

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

There was a meeting last night of the Council of the Board of Trade in the office that has been taken by the organizers of the new Chamber of Commerce and everything in connection with the campaign was rounded up and approved in a business-like fashion.

The laymen of St. Thomas Church are holding an informal dinner at the New Murray tonight in connection with the forward movement.

Mr. J. M. Elson has been asked to deliver an address before a gathering of men in Grimsby next week on the subject of Citizenship.

CHAMBER OF COMMERCE WILL BE GREAT BENEFIT

(Continued from page 1)

"This city's geographical location is a great asset," he said, "and the men it has been my privilege to meet in the early stages of the campaign for a Chamber of Commerce worthy of the city's size and importance are just the sort of men with whom it is a pleasure to work in building such a chamber. I am also sure that this campaign will 'discover' a new group of younger men in the community who are going to be your leaders in future years."

Mr. Bell commented on the make-up of the various committees which are the actual directing forces of the campaign, "This is the best kind of a

There are many people who dread the thought of wearing a plate. The very idea of having artificial teeth is repulsive to them and they go on in life suffering from the tortures of broken, decayed teeth and the ailments that are caused by improperly masticated food.

This is sheer folly, particularly when we are able to provide plates that defy detection, even upon the closest inspection.

Every plate made by us is manufactured in our own laboratory by men of unsurpassed skill in their profession. Accuracy, one of the most essential requisites to plate-making, is a point we pride ourselves on.

Lastly, the impression that a good plate is costly, beyond our means, will quickly be corrected by learning of our very moderate prices.

For careful examination and consultation, we make no charge, a service necessary to all who require plates.

Fillings 50c and up.
Very good Plates, \$8.00.

Bad Breath? Don't Be Offensive Remove the Cause

Follow This Advice and Your Breath Will Soon Be Sweet and Pure.

The bad part of Bad Breath is the fact that nearly every case shows considerable trouble from indigestion, belching gas, bloating, piles or some form of stomach misery. Often, rather than a pimply face, a sluggish constipated condition is the true cause of many a man's failure in life.

By aiding digestion and building up the weak muscles of the stomach and bowels, **DR. HAMILTON'S PILLS** completely overcome constipation and all forms of stomach illness.

"I was terribly run down" with stomach trouble that arose through neglected constipation, writes Mrs. P. D. Quigley, from Washburn, P.O. I simply couldn't half digest my food. I had dreadful headaches, piles and yellow muddy skin. The effect of **DR. HAMILTON'S PILLS** was phenomenal. I have gained in weight, have a clear skin, no more headaches, I eat well, sleep well and enjoy my meals.

There is no need to be in failing health when cure is so sure, so easy, by taking **Dr. Hamilton's Pills of Mandrake and Butternut**, 25c. per box, at all dealers. **REFUSE A SUBSTITUTE.**

start we could possibly make. We have representatives, I believe, of every element and every business. If we could not thus feel that we had at the outset the interest of representatives of every citizen in St. Catharines in the building of a worthwhile Chamber of Commerce, it would not be worth the time these men are giving and going to give to undertake it.

"As an outsider, I may perhaps be permitted to say that, the only criticism I have heard of the existing Board of Trade is that it has been too small and that its activities have been in the hands of too few men. The obvious answer to this is that the critics did not become members and then endeavor to correct what they regard as a fault.

"However that may be, the fact now is that the new Chamber of Commerce is wide open to every citizen of St. Catharines. In order to emphasize this cordial invitation, the thoroughly democratic nature of the new organization ought to be well understood.

"Perhaps one illustration will serve to help make this plain. In the modern Chamber of Commerce, which is what St. Catharines will have at the end of this campaign, the officers and directors are literally the servants of this campaign; it is a misnomer to speak of them as the governing group.

"The by-laws, so short and simple that no one can misread them; the method of election and the system of control, place the government of the body squarely in the hands of the membership. Too much emphasis cannot be placed on this fact in the public mind, for it is the public to which the chamber is now appealing for interest and co-operation.

"In this connection I would be doing an injustice to the men who have sponsored this campaign if I did not also emphasize the statement that everyone of them has gone into the movement because of its democratic appeal. Each one of them feels strongly that the only sort of a Chamber of Commerce he cares to be identified with is that in which the membership as a whole controls. And in order that this control may represent the whole citizenship, the membership rolls are to be thrown wide open to every man and woman in St. Catharines on an exactly equal footing.

"I am even authorized to make the statement that within a few days that the men who now govern the Board of Trade will make it possible for the new membership to assume control from the day the new Chamber of Commerce has been properly organized, which will be immediately after the membership campaign."

City Council Refuses Action

(Continued from page two.)

think the firemen could go on strike. They cannot strike. It is against the rules of their union. Ald. Dakers had voted against the firemen having their union, yet he employs union men in his own business. If it is a good thing for a private business man why not for a city corporation. He felt it was illogical for the City Council to insist on the firemen giving up their union affiliations. Employers claim the right to form their associations — why not their employees? In this day of unrest the City Council is not doing much good by making city firemen dissatisfied.

Ald. Graves said he had mentioned the I. L. P. merely as an error. He had no intention of associating the union with a political organization. He said the overhead cost of the fire department increased from 33 per capita in 1911 to 120 now and with the increases suggested 160 per capita.

Ald. Dakers also said a few words. The T. and L. Council was organized for tradesmen who have learned their trades by four, five or six years service. It is different with the firemen. Should a fireman see fit to retire, where are they going to get a union fireman? There is no such thing. And while they didn't object to collective bargaining, at the same time, he did object to collective bargaining with everybody, unions in the United States. When the Council deals with the firemen it is the firemen they want to talk to and not everybody in the United States and Canada.

The communication from the C. A. C. Ald. Graves stated had got to the finance committee by mistake. The proper committee will deal with the communication.

Ald. Avery and Murphy moved that the Council give the wage question precedence over the firemen's union.

Ald. McLean claimed the resolution killed the other resolution. If the Council deals with the firemen on the wage question it is tantamount to acknowledging the communication from the union.

Ald. Veale held the same views.

Ald. Murphy suggested holding a special meeting to discuss the wage question in Committee of the whole.

Ald. Graves thought the question could be settled. He said they were living in a day when they have extreme people in various lines—the extreme farmer, the extreme churchman and the extreme labor man. The firemen are ratepayers and are partners in the municipality. What is the need of the firemen's union? He thought a little bit of give and a little bit of take will settle this question. He didn't think it would do the labor unions any harm if they forget

about the firemen and the policemen.

Ald. Avery speaking of the firemen organizing said the consensus of opinion in the city is that the firemen are right. He thought the firemen had a right as free born citizens to organize, and he feared if there was any give it would be all by the firemen—the Council wishes to give nothing.

Aldermen Avery and Murphy voted for the resolution—the rest of the aldermen voted nay. The Mayor did not require to vote.

The Council rose at 9.30.

Mail Contract

Scaled tenders addressed to the Postmaster General will be received at Ottawa until noon on Friday, the 19th March, 1920, for the conveyance of His Majesty's Mails, on a proposed contract, for four years, thirty times per week, on the route St. Catharines and Niagara, St. Catharines & Toronto Electric Railway Station, from the 1st day next.

Board of Health last night steps to deal with a visitation of the Spanish Flu should such a thing take place. All the available buildings which could be used for the accommodation of patients are being secured, also all available nursing homes. If the Flu strikes St. Catharines it will find the Health Department well prepared to meet it.

Estimates were made as to the probable expenditure for this year. Supplies were raised. Richard Bonham, health inspector will get \$1500 instead of \$1200; Dr. D. V. Currey, health officer will get \$1000 instead of \$500; Maud Reid, city nurse will get \$1200 instead of \$1000; Mr. and Mrs. Murray of the Isolation Hospital will be given \$1800 a year combined.

Chairman C. M. Gibson was in the chair and the other members present were Mayor Lovelace, D. W. Holmes, W. P. Holmes and Dr. Currey, Health Officer.

In opening the meeting chairman Currey said he had interviewed Mr. Murray of the Isolation Hospital and they had agreed to stay there \$2100—no less. The place is badly crowded, showing the need of better accommodation.

Mr. Currey said he was quite convinced they were well worth it. The other members agreed and the Mayor announced that they be paid \$1800. Dr. Eagle seconded and the resolution carried. This is fifty per cent increase on what they are now being paid.

The members of the Board were decided that if something is not done about getting a new isolation hospital.
