NEWCASTLE, N. B., JULY 5, 1911

THE CORONATION

The Coronation proceedings in London, begun on the 22nd ult., ended on the 29th. Every colony and every independent country was represented, and hundreds of thousands of strangers witnessed the most splendid pageants that the world, in all probability, has ever seen.

No attempt was made on the life of the King, for British Kings are never interfered with by the desperate class of men who seek the lives of such sovereigns as the Czar of Russia. In Britain, it is truer than in any other great country, that the Chief Magistrate does no wrong. He rules according to the laws passed by the parliament, for, while he has by the constitution the right to veto every act of parliament that veto has never been exercised by a British sovereign within the last two centuries. Therefore no political party can reasonably blame the King for any inequality or oppression under which they may be suffering. Hence the immunity enjoyed by Britain's sovereign but unknown to the heads of so many countries.

The prospects are that, whatever political party may come into power and whatever changes may be made in the constitution of the United Kingdom, King George V will, if he lives, long remain in peaceful possession of the throne handed down to him by his father and a long line of predecessors. The British throne appears to be the safest in Europe, and this is largely because it, more than the others, is, as yet, "based upon the people's will."

THE CALL ON

As we look from our office window across the beautiful Miramichi, to the lovely green fields and every inducement that nature seems to offer to our town-people for an afternoon's enjoyment, away from office cares and worries to the fields or perhaps an afternoon on the river, the thought comes to us that many of our employees would also enjoy such a day, and what is to hinder us from giving to them—as do the business men of other towns—a weekly half-holiday, in

You

will like the fine flavor of Red Rose Tea. It has the cup goodness that comes only from Red Rose quality—the reason why it holds first place in thousands of Canadian homes. Will you try it.

RED ROSE TEA

which they may enjoy the benefit of the beauties with which nature has blessed the Miramichi. Starting Wednesday July 12th, the Advocate will close at noon every Wednesday during the months of July and August. Who will be next?

DEADLY ANAEMIA

Cast a Shadow Over the Lives of Thousands of Women and Growing Girls.

"Not enough blood" is the simple meaning of the term anaemia, though it should scarcely need explaining, for, unfortunately, anaemia is one of the great evils in this country, afflicting women of all ages, including young girls. The signs of bloodlessness are plain enough—pallid lips and cheeks, and aching back, frequent headaches, with breathlessness, heart palpitation and great weakness. The only effective treatment is to strengthen and build up the blood, and it is just by this power of making new, rich blood that Dr. Williams' Pink Pills have cured anaemia in more cases than it is possible to place on record. Among the host cured of this trouble by Dr. Williams' Pink Pills is Miss C. N. Roberge, of Sorel, Que., who had been in poor health for several years. Miss Roberge says: "I believe that if I had not taken Dr. Williams' Pink Pills my illness would have proved fatal. The trouble came on so gradually that I can scarcely tell the point at which it did begin. The first noticeable symptom was loss of color and a feeling of lassitude. Then I began to lose my appetite, had frequent headaches, and spells of dizziness, and became unable to do any housework without being completely exhausted. Finally my trouble became aggravated by a persistent cough. I took several kinds of medicine, but did not get any relief. At last I was advised to try Dr. Williams' Pink Pills and decided to do so. After I had taken several boxes there was a noticeable improvement in my condition and I continued using the Pills until I had taken nine boxes. The result in my opinion was marvellous. My appetite returned, my nerves were strengthened, my weight increased, headaches disappeared, and I am enjoying the best health of my life. In gratitude for what Dr. Williams' Pink Pills have done for me I give this statement in the hope that it may bring new health to some other sufferer."

Dr. Williams' Pink Pills cure all those troubles due to poor blood, such as anaemia, indigestion, rheumatism, neuralgia, St. Vitus dance, partial paralysis, and the troubles which attack girls budding into womanhood and women of mature years. Sold by medicine dealers everywhere, or by mail at 50¢ a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SCHOOL STANDING

Allison Settlement school—Mabel E. Clouston, Teacher; Eva Menzies, Assistant.
 Pupils enrolled, 73.
 Highest average.
 Grade VIII—Willie O'Shea, 88; Olive Mutch, 84.6; Bella O'Shea, 73.8; Hazel Menzies, 63.8.
 Grade V—Laura Sherard, Everett Stewart, Minnie Forsythe.
 Grade IV—Mildred Menzies, 71.1; Edward Forsythe, 63.6; Howard Worden, 61.6.
 Grade III—Douglas Allison, Raymond Whitney.
 Grade II—Albert Allison, 84.0.
 The closing exercises took place Friday afternoon, June 30th. About thirty visitors were present.

PERSONALS

Miss Nelly McEachern spent the holiday in Chatham.

W. J. McNeil of the Campbellton Graphic spent Sunday in town.

Mrs. Fred McRae has gone to Bathurst, because of her brother's recent illness.

George W. Nash of New York arrived Friday on his annual outing on the Miramichi.

Mrs. Jacob Price of Millerton and Mrs. Geo. McCosh went to Tabusintac Saturday to visit relatives.

W. L. Daley of Harkin's Academy Intermediate department left for his home in Albert County Friday.

Mr. and Mrs. M. Williams, Jr., of Boston came Friday to fish on the preserve of Mr. Williams, Sr., on Little South West.

Arthur Robinson of New York has returned to his summer quarters at Holmes Lake.

Mr. Claud Jardine has gone to St. John to take a business course at the St. John Business College.

Mr. Kenneth Corbett of Petit Rocher is acting station agent at Chatham Jet. Mr. Frank Ward is in Fredericton.

James P. Whelan, proprietor of the Miramichi Hotel, came home Saturday after a seven weeks trip to Winnipeg, Calgary, Edmonton and the Coast.

Mrs. John Boudreau of Stillwater, Minn., came on Friday to visit her nephews, James P. and John P. Whelan of Hotel Miramichi. Mrs. Boudreau has been absent twenty years.

Miss Bridget Hogan, of Meadows, spent Tuesday with her brother, W. J. Hogan, and left that night on the pilgrimage to St. Anne de Beaupre.

John P. Whelan, of Hotel Miramichi, went to St. Anne de Beaupre last night.

Mrs. Simon Simpson of Neguac and Mrs. Robert Murray leave Tuesday for P. E. Island, where they will spend a month visiting friends.

Miss Annie Bell, who has spent several months with her grandmother Mrs. W. H. Brightman, returned to Amherst, N. S., today.

Acting Principal Joseph F. Alexander of Fredericton, who supplied for Principal Hetherington since May 22nd, left Saturday morning for his home in Fredericton Junction. Mr. Alexander's short term here was very successful.

Mrs. D. McQuarrie and Miss Ethel McDonald have gone to Sackville to attend the wedding of Miss Florence Elizabeth MacDonald and Mr. Thomson Trueman Trenholm of Amherst, at the home of Mr. and Mrs. Seth Bulmer, Upper Sackville, this morning.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all dealers.

Friday afternoon on the birthday of Miss Haze, after giving a party to a number of her young friends. Among those present were Misses Annie Bell, Jessie Black, Annie and Katie Cassidy, Roberta Conn, Annie and Mollie Dickson, Margaret and Mona London, Marion MacArthur, Elva McCurdy, Florence and May McEvoy, Nan Nicholson and Eulah M. Stuart, and Masters Colin Campbell and Bert, Fred and Waldo McCormick. A very pleasant time was spent and the little hostess received some very nice gifts.

CATARH AND COLDS RELIEVED IN 10 TO 40 MINUTES.—One short puff of the breath through the blower supplied with each bottle of Dr. Agnew's Catarrh Powder diffuses this power over the surface of the nasal passages. Painless and delightful to use. It relieves instantly, and permanently cures catarrh, hay fever, colds, headache, sore throat, tonsillitis and deafness. 50 cents. Sold by E. SHAW'S Pharmacy.

THE EASTERN SLOPE

Work of Dominion Forest Service on this Great Reserve.

The boundary of the Rocky Mountain Forest Reserve has now been located from the international boundary northward to a point due west of Lacombe. This was accomplished last summer (1910) by two parties sent out by the Dominion Forest Service. One of these, under Mr. G. H. Edgecombe B. Sc., started at Calgary and worked southwards, while the other, under P. Z. Caverhill, B. Sc., worked northward from the same starting point. The full report of these gentlemen has just been published.

During the coming summer (1911) it is expected that the rest of the eastern boundary of the reserve will be located to its northern limit (about forty or fifty miles north of the latitude of Edmonton). OBJECT OF THE RESERVE

The primary aim in preserving the forests of this area is to provide a supply of timber easily accessible to the dwellers on the prairie. But there are other things, scarcely, if at all, less important, to be attended to. To users of water for irrigation and for the generation of power it is important to have an even flow throughout the year, and the effect of forests along streams, and especially at their headwaters, in thus regulating stream-flow is well-known. Moreover, in order to keep up the level of the water in the soil throughout the prairie regions the level of the rivers must be maintained, and the flow not allowed to decrease to a mere dribble in the summertime. In the maintaining of this volume of water in the rivers the forests have an important effect.

THE LAND WITHIN THE RESERVE

In deciding what land to include in the reserve the chief question asked has been, "Is it suitable for farming?" If it is the rule has been to leave it out; if not so suitable, to include it on the reserve. The altitude, or height above sea-level, has also been an important consideration.

The boundary fixed by the Order-in-Council setting aside the reserve was found largely unsuitable. It took in, to a great degree, only the mountainous country, much of it above the tree line, and the rest of it unsuitable—at any rate for many years—for timber production. Many valleys were found to be quite suitable for grazing.

FOREST FIRES IN THE RESERVE

The reserve has suffered to a very great degree from fire. Of about one hundred and forty miles run by the southern party south along the eastern boundary of the reserve mature virgin timber was encountered only in a small tract of some twelve consecutive miles, the dry standing sticks, windfalls and rocky exposures telling the tale. Of the part covered by the northern party, eighty per cent had been burned over within the past fifty years (sixty per cent of this area within the last twenty five years).

THE TIMBER ON THE RESERVE

The frequent and disastrous fires account for the type of timber found over much of the reserve. Of an area of eight hundred square miles covered by the southern party, the land was distributed as follows: Timber, 9 per cent; spruce and pine poles (a tree of pole size is from four to twelve inches in diameter), 31 per cent; pine and poplar, 26 per cent; poplar, 10 per cent; open grazing land, 14 per cent; bare rock, 10 per cent. The pine (the lodgepole pine found on the reserve is closely related to the jack pine found so often on burned-over districts in the East) and the poplar are both trees that spring up quickly after fires and by their rapid growth overtop other trees, for a time, at least. As can be seen from the above table, a large proportion of the country is covered with these trees, either alone or growing together, and the small size of other timber points to the fire having run over this, too, at no distant period. About seventy-five per cent of the country covered by the northern party is covered by forests of this lodgepole pine—a silent evidence of what has happened to this region in the past.

Measurements taken by the northern party indicate that in that region (south of Calgary) the lodgepole pine required thirty years to reach a diameter of five inches and sixty years to grow to nine inches in diameter. The spruce (Engelmann) and red (or Douglas) fir took, respectively, ninety and one hundred and ten years to reach twelve inches in diameter.

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

Given Away.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

LIVERY AND SALES STABLES

Our Livery and Sales Stables will now be found in the Old Murray Foundry Building on Henry street where we will be prepared to furnish up-to-date Rigs at shortest notice. We have a number of horses for sale or exchange.

that region (south of Calgary) the lodgepole pine required thirty years to reach a diameter of five inches and sixty years to grow to nine inches in diameter. The spruce (Engelmann) and red (or Douglas) fir took, respectively, ninety and one hundred and ten years to reach twelve inches in diameter.

OTHER RESOURCES

Throughout all the territory reported on game was plentiful. Special mention is made of the bull, cut-throat and grey trout, among the fish, and, among the birds and animals, in their respective districts, duck, grouse and prairie chicken, deer, moose, elk and sheep and many kinds of fur bearing animals. Among the mineral resources of the area are the coal-beds, oil-fields (in the south) and quarries of building stone.

STOP THE PAIN BUT DESTROY THE STOMACH.—This is sadly too often the case. So many nauseous nostrums purporting to cure, in the end do the patient immensely more harm than good. Dr. Von Stan's Pineapple Tablets are a purely vegetable, peptic preparation, as harmless as milk. One after eating prevents any disorder of the digestive organs. 60 in a box, 35 cents. Sold by A. E. SHAW'S Pharmacy.—40

CASTORIA. The Kidney and Bladder Regulator. Sold by A. E. SHAW'S Pharmacy.

Own a Building Lot

Some day you will need a lot upon which to build a home. Acquire one now on easy terms and be prepared for that day.

Location Corner of Jane and Mary Streets.

Rear of St. Andrew's Sunday School. These lots are very central in location and the price per lot is low ranging from \$300.00 to \$150.

Terms—For front lots \$50.00 down balance in monthly payments of \$10.00. Lots fronting on Mary street, \$25 cash, \$5 per month. No interest or taxes until lots are paid for.
