

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

STOLE A DEAD MAN'S SPIRITS

Windsor, Ont. May 21—Scarcely had the funeral of Francis Miernie, who was killed in a motor accident on Saturday night, left the house on Riverside Drive this morning, when six men forced the front door of his house and took therefrom forty cases of liquor, escaping with them in a motor boat across the river to Detroit. Before the procession had moved off, the boat docked a few hundred feet away from the house and the six occupants disembarked and waited about until the party had left. They then coolly entered the house and ransacked the place for liquor. No clue as to their identity is held by the Windsor police to whom the affair was reported.

CHILD AMBASSADOR OF U. S. TO ITALY

Washington, May 17—Richard Washburn Child, the author and former editor of Collier's Weekly, has been selected by President Harding for ambassador to Italy.

THE BENEFIT OF FORESTS

Most of the land on which our Canadian forests now stand is not suitable for agriculture, but it is suitable for growing fine crops of trees to keep our saw-mills, our wood factories, our furniture factories, and our paper mills running at full force forever. It purifies the blood—clears the complexion and removes all those nasty pimples and blotches. Let us all take part in protecting our valuable forests. Fire is their enemy. Therefore let us be careful with fire when in the woods.

NEW BRUNSWICKERS SELL N. S. LANDS

Halifax, May 17—The sale of 50,000 acres of timber land in Yarmouth and Digby counties, N. S., by the Fraser Pulp and Paper Company of New Brunswick to the Nova Scotia Timberland Company Ltd., was announced today by Ralph P. Bell, Halifax, who negotiated the transaction. Mr. Bell did not state the exact price, but said that several hundred thousand dollars were involved in the sale. The timber tracts sold include all those formerly known as the Dickie & McGrath properties.

why wait—
—if you are Nervous, have Headaches and Attacks of Indigestion, why wait and hope to get better and still suffer, when you can get sure relief by taking
Dr. Wilson's HERBINE BITTERS
A tonic made from the curative principles of Dandelion, Mandrake, Burdock and other purifying herbs. Perfectly harmless, but very invigorating. It purifies the blood—clears the complexion and removes all those nasty pimples and blotches.
Try a bottle—At most stores 50c. small size. Family size, four times as large, \$1.00
The Brayley Drug Co., Limited, St. John, N.B.

CARE OF CHICKS ON THE RANGE

The care of the chicks while in the brooder stage is most important, for at that time the largest mortality occurs, yet the subsequent care of the chicks that have lived through the brooder stage has very much to do with the success or failure of the birds later.

Plenty of Heat

Do not cut down the heat too soon until the chicks are well feathered, and even after that, if the weather is cold and changeable, they will require a certain amount of heat, whether they are raised naturally or artificially.

Naturally Raised Chicks

The hen will probably leave the chicks to themselves by the time they are feathered, sometimes even before, and it is well to have the chicks housed in a fairly comfortable coop or colony house, so that when the hen leaves them they will be quite comfortable and can get along without her.

Artificially Raised Chicks

The same care as to heat and comfortable rearing quarters should be given to the chicks that are hatched and reared artificially and sometimes even more care is necessary. The removal of the heat, when nights are still cold, often results in the chicks becoming chilled, crowding into a corner and a number of them being smothered. Those that survive are more or less stunted because of the chill.

Give Them Fresh Land

It is never advisable to rear chickens in the same yards or upon the same soil that the old hens have used. Give them new soil that is sweet and free from disease germs. Such a place as a cultivated orchard, potato patch, root or corn field, or in fact any place where there is a growing crop of such a nature that they cannot destroy it will be an ideal spot for the chicks.

Plenty of Shade

During the warmer months shade is very important. This can be provided by the growing crop, orchard, shrubs or even the raising of the house and in some cases, along with this, artificial shade made from boughs or cotton screens is an advantage.

Feeding

The feeding of a flock of chicks during the growing season should not be haphazard. Though plenty of feed is required it may be given in such a way that the minimum amount of labour is entailed. For this purpose, hopper feeding is very much to be recommended. A homemade hopper in which mixed grains and mash can be placed and to which the chicks can have access at all times insures plenty of feed for the chicks with very little labour on the part of the attendant. If the growth in plenty of time for the fall, a moist mash fed once a day will help them, and milk before them at all times is a decided advantage.

In feeding and caring for the growing chicks it should be borne in mind that the chief aim is to have matured pullets so that they will commence to lay before the winter season comes on. The feeder should keep this in mind and feed the birds accordingly. Early chicks may be fed so that they will mature too early for best all-round production, and though this is an exception, still it is well to keep in mind that the pullet that starts laying the latter part of October or the first of November is usually the pullet that gives the best yearly production and certainly yields a better revenue than the pullets that do not start laying until after the season of high prices for eggs is over.

NO INCREASE IN PRICE OF TEA

St. John Telegraph: While despatches from Toronto predict that the taxes imposed on tea in the new budget will send the price of tea up two cents a pound to the consumer a large local dealer said last night that he did not believe there would be any changes made in the retail price of tea in St. John. So far as he was able to judge, the importer, wholesaler and retailer would absorb the extra tax between them and the consumer would pay the usual price. The greater proportion of the tea sold in the city is sold as package goods at fixed prices of 55, 65 and 75 cents and, since the increase did not justify an additional 5 cents being added and it was not advisable to have the price a less handy sum, the dealers would endeavor to divide the increased tax among themselves.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and Pain generally. Made in Canada. Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

The NEW EDISON

Artist Recording an Edison RE-CREATION

Same Artist proving the RE-CREATION by Direct Comparison

Only the NEW EDISON sustains the Direct Comparison Test

This means that the New Edison is the only phonograph that gives you exactly what the artist or artists sing or play into the recording horn when making a RE-CREATION.

This means that no other phonograph or talking machine can give the life-like realism you have a right to expect for your money—the absolute realism that Mr. Edison spent three millions of his dollars to develop.

And finally, this means that, if you are interested in buying a phonograph, your good judgment should bring you to this store to ask us to prove the above claims. We shall welcome your visit.

Chas. M. McLaughlin,
Newcastle, N. B.

GET a copy of that newest Edison Booklet "What Edison Likes in Music." It's free for the asking. It tells you lots of things you want to know,—what Mr. Edison's 25 favorite tunes are,—what he thinks about selecting music for home use. It also names 6 selections he believes every one should own. Our supply of these booklets may not go around,—better act promptly to get your copy.
