"I was recently troubled with a dry could which seemed to be caused by an irritation in the throat. My physician prescribed for me, but no relief was obtained. A little over a week ago, my attention being called to Ayer's Cherry Pectoral, I concluded to try it, and purchased a bottle. After taking this medicine only one day, I could see a change for the better, and, by the time I had used it a week, my cough had entirely disappeared."—H. W.
