Your Grandmother

did not have her photo taken when she was a baby because there were no such things as photographs in those days. But wouldn't you like to know what she looked like when she was a little tot?

Your baby is a baby but once, so why not have a nice photo as she is today—she is worth it!

Our baby photos are distinctly childlike. All styles—all prices.

Harvey Studio

PROBLEMS SOLVED BY ANTS.

Ant-hill is an Example of Pure Democracy.

The insects have solved many problems that still vex the human race, writes Edward Step, F.I.S., the famous naturalist, in Tit-Bits.

In the ant hill we find an example of pure democracy. It may consist of many thousands of individuals without a monarch or leader of any sort; without a Government. Each ant does exactly what it pleases, without other instructions or permission to do it. But what it does is just what is best for the entire community. There is no self-seeking, no profiteering. Each one does what needs to be done when it needs doing, the welfare of all being the inspiring motive.

A score, or a hundred, or a thousand workers are engaged on some big piece of work. A worker ant comes in from a foraging expedition. "Here, Polly," she says, to one of the miners or masons, "let me take a turn at that while you rest awhile." The resting one asks for food, and the newcomer at once shares what she has gathered on her journey. Some others come along and notice that the resting worker has become soiled with labor. They immediately set to work to clean and refresh her by washing and brushing. Nobody tells or asks them to do it; they merely see that it requires doing, and at once set about their self-imposed task.

During some extensive mining operations a stone is dislodged from the roof and falls upon a worker, injuring her so that she can scarcely crawl. Several rush to her aid, and bear her away to a quieter gallery, where her hurts may be properly tended.

Ants are full of resource to meet extraordinary situations, and they have devised so many ways of getting a living that, in the course of time, they have branched off into more than 2,000 different species.

CHILDLESS WOMEN

Please Read This Letter And
See What Normal Health
Will Do For You.

Berwick, Ont.—"I had organic trouble, and after taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier all my troubles passed away. I was made strong and well and have been ever since. Now we have a fine baby boy six months old, and I know that I would not have this baby and would still be suffering if it had not been for your remedies. My husband and myself say that your remedies are worth their weight in gold, and I recommend them to my friends. One of my aunts is taking them now."—Mrs. NAPOLEON LAVICH, Berwick, Ontario, Canada.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published in these columns.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medicine Co. (Confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Lift off Corns!

Doesn't hurt a bit and Pressures cost only a few cents.

With your finger. You can lift off any corn or blister without hurting the foot, and the hard skin calluses from bottom of foot.

A tiny bottle of "Pressures" costs little as any drug store; apply a few drops upon the corn or blister. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Gray Hair Hair Health

A preparation for restoring natural color to gray hair. It is not a dye. Does not stain or irritate the scalp. No hair loss. Hair grows out. No harm.

Could Not Sleep

Mr. Ernest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, 5 for \$2.75, all dealers or Edmundson, Bates & Co., Ltd., Toronto.

each with distinct form and habits. So important are they in the scheme of nature that they have brought about numerous modifications of plant life—many flowers have had to invent hair fences to prevent the ants from stealing nectar intended as a bribe for the pollen-carrying bees; other plants have produced glands, from which a sweet liquid flows, to induce the ants to patrol their leaves and stems and destroy caterpillars and other nuisances.

They have also set up alliances with various small creatures for mutual benefit. Some, like the green-fly, supply them with sweet food (all ants have a "sweet tooth"); others, like certain beetles, become scavengers, encouraged or tolerated in their nests because of their usefulness from a sanitary point of view.

Their industry in construction shows a considerable amount of varied ingenuity. Some are miners in the earth, and tunnel wonderful galleries of great extent, whilst others tunnel in wood. Some construct papier-mache nests on the boughs of trees and pens for their domestic insects, whilst some, instead of laboring in these ways, frankly avail themselves of the provision made for them by plants. There are ants that store grain; ants that grow mushrooms, and prepare suitable beds for their growth; ants that keep dairies; ants that are "mere" nomad freebooters, sallying forth in their thousands, and killing and eating all other insects in their path, possessing no city of their own, but camping temporarily where their march of pillage and conquest has brought them.

Where Brides Must Weep. The wedding day in most countries is the bride's day, says Tit-Bits. It is her part to look happy, however long a face the groom may pull. Only in Lithuania is it a day of ostentatious gloom for her when, after being led through the lighted church by two young men, followed by her bridesmaids, she takes her stand in front of the altar, to be joined by the groom, also accompanied by several young men.

Behind the wedding party come the two mothers. While the priest performs the ceremony, the bride must weep incessantly. If she is unable to hide her real jubilation and cannot squeeze out a tear, she is considered guilty of a serious breach of etiquette, and the ceremony is rendered more interesting by a vigorous scolding administered by the two mothers. Thus the maiden is expected to show the doom she is confronting upon mere man by becoming his wife.

This same attitude towards the Lithuanian woman is proved by all the customs of the little Baltic state that has declared itself a republic. It is shown, for instance, in old photographs. In these the woman is not standing with her hands on the shoulder of her seated lord, like our own photographs of a former period, but throned in state, with her husband and sons standing gallantly beside her.

Asked and Answered. "Can a man lift himself by his boot strap?" "I dunno." "Why, the question answers itself." "Well, teacher, that lets me out."

Storage Battery Service

J. LEE HOPKINS

Armstrong's Garage, Perth, N. B.
Phone 73-3

All makes of Storage Batteries tested, recharged and repaired by a man experienced in battery work.

Your battery is an expensive and vital part of your car equipment. Why spend your money having it ruined by inexperienced repairmen. Take it to the man who knows and get your money's worth.

I have six months of hard bone labor at the Exide Battery Depots in Boston to my credit. Does that not sound like experience?

I spent my own money to learn the business and I am here to give you the benefit.

Your patronage will mean

Good Battery Service

We have fitted up a
