Factory Production Still De-clines in Eastern Ontario (Continued from page 2.) to the place where he "wouldn't give

(Continued from pace 2.)
to the place where he "wouldn't give a snap of my finger which system is adopted" so far as just financial distribution is concerned. His results showed that straight fat, fat plus two, the fat-casein test and fat plus calculated casein, all gave fairly uniform results, and all were immeasurably superior to the pooling system. He thought it high time that dairy expects of the case of the convention of the convention of the convention of the convention: "They we, the members of this association, are opposed to the passing of legislation as recommended by the Canadian Freight Association regarding the specification of cheese boxes, but rather recommended by the Canadian Freight Association regarding the specification of cheese boxes, but rather recommended by the Canadian Freight Association regarding the specification of cheese boxes, but rather recommended by the Canadian Freight Association regarding the specification of the same."

Officers Elected

Officers Elected

Directors for the following year
were accepted as follows: Henry
Glendaugher and State and State
pic, Peter for an alla; G. A. Gillespic, State for a state and alla; Fred Dillworth, North Gower; John Gillies,
Alexandria; J. A. Campbell, Ormond; T. W. Wight, Picton; T. H.
Thompson, Madoc; Willett Farley,
Caniffon; J. B. Ferguson, Renfrew;
John Steels, Almonte; and John Forrester, Bath.
At a special meeting of the direc-

rester, Bath.

At a special meeting of the directors, all the officers were re-elected: Honorary presidents, Hon. Senator Derbyshire, Brockville, and John R. Dargavel, M.L.A., Elgin, pres., J. A. Sanderson, Oxford Station; 1st vice-pres., J. N. Stone, Norham; 2nd vice-pres., J. S. McGrath, Mount Chesney; treasurer, James R. Anderson, Mountain View; secretary, T. A. Thompson, Almonte; duditors, M. Dird, Stirling, and John Hyatt, Picton; public prosecutors, T. H. Thompson, Madoc, and Ivan Publow, Ottawa.

Thompson, Madoc, and Ivan Publow, Ottawa.

The anditors' report showed abalance on hand of \$589, 54.

The convention this year was both ance on hand of \$589, 54.

The convention this year was both as success and a failure. It was a success on that it imparted a great deal of information, and that the discussion pointed the way for marked progress in methods of paying for dairy products. It was a failure in that it failed to attract a reasonable attendance, from the surrounding attendance from the surrounding attendance from the surrounding attendance from the failure presentation from distance with the failure for the failure of the failure for the failure for the failure for the failure failure for the failure failure for the failure failure for the failure failu

their convenion.

It is sometimes a good plan to leave some of the corn stalks standing. Every fourth row left standing will hold a lot of snow on the land, will hold a lot of snow on the land, the word of the corn stalks left standing stopped about as much snow as when all were left. This will in many cases mean a good deal to the next crop. The added moisture will make the soil less flable to blow, and the standing stalks will check the wind a good deal, near the surface, and this also reduces the drifting.

% Debentures

Paid Up Capital \$2,000,000 \$5,000,000

"Concerning the Shortage of Potash"

HAVE been asked to say a few words to my farmer friends concerning the shortage of potash. Now, friends, although the European war has put a stop to the shipment of Potash Salts from Germany, there is really no immediate cause for worry.

Government experts in United States and Canada, and the experts in the fertilizer companies, have been busy finding ways and means of overcoming conditions arising from this potash shortage. They have entirely succeeded. And the new booklet on

shows exactly what to do in every case where more potash is needed than the fertilizers contain.

DAVIES' Fertilizers

have won a big reputation, and you may prefer to use them. If so, TheOntarioFertilizers Limited will gladly supply you.

Don't mistake me, friend, and think that Harab Fertilizers contain no potash this year. You can obtain Harab Fertilizers containing up to 3% potash. Where fertilizers containing above that amount are required, other fertilizing agents are necessary and are obtainable from The Ontario Fertilizers Limited.

If you will fertilize your crops according to the directions given this new Harab Fertilizer Booklet, you will get excellent results. If you will take my advice you'll write for a copy right now.

Yours for bumper crops, Progressive Jones
