PRINCE EDWARD ISLAND

RINGS CO., P.E.I.

CARDIGAN BRIDGE, Jan. 5.—Weather has turned colder with little smow not enough to make stelepart to the stelepart of the property of the collection held on Jan. 3rd resulted in a sweeping victory for the Conservatives. Suck are wintering well so far. Straw is scarce. A lot of farmers are buying hay from the west end of the island at 816 a ton. Fork is moving at from 7c to 73-de ton. Fork is moving at from 7c to 73-de ton. The forms and cattle are not in grant mand owing to searcity of ed—II. P.

QUEBEC

RICHMOND CO., QUE. RICHMOND CO., QUE.

DANVILLE, Jan. 5.—The weather has been very chanceable for the last month. Half of the time we have been on wheels, with very mild weather. We have had some snow falls these last few days, making sleighing good. The teamsters are taking advantage of the good roads. All meats remain high in price. Poultry, Sec. ergs., Soi. butter; 36.—M.D. B.

ONTARIO

ONTARIO

HASTINGS CO., ONT.

SIDNEY CROSSING, Jan. 2.—We have had little snow, but cold weather, which makes it hard on winter grain. Business has not revived from the depression fool lowing the holidays. Timothy hay sells for from \$15 to \$15\$; cats. \$85\$: barley, 76\$; wheat bran. \$25 a ton: middlings. \$25\$; when the property of the cold of

Our advanced official registry system, and the marvelous seven, 30, 60, 100-day and yearly yields, together with frequent public demonstrations, have long since silenced such defamers, and few there are today so biased in their opinion, so to dare to utter in the presence of intelligence, a to dure to utter in the presence of intelligence, as to utter in the presence of intelligence, a single stiement relative to comparisons. It has long since become a matter of public knowledge that the Holstein cow has demonstrated, by her repeated and multitudinous exhibitions, that she stands peerless and alone as to both quality and quantity in the production of milk, as to production of butter fat, and as to persistency in that production and as to persistency in that production. and as to persistency in that production. Moreover, the knowledge has rapidly spread, till now it is difficult to find, in any community, such a degree of igno rance as precludes the existence of a quite general concevtion that the product of the Holstein cow is not only the most prodictions, but that it is the most prodictions, but that it is the most productions, but that it is the most production. The production is the production of the production antists, physicians and students have had forced upon them evidences so conclusive that it is difficult to find many manning this body of educated people who are the students of the students

There is a growing demand for the Jersey as a family cow. The dairymen at large, especially the makers of a choice article of butter, are more fully realising
