It is a large undertaking, and will be a boot on the public. We have had nothing like it for nearly 20 years, and the ill be a valuable work for all, especially business men and women. The price is exceedingly low for such a large book, and the advertising apaces .re very low, expecially as it is to last lee years, the publishers guaranteeing not to publish head vertising in the subscience. We hope the help they can get to cov.r expense. All head support the work, especially by advertising in it, as that is the main source of benefit to the publishers. We hope the business men will rally round the pub-lishers and not let it fall through, and be be bind all other provinces in the D minion or states in the Usion.

The most successful, treat-ment known, a d it is now frequently re-sorted to by medical men, is the application of that now famous remedy for pain-Pilono's N-rellins. It is earle to any that nothing yet discoverd has afforded equal matinfaction to the suffering.
