HOMER TOMPKINS. Rossland, B. C., October 3, 1895.

VERY GOOD SHOWING Shaft on the Annie Fraction Is All

CLEAN ORE AVERAGES \$20

Ore in the Bottom.

The Claim Is Small But Well Located. It Adjoining the Black Bear, San Francisco and California-Shaft Is Down 40 Feet.

An important strike has been made on the Annie Fraction, a piece of ground surrounded by the California, White Bear, Black Bear and San Francisco. A shaft was commenced some weeks ago and is now down nearly 40 feet. On Wednesday the whole bottom of the shaft was coming into what seemed to be a solid ore body. There were 14 inches of clean ore and the remainder was more or less mixed with ore. The clean ore ran ; 20 in gold and the mixed

ere ran 14 in gold.

The Annie Fraction is owned by the Kootenay-London company, and was bought, we believe, on the advice of Edward Pritchard, F. G. S., of Birmingham, England. The owners believe that the vein they are now working on is one of the veins which comes from the Le Roi. Whether this is so or not the showing in the shaft is good enough now for anybody:

M'KINLEY'S ELECTION.

William McKinley has been elected President of the United States. There is no doubt in the public mind as to the financial and industrial policy to be pursued by his administration. The Republicans have also elected a good majority of the next congress so that the new government will have the opportunity of putting into practical operation the doctrines to which Mr. McKinley is

The gold standard will be maintained and the protective theory in its fullest sense will be carried into practical op-

It has been demonstrated that while the silver sentiment was not triumphant at the polls it is very strong among the people. It is reasonable to expect therefore that the McKinley administration will seek to interest other nations in behalf of a wider recognition of silver as a money metal.

The immediate effect of McKinley's election will be to release capital from the bondage of fear and distrust in which it has so long been held and give renewed activity to American industries.

This very increase of the general business of the country will have a most beneficial effect on lead and silver and will therefore benefit mining districts that produce these metals. We think it much the best to take a hopeful view of the situation. The American people are tired of inactivity and almost any settled policy would be better than the uncertainties which have threatened the country for so many months.

EDITORIAL NOTES.

THE government road in front of the custom house and for two or three hundred feet west of it, is in a most disgraceful and almost impassable condition. We have repeatedly called the attention of the government to it but Captain Fitzstubbs has neglected to repair

THE retirement of Captain Fitzstubbs should be one of the planks in the platform of the opposition canditates in the two ridings of West Kootenay at the next election. We know of no other plank which would meet with such universal favor.

Nobby Cloaks and

Mantles.

Arrived this week. No two alike. If you want to see your wife or daughter looking at her best give her about one-third less than she usually spends on a winter cloak and we will more than satisfy her in style and price.

If You Want a Hat

That is strictly in style, see the last lot we have just received.
