

INDEX

373

338-343: nothing forgotten, (ii.) 341:
quality, (i.) 91: replenishment—loads
landed, Feb. 1912, (ii.) 260: variety, (ii.)
341: ways of store-keepers, (i.) 241
Störmer, Professor, references to, (i.) 179,
197
Storms at sea—outward voyage, (i.) 7-11;
losses sustained, (i.) 11:—worst storm
of all, (ii.) 265
Stowaway on Third Voyage, (ii.) 266
Strain, Mr. P.—*Honorary Dentist*, (ii.) 255
Strand moraines, (ii.) 196
Strathcona, Lord, (ii.) 345
Structure of Antarctic continent, Taylor on,
(ii.) 285-6
Sub-glacial stream, (ii.) 145
Subsidence. See 'Barrier Shudder'
Suess, Mt., looking south, *ill.* (ii.) 176
Summit—conditions compared with Shack-
leton's anticipations, (i.) 365: level—vari-
ation in barometer readings, (i.) 381:
surface, (i.) 365 *et seq.*, 369, 371, 377, 378,
385—undulations, (i.) 358, 378; variety
of, (i.) 358—variable light winds prob-
able, (i.) 370
Summit ration, (i.) 348, 358, 366, *ill.* 266
Sun, last day of—impression, (i.) 171:
midnight sun, (i.) 80, *ill.* 58: recording
rays, (i.) 393, *ill.* 271: return of—cele-
brations, (i.) 389, *ill.* 271; (ii.) 228:
effect on health and spirits, (i.) 270, (ii.)
102
Sunburn, chill on, (i.) 349
Sunburn and frostbite, (ii.) 74, 117
Sunday—first Sunday at hut, (i.) 82-3:
hut routine, (i.) 208
Sunholes, (ii.) 128
Surface, nature of, on Barrier. See Barrier
Surveying—Lieut. Evans' lecture, (i.) 215
Sweating in low temperatures, (i.) 167,
169, 346, 348, 349, 365, (ii.) 184

T

TAPEWORM with a single host—Atkinson's
discovery, (i.) 92
Taylor Glacier, (ii.) 130, 288, 294 *et seq.*
Taylor, T. Griffith—*Geologist*, *ill.* (i.) 264:
barrier problems, (ii.) 283: bicycling to
Turk's Head, (i.) 287: cut hand, (ii.) 174,
175: fall through sea ice, (i.) 152: inac-
tion, effect of, (i.) 246: Lectures—Beard-
more Glacier, (i.) 209: modern physiog-
raphy, (i.) 183-4: Western Geological

Journeys, physiographic features of re-
gion traversed, (i.) 229:—Physiography
and glacial geology of Victoria Land, (ii.)
285-300: pony driving, (i.) 75: school
and university friendships, (ii.) 125:
sketching talent, (i.) 34: snow-blindness,
(ii.) 194: Valhalla, article in *South Polar
Times*, (i.) 228-9: Western Geological
Party, leader of, (i.) 13, (ii.) 152: work
and value, (i.) 142, 181
Tea, effect of, (i.) 373: tea v. cocoa, (i.) 201,
(ii.) 164
Telephone communications, (i.) 234, 249,
290, 291, 294, 295, 302
Temperature, cause of fluctuations—(i.)
190: cold, sensation of, not conforming
to temperature, (i.) 209: comparative
tables, (ii.) 317-18, 320, 326-7: deep sea
temperatures, (i.) 18—series of, (i.) 26-7:
—Hut Point, (i.) 188—March, 1912,
comparison with 1911, (ii.) 212:—in-
verted temperature, (i.) 177, 180, 222:
low temperatures—Barrier, (i.) 255, (ii.)
281: comparison with 1902-3, (i.) 189,
196: first winter at Cape Evans, (i.)
224, 239: record lowest—Winter Jour-
ney, (i.) 249, (ii.) 7, 11, 218: Southern
Journey—unexpected cold, (i.) 400:
Southern Party, dog teams sent to meet,
(ii.) 206, 207, 210, 217: spring journeys
(i.) 284, (ii.) 199: winter minimum (One
Ton Camp), (i.) 320:—rising with south
wind, (i.) 203: Summit—unexpected
high temperature, (i.) 369: upper air, re-
cords obtained by balloons, (i.) 184, 263
Tent Island, (i.) 238, 263 *and ill.*
Tents—double tent:—advantages, (i.) 214,
223, 254, 362, 364: brushing down, (i.)
3, 16: ice in, 286: objection to, (ii.) 269:
—improvements suggested by experi-
ence, (ii.) 154: presented by schools—
list, (i.) *App.* 18, 431
Terminus Camp, (ii.) 146
Terra Nova, *ill.*, (i.) 62: arrangements of
the ship, (i.) 3-5, 7, 9, 12: baling out in
storm, (i.) 9, 11, *App.* 3, 421: berth for,
(i.) 87, 92: crew, *ill.* (i.) 2,—work of, (i.)
94, 96, (ii.) 278:—last boat leaving for, *ill.*
(ii.) 53: leak stopped by Mr. Miller, (i.)
1-2: officers on 1912 voyage, *ill.* (ii.) 260:
pack—ship's behaviour in, (i.) 50, *ill.*
76: rudder—strain feared, (i.) 31:—
pumps, difficulty with, *ill.* (i.) 10, (ii.)
251: purchase and alterations, (ii.) 342—
