

the first two cases, the $\mathcal{H}_2$ norm of the error signal is bounded by the $\mathcal{H}_2$ norm of the disturbance signal. In the third case, the $\mathcal{H}_2$ norm of the error signal is bounded by the $\mathcal{H}_2$ norm of the disturbance signal and the $\mathcal{H}_2$ norm of the reference signal.

In 1890, the State of Tennessee authorized the purchase of 500 acres of land situated in the County of Shelby, to be used as a site for a new building in Oxford, Mo., in 1890. There has been some delay in the completion of the building, and it is estimated that the cost of the building will be about \$250,000. The building is now under construction, and it is expected that it will be completed in 1900. The building will be quite extensive, and it will be used for the purpose of a State building.
