at Chatham, on the 15th.

OUR COLONIAL EMPIRE.—We have at present no fewer than 50 colonies—viz., South Australia, obtained by settlement in 1836; Western Australia, obtained by settlement in 1829; Antigua, obtained by settlement in 1832; Ascension, obtained by settlement in 1827; Barbadoes, obtained by settlement in 1609; the Bahamas, obtained by settlement in 1629; Ceylon, obtained by capture in 1795; Canada, (East and West), obtained by capture in 1759-60; Cape of Good Hope, obtained by capture in 1805; Columbia, obtained by settlement in 1858; St. Christopher, obtained by settlement in 1623; Dominica, obtained by cession in 1763; the Falkland Islands, obtained by settlement in 1842; Guiana, obtained by cession in 1803; Gambia, obtained by settlement in 1631; Gibraltar, (military), obtained by capture in 1704; Gold Coast, obtained by settlement in 1661; Grenada, obtained by cession in 1763; St. Helena, obtained by cession in 1673; Hongkong, obtained by cession in 1842; India, obtained by settlement in 1609; the three Indian Dependencies, placed under the direct dominion of the Crown in 1859; the Ionian Islands, obtained by cession in 1814; Jamaica, obtained by capture in 1655; Louisiana, obtained by cession in 1803; Malta, obtained by capture in 1800; the Marquis, obtained by capture by capture in 1810; Montserrat, obtained by settlement in 1632; Natal, obtained by settlement in 1824; New Brunswick, separated from Nova Scotia in 1784; Nova Scotia, obtained by settle-

To do Wm. Paisley for work at night and Superintendance, £140 7 6

Fredericton, 10th April, 1860.

An account, with the receipt of the above payments, was subsequently handed to the Provincial Secretary by my directions. Mr. Miller's bill not included above, was paid in the Contingent Bill.

It is altogether unnecessary for your advisers to regret any want of care on my part in perusal of that portion of their first memoranda referring to the University Bill. When they advise Your Excellency to have published the two Memoranda of Council bearing on this subject—if I have not understood them I have but little doubt that Your Excellency and the country will.

Your Excellency's advisers seem to have either a great desire to misrepresent, or very little to understand, my remarks in the memoranda of May 30th in reference to the St. Andrews and Quebec Rail Road. I would again call Your Excellency's attention to it, and further state for their information that my meaning is therein fully conveyed. In addition to this I would say that the manager was willing to pay cost of survey, and wished no grant till legally entitled thereto. So I understood him.

It is a source of gratification to me, as well, probably, as to a large and intelligent population in this country, to know that the policy of the Government with reference to the settlement of wild lands will be the same as I understood it to be when I joined the Government. This information will be gladly hailed by many as preferable to the do nothing policy which has been followed heretofore by the Government, whose only efforts in the matter have been in supporting an officer at St. John, whose duties are a mere sinecure, and in contributing of the provincial funds towards the support of an inefficient paper in England. Better things are promised.

Nothing has as yet been done in the way of making roads and opening up settlements, excepting a survey of one tract for the Scotch settlers; but it is gratifying to know that the pledges of Government to Mr. Glass, "for opening up that settlement," are likely to be fulfilled. It is now time some one was authorized to commence the work, as the emigrants will doubtless be in our country in July, fully expecting all Mr. Glass has promised for them. I was not aware that the second order to the Deputy for this county for the survey of an additional tract of land in the Glassville settlement was made at the instance of Mr. Glass. I supposed it was for a large number of persons who are forming a settlement known as the Knives settlement; and I was much surprised to learn from the surveyor, that the Crown Land department had given orders not to lay out a road through it.

I must state that with the exception of the 10,000 acres and the tract for the Knowles' Settlement, I am not aware of any survey having been ordered in Carleton County; if any further survey has been ordered I presume it has been by the Surveyor General.

I have the honor, &c., (Signed) CHARLES CONNELL. Woodstock, June 16th, 1860.

Table with 3 columns: Description of work, Amount, and Date. Includes entries for 'To Cash paid H. S. Eady 61 days at 7s 6d per day', 'To do paid J. W. M. Ruel do at 7s 6d', 'To do Jas. H. Workman do at 7s 6d', 'To do H. B. Baldwin, do at 7s 6d', 'To do W. S. Eady, do at 7s 6d', 'To do J. Richards for work at night', 'To do Thos. Paisley do do', 'To do W. S. Eady extra work after close of Session', 'To do H. B. Baldwin, do do', 'To do do extra work at night during Session'.

ment and capture; Newfoundland, obtained by settlement in 1628; Nova Scotia, obtained by settlement in 1628; New South Wales, obtained by settlement in 1788; New Zealand, obtained by settlement in 1839; Prince Edward's Island, obtained by settlement; Queensland, separated from New South Wales in 1859; Sierra Leone, obtained by settlement in 1787; Tasmania, obtained by settlement in 1804; Tobago, obtained by cession in 1763; Trinidad, obtained by capture in 1797; Turks and Caicos Islands, formerly included in the Bahamas; St. Vincent obtained by cession in 1763; Victoria, separated from New South Wales in 1850; and the Virgin Islands, obtained by settlement in 1666.

The Carriz Disease which has made such havoc among the Massachusetts cattle is rapidly spreading, having appeared in New Jersey, Ohio, Maine and other States. We are informed that the attention of the Government of this Province has been directed to the subject, and it is possible that any means can be adopted to prevent the disease reaching New Brunswick, it is likely they will be put into effect immediately.—Morning News.

The sealing fleet, with the exception of about 20 vessels, have all returned to St. John's N. F., from the ice. The quantity of seal lanced in St. John's up to the 9th ult. amounted to about 225,000, being some 40,000, less than at the corresponding period of last year.—News.

It is said that the fire at the Albert Mines has been extinguished, and there is much water in the mines, which will interfere with the progress of the works for some time.—News.

In July there is to be a meeting of the English National Rifle Association to shoot for prizes upon Wimbledon Common. The Queen gives £250 to be shot for by volunteers; and her consort, Prince Albert, gives £100, to be shot for by all comers of all nations.

Prof. O. S. Fowler, formerly of the House of Fowler & Wells, long the able Editor of American Phrenological Journal and author of all Standard American works on Phrenology, will commence a course of lectures in St. John about the middle of June, on Life, its Laws, Organs, Functions and Improvment, as expounded by Phrenology and Physiology. For particulars, time, and place, see special bills and advertisements.—Globe.

Some interesting trials of the new breechloading rifle carbine, the invention of Mr. Letch, took place on the practice ground of the Royal Engineers at Chatham, on the 15th. The range first selected for the experiments was 500 yards. Upwards of 200 rounds were fired in all, without a single instance of miss fire or fouling, or the slightest escape of the powder gas manifesting itself. The rifle was loaded with the utmost rapidity, the movement loading and firing being almost instantaneous. The experiments gave complete satisfaction. Mr. Letch shortly intends making some further trials on a much larger scale at Chatham.

THE CROSS.—We are happy to learn from all sections of the Province that vegetation is progressing most favorably.—N. B.

It is said that the Great Eastern could stow 27,000 bales of Cotton, which at three farthings freight, would amount to, about \$260,000 for carrying a single cargo.

The House Committee of Congress have adopted a report on the cattle disease, and given the Secretaries instructions to procure information at home and abroad, and submit it to Congress the first week of the next session.

The arifesian well, at Columbus, Ohio is well a-going again. The sugar has reached a depth of 234 feet.
