BALANCE OF TRADE IN CANADA'S FAVOR

Large Increase in Domestic Exports - Statement by Hon. Dr. Reid.

The balance of trade as shown by July returns still continues in Canada's favor. Our people are buying less abroad and selling more, but it must have a beneficial effect on the financial and industrial stability of our country.

The total Canadian trade for the month of July reached \$100,000,000, according to the statement issued by the Hon. J. D. Reid, Minister of Customs. For the corresponding month of 1914 the total trade amounted to \$93,000,000.

Increase in Exports. The feature of the statement is the large increase in the domestic and foreign exports. During the month of July domestic exports reached \$45,000,000 and foreign goods exported from Canada \$16,000,000, compared with \$41,000,000 domestic and \$8,000,000 foreign for the corresponding month of 1914.

Imports Fell Off. While the exports are booming there is a decrease in the merchandise entered for consumption. During July \$36,000,000 worth of goods were imported, made up of \$20,000,000 dutiable and \$16,000,000 free goods. This is a falling off for the corresponding month of 1914, when the imports amounted to \$42,000,000, made up of \$26,000,000 dutiable and \$16,000,000 free goods.

For the four months of the present fiscal year, ending July 31st last, the total Canadian trade was \$371,000,000, compared with \$368,000,000 for the corresponding period last year. Last July \$13,000,000 worth of coin and bullion was exported.

Assistance Provided for Crop Movement. The Minister of Finance has specially drawn the attention of the Bankers' Association to the provisions of the Finance Act of 1914, under which advances may be obtained in Dominion notes upon approved collateral.

The Minister thinks that the Canadian crop will this year be unusually large and valuable, but that owing to war conditions and the despatch states, the movement of the financial demands in connection with the crop movement will be heavier and more prolonged than previously. While the banks are in an unusually liquid condition and probably able without assistance to handle the situation, the Minister feels that the unusual demands of grain customers may be obtained in certain banking accommodation to other sections of the community, and he therefore urges the banks not to hesitate to avail themselves of the privileges of the Act.

As Dominion notes issued against grain bills would be retired from time to time as the crop was sold there is no reason to apprehend a redundancy of note circulation should the banks freely avail themselves of the invitation of the Minister. With abundance of funds available for the crop movement there will be less likelihood of its being pressed for sale, at least, being the desire of producers and dealers.

Canada is Making 50,000 Shells Daily. In the production of munitions of war in Canada 145 factories are now engaged on the \$152,000,000 order placed here for the British Government by the Canadian Shell Commission.

In addition to providing a new route for Western trade, the railway will permit of the development of the valuable fish and mineral resources of Hudson's Bay, now practically untouched. The fisheries are among the most valuable in the world, and there is plenty of evidence that the minerals of that district are equally valuable.

Along the line from Le Pas to Port Nelson are great areas of good agricultural lands which in time will support a large population. The construction of this railway and port through a comparatively unknown country has been done in record time. To build a harbor on Hudson's Bay, only accessible for a few months of the year, and then only by water, was a great task and without any precedents to guide the builders.

It has been done at a small cost, without hardship or loss of life, and stands as a splendid example of the energy and foresight of the Minister of Railways. It brings the West closer to its European markets and also to those of the Maritime Provinces.

The Hesperian, carrying Canadian reinforcements, has arrived safely in England.

The Dominion Fire Chiefs' Association was organized at Ottawa.

Cost of Raids. The amount thus far awarded for damages for air raids and bombardments in Britain is \$20,038.

Two night riders, Jerry Clark and Ernest Webster, got three years in jail, at Hartford, Ky., sixty-one await trial.

Paul Hibbs, W. Enloward and Ben Rosen, Kansas City youths caught borrowing an auto, got six months apiece.

Natural artesian wells outside Boise, Idaho, furnish hot water which is piped into the city.

NOT RELEASED FROM PROMISE; HE RETURNED

By Special Wire to the Courier. Paris, Aug. 30.—Eugene Gilbert, the French aviator, whose return to Switzerland after his escape from internment in that country was ordered by the French government, arrived in Bern yesterday escorted by Captain Dutoit of the Swiss army, according to a Havas News Agency despatch to-day from Bern.

The aviator, whose recent escape was said to have been effected after he had withdrawn his promise not to try to get away, was received by the Swiss staff and informed that he was considered as an officer interned without having given his word of honor. Gilbert arrived this morning at the village of Hospenthal, where he was interned anew. All the Swiss papers, the despatch states, declare that Gilbert had not been released from his word of honor.

Dr. Lardy, the Swiss minister to France, called on Minister of War Millerand to-day to present "the thanks of the Swiss government for the courteous and chivalrous decision taken by the French Government concerning second Lieutenant Aviator Gilbert."

It has developed that Gilbert, before escaping, had written a letter to the Swiss general staff, withdrawing his word of honor that he would make no attempt to escape, the letter was received several hours before the attempt was made, but was left unopened at army headquarters, and the general staff maintains that Gilbert had not been released from his word of honor.

Two night riders, Jerry Clark and Ernest Webster, got three years in jail, at Hartford, Ky., sixty-one await trial.

Paul Hibbs, W. Enloward and Ben Rosen, Kansas City youths caught borrowing an auto, got six months apiece.

Natural artesian wells outside Boise, Idaho, furnish hot water which is piped into the city.

The golden wedding of Mr. and Mrs. R. Van Heemst, at Paterson, N. J., was attended by 11 children, 46 grandchildren and 2 great-grandchildren.
