THREE WEEKS FROM TO-DAY

the third number of The Monetary Times Canada Expansion series, will be published. It will tell of Vancouver—a story of the city's beginnings, an exposition of its prosperous present, and an intelligent forecast of its future. See announcement on page 1008.

Financiers In All Countries Are Interested

in the construction of works, which absorb so large a proportion of capital in all kinds of enterprises. Millions of dollars are being invested in the cement and concrete industry, because moneyed men know that this is an important industry, the exploitation of which is as yet, so far as Canada is concerned, only just begun.

¶ The possibilities of the business in this country are illimitable. Cement and concrete play important parts in all kinds of constructional work—bridges, sidewalks, factories, residences, warehouses, chimneys, towers, arches—and the intelligent financier must keep pace with the national progress in every enterprise, because either directly or indirectly they all affect him and his interests.

"The *Canadian Cement and Concrete Review* is a new illustrated monthly devoted to the great and growing industry. It is the only journal of its kind published in Canada, is printed on fine art paper, and profusely illustrated. "There is lots of room," says one of its numerous readers, "and particularly at the top—for first-class publications in this special line. We wish you every success, and from the appearance of the initial number of the '*Canadian Cement and Concrete Review*,' we have no doubt you will secure it."

† The fourth number is now ready and contains amongst others, the following articles:

¶ The New Bridge at
Oshawa.

† A Reinforced Concrete
Factory.

¶ The Cement Industry of Ontario.

¶ Cement for the Road.
¶ Chances for Export Trade.

¶ A Western Cement Town.
