

Don't Gamble With The Weather

If you do, you are bound to lose. You have spent weeks and months of hard work and barrels of your good money raising a big crop.

Then why risk everything at threshing time on poor equipment and lack of power?

Many Northwest Canadian farmers did this last year. Of course they lost their entire year's crop. It was a plain case of power poverty.

With everyone crying for power, winter came. Snow fell and stayed, with thousands of acres of grain still in the stook. Most of it rotted where it stood. What little was threshed the following spring graded low and sold low.

Are you taking these same chances this year? Don't do it! Make sure of your profits! Buy a

Hart-Parr Oil Tractor

and buy it now. Then you are power insured against loss.

Drive your separator with this steady, reliable tractor. Get the fullest yield of clean, high-grade grain and get it this fall. Grain threshed the Hart-Parr way brings the highest market prices. And it means bigger profits for you because it costs less in time and labor to thresh it. A Hart-Parr Tractor is a general purpose, **one man outfit**. It uses the cheapest kerosene for fuel.

Can't Freeze in Coldest Weather

The oil-cooled engine is a distinctive feature of Hart-Parr Tractor construction. It is sure insurance against a freeze up, even if below zero weather.

F. J. Weber, Watson, Sask., Can., says: "It has got to be very cold when our Hart-Parr Oil Tractor will not start with the first turn of the fly-wheel. We got it started any cold day. It was the only one that could pull a separator behind it in the snow."

A Complete Stock of Tractors at all our Branches

Write or call at our nearest Branch House. Order a Tractor for quick, immediate delivery. Then you have placed your threshing and all other farm power problems on a safe and profitable footing.

Hart-Parr Company
