Chatham Man Convicted for Offence at King Edward and Vagrancy Charged

Frank Kniveton Forn e 1y a Barber won Over \$500 From Another Citizen

The Toronto News says:

Police Magistrate Denison was this entertaining details of a series of

morning made acquainted with the entertaining details of a series of orap games which took place last December in Room 316 of the King Edward Hotel. At the conclusion of much evidence in respect to the same, Frank Kniveton, who was formerly a barber of this city, was convicted of vagrancy, his Worship having come to the conclusion that he had no legal and peaceable calling, but supported hinself on the proceeds of gambling. A nominal fine of \$10 and costs or thirty days was inflicted upon Kniveton, but Mr. T. C. Robinette, R. C., gave notice that he would appeal from the Magistrate's decision.

HE LOST \$500.

Alex Burns, a Toronto man, was the first witness called by Crown Attorney Curry. He testified that he visited Kniveton's room in December last, with one Harry Chew, arother boarder. Kniveton produced a pair of dice and the game commenced. Burns won \$20 or \$30 at the first game, but when they returned in the evening he lost about \$500 in bash, and in addition left avaluable ring and pin as security for losses he could not pay. He had no complaint to make about the way the game was played, but he had never played with a man who won so persistently as Kniveton. The dier were not thrown on a table, but on the bed.

"This man is not complaining," interjected Mr. Robinette.

"But the authorities are," said the Crown Attorney. "We cannot have a man fleecing our citizens in that way."

WIFELY INDICATION. WHELLY INDICATION.

The next witness was Mrs. Burns, and from her evidence the origin of the prosecution developed. She told how her husband had informed her of his losses at the King Edward, and feeling justly indignant at the treatment accorded him, she went

The young people from here attending school in Chatham had quite a novel experience on Fridey night in getting home. Arrising at Blenheim they found there would be no train going west that night, so, resigned to their fate, the boys slept in the station all night, getting home next day at noon, having been on the road sixteen hours. — Merfin Mirror.
