This department will be made a special feature of The Guide from now on, and is designed to better serve the interests of our subscribers by furnishing space where they may make known their wants, and get in touch with prospective buyers at a nominal cost. Under this heading will be inserted all miscellaneous advertising, such as Farms For Sale or Wanted, Machinery, Help Wanted, Articles Wanted, and For Sale, Auction Sales, etc.

In this column, as in every part of The Guide, any advertisement of a false or questionable character will not be accepted, but the space will be confined exclusively to the use of legitimate advertisers who seek help, or wish to buy, sell, or exchange stock, machinery, etc. A condensed advertisement in The Grain Growers' Guide should be a business getter for you. Try it, and be convinced.

These Are Days of Opportunity

Western Canada an Attractive Field for Industrial Enterprises and Financial Investments

NOWHERE in America today are there such alluring openings for human effort as there are in Western Canada, and nowhere in Western Canada are these openings so alluring as in the new country now being opened up and made accessible by the construction of the Grand Trunk Pacific Railway. This country is known to be rich in natural resources, but only fringes of it along river banks have as yet been explored. Now that prospectors can get into the country easily discoveries are being made every day and the region is attracting widespread interest. Those in touch with the situation assert that amazing developments will undoubtedly take place there during the next few years. In view of the opening up of extensive coal mines on the Beaver River and the agricultural and lumbering industries, the discovery of mica and other minerals much money is being invested in new townships along the G. T. P.

The place in which the chief interest of investors is being centered at present is Edson, 128 miles west of Edmonton and one of the principal divisional points on the G. T. P. Edson has been variously described as the Calgary of Northern Alberta, as another prospective Pittsburgh, and also as a second Denver, its situation and resources combining all those of the cities named.

Edson not only has natural resources that will all contribute to the upbuilding of a large city but will be a large railway centre. Twenty-six miles of side tracks are now being built there; also commodious roundhouses, machine shops, station and office building, etc., for the G. T. P. The main line of the C. N. R. to the Pacific coast as at present laid down also touches at Edson and it is highly probable that that company will make Edson a divisional point for their line.

The foregoing are some of the reasons why shrewd investors are buying Edson real estate. It is an opportunity that will seldom present itself again in Western Canada. The real estate situation in Edson today is just what it was in Winnipeg and other Western cities in which fortunes have been made in the early days of those cities. Those who buy property in Edson today and wait for the growth of the city will realize large profits.

But the opportunity to buy cheap is rapidly passing. Lots purchased in Edson last January are now being resold for eight and ten times what was paid for them. We have lots close to the business section that are still selling at the original prices, \$10 to \$75, with a cash payment of only ten per cent. of the purchase price and the balance in nine equal monthly instalments without interest. This is your opportunity to make large profits from a small outlay. Our advice is buy all the property in Edson you can afford to. Buy today and get full advantage of the certain advance. Write us for full particulars about Edson. DO IT NOW.

When Writing to Advertisers, Please mention The Guide

Breeders

HAVE YOU noticed that the "Breeders' Directory" in The Guide is growing? The Breeders are finding out that The Guide is an extremely profitable paper in which to advertise. All our old advertisers are staying with us, and many new ones are coming in. Several of them have written us telling us of the splendid returns they are receiving.

Don't you think if it is profitable for others it should pay you?

The special rates which prevail for this class of advertising are extremely low. For example, a card of three lines costs only twelve dollars per year, a very small amount when you consider that it enables you to talk to over twenty thousand of the best farmers of the West on fifty-two different occasions.

All we ask for The Guide is a fair trial for six months or a year. If it does not pay you in that time we cannot expect you to continue.
