

FOR PUBLIC CONSIDERATION.

IN no instance has prevalent infatuation been productive of more deplorable consequences, than the blind concession that the members of the medical profession alone are competent to administer remedies for disease. The general cocatenance which is given to this preposterous pretension of an interested class, is one of the most prolific sources of disease, suffering, and early death. How many thousands of persons there are, at this moment surrendering their constitutions to the insidious inroads of almost every variety of human malady, from their reluctance to incur the expense of consulting a physician, and from their ally prejudice against the most simple medicines, unless sanctioned by the mystic authority of a pretendedly learned prescription! If they could see that prescription in plain English, they would find, in a vast majority of cases that it ordered nothing in the world but a little rhubarb, or senna or jalap, or aloes, mixed with sugar and water, and mystified with a little peppermint, or some other scented drug; and a simple cathartic like this is generally efficacious. But the druggist keeps the prescription, and when the patient gets ill again he has again to consult the physician, instead of procuring for himself, at a mere fraction of the original expense, the wonderful remedy which had relieved him. It is that a majority of the population of every civilized country suffer disease to work its insidious way into their system, because the relief they desire from medical aid is at once expensive, transitory, and difficult of access; and thus is exemplified the memorable confession of an eminent physician, that "Prescriptions in the Roman language have indirectly killed more than all the Roman armies!"

A medicine so compounded that it will cleanse the alimentary canal of all its feculent accumulations and incumbrances, give a new and invigorating action to all the viscera that contribute the agency to the digestive functions, and by promoting the insensible perspiration, relieve the whole system of febrile and inflammatory symptoms, most necessarily prove a great blessing to mankind, if rendered at a price which places it within the reach of all classes. If it have an extensive sale, it cannot fail to work more cures, and to do far more general good, than all the members of the medical profession combined can possibly accomplish within the comparatively narrow limits of their private practice. Such a medicine the public has in **MOFFAT'S LIFE PILLS** and **PHENIX BITTERS**, the efficacy of which are established throughout the United States, and voluntarily certified by thousands of individuals whom they have relieved and cured. It is vain that the interested denouncers of popular medicines attempt to include these in their indiscriminate opprobrium. Facts beat theories and are more stubborn even than prejudices. Could the most eminent and successful physician that ever lived collect so many testimonials of remarkable cures, and of an extensive alleviation of suffering under an almost endless variety of human diseases as have been spontaneously presented to the proprietor of the LIFE PILLS and PHENIX BITTERS during the last two years? He believes not, and would be happy to put the question to the test.

The pre-eminence reputation of these medicines being firmly established upon the basis of innumerable facts, it only remains necessary to name persons who are unacquainted with them of some among the multitude of maladies in which they have repeatedly proved successful, and in which, therefore, it may confidently be presumed they will succeed hereafter: 1. Dyspepsia, both chronic and casual, under the worst symptoms of restlessness and pain, flatulency head-ache, nausea, loss of appetite, heart-burn, costiveness, bilious salivations, general debility and wasting away of the body. 2. Diarrhoea, whether feculent, mucous, serous, lenticular, bilious, or tubular. 3. Jaundice, both bilious and spasmodic, hepatic, insalutary, and of the dark green variety. 4. Helminthiasis, or worms, both alvine and anal, and of every variety, from the large tape and joint worms to the insect larvae of the stomach and rectum. 5. Piles, of the blind, the bleeding, the white and the caruncular varieties. 6. Costiveness, whether arising from constipation or obstruction, and of lowever long standing. 7. Colic, the iliac, the painters' the constipated, the constructive, and flutulent. 8. Coughs, the common or humid cough, and the dry and the whooping cough. 9. Asthma, the nervous or dry, and common or humid. 10. The Breast pang, acute and chronic; and also Pleurisy, or chronic pain in the side. 11. The Daily Fever, whether of the mild, the acute, or the sweating variety. 12. Fever and Ague. 13. Intoxication, in any stage. 14. Dysentery, acute and chronic. 15. Rheumatism, acute and chronic, together with podagra, or gout. 16. Marasmus, whether as general atrophy or loss of flesh, or pulmonary decline and consumption, if taken before cavities have been formed in the lungs. 17. Scrofula—scrofula and rapidly ulcerous even in the worst cases. 18. Scary. 19. Hypochondriasis, and all other nervous affections. 20. Spasmodic Palpitation, of the heart and of the arteries. 21. Head-ache.

It is evident, therefore, that these medicines are compounded of ingredients which act upon the system universally, and not mere aloetic preparations. They act without causing pain, or producing any prostration of nervous energy, but on the contrary, strengthen, invigorate and enliven, from the first day's experience of their operation, until the period of convalescence. Directions for use accompany them.

All post paid letters will receive immediate attention.

Sole wholesale and retail by **WM. B. MOFFAT,** 367 Broadway, N. Y. A liberal deduction made to those who purchase to sell again.

Quebec, 10th April, 1839.

MORISON'S UNIVERSAL MEDICINE NOTICE.

THE Subscribers, general agents for Morison's Pills, have appointed William Whitaker, Sub-Agent for the Upper Town, No. 27, St. John Street.

LEGG & CO.

That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. Wing, Clerk to the Stamp Office, Somerset House, in a period of six years, part only of the time that Morison's Pills have been before the public; the number of stamps delivered for that medicine amounted to three million, nine hundred and one thousand.

The object in placing the foregoing powerful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extent that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the Hygeians. How, therefore, can they (much less individually) know any thing about the extent of its properties.

MADEIRA WINE.

A FEW CASKS Howard, March & Co.'s MADEIRA WINE—price £70 per pipe of 110 gallons—for sale by
JOHN GORDON & CO.
St. Paul Street
Quebec, May 1838.

PILES, &c. HÆMORRHOIDS—NO CURE NO PAY!

Price \$1—Hays Liniment—No Fiction.

THIS extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that "he dared not give his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals and the private practice in our country, first and most certainly for the cure of the Piles, and also so extensively and effectually as to baffle credulity, unless where its effects are witnessed externally in the following complaints—
For Dropsy—Creating extraordinary absorption at once.
All Swellings—Reducing the in a few hours.
Rheumatism—Acute or Chronic, giving quick ease.
Sore Throat—By cancers, ulcers or colds.
Croup and Whooping Cough—Externally, and over the chest.
All Bruises, Sprains and Burns—Curing in a few hours.
Sores and Ulcers—Whether fresh or long standing, and fever sores.
Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs, and tightness of the chest by relaxation of the parts has been surprising beyond conception. The common remark of those who have used it in the Piles, is "it acts like a charm."

THE PILES.—The price \$1 is refunded to any one who will use a bottle of Hays' Liniment for the Piles, and return the empty bottle without being cured. These are the positive orders of the proprietor to the Agents, and out of the many thousands sold, not one has been unsuccessful.

CAUTION—None can be genuine without a splendid engraved wrapper, on which is my name, and also that of the Agents.
**L. I. SIMS,
MUSSON & SAVAGE
BEGG & URQUHART.**
Quebec, 29th Sept. 1838.

PILES, DROPSY, SWELLINGS, ALL SORES, RHEUMATISM.

It is absolutely asserted on the most positive proof that the above complaints are arrested and cured by the timely use of Hays' Liniment. It is impossible to find room in this paper to present those proofs which are conclusive and convincing. They may be seen at length as below.

The true article has a splendid engraved wrapper with agents' and proprietor's name, and may be had of
**L. I. SIMS,
MUSSON & SAVAGE
BEGG & URQUHART.**
Quebec, 8e pt. 1838.

HEADACHE.

DR. E. SPOHN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of NERVOUS AND SICK HEADACHE, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently his distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and labouring under distress which they might as only alleviate, but actually eradicate by the use of his remedy. It is the result of scientific research, and is entirely of a different character from advertised patent medicine, and is pleasant to the taste. To be had of
**L. I. SIMS,
MUSSON & SAVAGE
BEGG & URQUHART.**
Sept. 1838.
