## Annual Field Sports at Bell Island.

The annual field sports at Bell Island in conjunction with the annual Regatta, and under the auspices of the Dominion, Nova Scotia and Wabana Clubs, took place there on Saturday afternoon, August 26th. It was the intention to hold the sports the previous Saturday afternoon, following the Regatta in the morning, but the inclement weather prevented the committee's desire and a week's postponement, at 4:15 Saturday evening in the presence of many hundred people, the sports were run off in the following order:

One Hundred Yards Dash—Two competitors entered—W. Thomas, representing Scotia, and R. Burnham, Dominion. All expected this to be a close race, as Thomas had won last year and Burnham had won several prizes for the event. Burnham got a good start and increasing his lead finished about four yards ahead, winning the gold medal. Time, 11 3/5. Last year's time, 12 secs. This event was run on the road, and the time for such is considered remarkably good.

Half Mile Race—Four competitors entered—T. Neary, W. White and J. M. Greene from the Dominion, and M. Tierney. While set a quick pace from the start and finished the first quarter in capital style. J. M. Greene then, forged to the front and finished with a sprint, crossing the line first. T. Neary, second. Prizes gold and silver medals. Time 2 min. 10 sec.

Half Mile Race—Three competitors entered and all got away together at the start. Burnham, however, reached the tape first, closely followed by Burke. Prize, gold medal.

Football, Jr. (Dominion vs. Scotia)—This was very interesting to see the youngsters all about 14 years and younger striving for supremacy. Mr. W. J. Higgins refereed, and after the game had been in progress nearly an hour, time was called, victory being awarded the Dominion.

High Jump—Two competitors entered—Ryan (Dominion) and Cahill (Nova Scotia). After a closely contested jump, Ryan won. Height, 4 feet 9 inches. Prize, gold medal. Last year Ryan also won, doing 5 feet 4 inches, but this year he decided not to jump for height.

Putting Shot—In this event two also entered—Peter Fitzgerald (Nova Scotia) and Jos. Nugent (Dominion). Victory fell to Fitzgerald, who beat his opponent by about two inches. Distance, 24 feet. Last year Fitzgerald also won this event.

Football, Flies (League Teams)—Dominion vs. Scotia—After a stubbornly contested game, well refereed by Mr. Higgins, the Nova Scotia boys carried off the honors, defeating the champions (Dominion) by 1 goal and 1 corner to 0. The N. S. five are: Egan, Cahill, Thomas, Hadden and Ross. They were awarded gold medals.

Inter-Club Relay Race—What proved to be the prettiest race of the day now took place. Two clubs, the Dominion and Nova Scotia's entered. The N. S. trio were McKenzie, Thomas, Cahill, and the Dominion trio, Dave, Burnham and Greene. Each contestant had to run 220 yards. Dave (Dominion) and McKenzie (N. S.) started first. Burnham increased his lead and finished about 6 or 7 yards ahead. The winners, Dave, Greene and Burnham, were awarded gold medals.

Football, Jr. (Wabana vs. Dominion)—After an interesting and closely contested game, the referee decided the game a draw. The youngsters played well and show clearly that football, in a few years, at Wabana will be very scientific.

Long Distance Race (1 mile run)—This event concluded the programme. Five competitors entered—McKenzie, F. Negus and Doolan (N. S. Club) and T. Neary and J. Greene (Dominion).

tion Club). The run was eight laps of the football field. Doolan led off the start, closely followed by Neary. He maintained the lead until after the half was passed, when Neary, running well, forged ahead and continued the lead till the 7th lap, when J. Greene came to the front and with a sprint finished first in 5 mins. 12 3/5 secs. T. Neary, second. Prizes, gold and silver medals. Time last year, 5 mins. 30 secs. Winners last year also Messrs. Greene and Neary, respectively. After this the medals won in the field sports were presented by Mrs. Bown, wife of the manager of the D. I. & S. Co., in her usual affable way, while earlier in the afternoon the medals won in the Regatta were gracefully presented by Mrs. Burrows, wife of the manager of the Nova Scotia Co.

To the following Field Committee the success of the evening is due: Judges—Messrs. Coch, Pine and Pynn. President Taylor, Secretary Greene, Treasurer Burke and Reporters: Jardine, starter, Mr. Lindsay; timekeeper, Mr. J. McDougall; herald, Mr. J. Pamphlett; Messrs. J. H. Greene, R. Proudfoot, A. Cohen, D. J. Jackson, R. J. Costigan and many others of the Regatta Committee who generously gave their services to conduct the events; as also to Managers Bown and Burrows.

### Indigestion & Dyspepsia

In all its Forms Can be Cured.

It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do any thing. I have no heart to exert myself, and at times I care for nothing I often have a pain in the pit of the stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at:

## Kelly to the Rescue.

Conductor John Kelly of the shore train is one of the most popular of his class on the road, a man of cheerful disposition and very obliging, yet he is not a party to any case of emergency. Yesterday he proved this trait in his character. When his train coming citywards yesterday was nearing the Harbor Grace water shute, the roof of the residence of a Mr. Hamilton was seen to be on fire. Kelly stopped his train and with the train hands and passengers started to quench the blaze. Under Mr. Kelly's direction a ladder was run to the roof, he was the first to mount it, a bucket brigade was formed and soon the fire was extinguished. But for this prompt action of "Jack" (his poor man's house would have been destroyed). But his employers and the public will appreciate this generous action of the conductor's part.

## Another Officer Leaves the Force.

Const. Humber, of the Western Station, who has been in the police force for the past two months, tendered his resignation yesterday. He was a very intelligent officer and a man of splendid physique, being the tallest of any ever entered the police force. Others are also going from the force, and small wonder. The rate of wages is so small that some of the young men have not enough to pay for roots after they pay the month's mess bill. And yet the "Split" party in effect say to these deserving and hard working men, "Take it or leave it," while the M. H. A's are taking picnic trips half over the world and the Premier is to spend thousands of the people's taxes after a B. U. R. in District in the interest of his station. However, the day of reckoning is quickly approaching.

## Glencoe's Passengers

The following passengers came in the Glencoe to St. John's yesterday: B. Baxter, Rev. Tulk, wife and child, Rev. Mercer, Rev. Soper, A. W. Lake, Laidmont, J. Cheeseman, Capt. Canine, Rev. Brother Brennan, Mrs. Canine and child, P. J. Parsons, Miss Hardy, Miss Cheeseman, Miss Wood, K. Malone, J. Coady, Miss Ash, Miss Hutchings, Miss Morris, Miss Roche, Miss Pratt, Mrs. Pincus and child, Mrs. Brinton, Mr. and Mrs. Evans, Miss Bradshaw, Miss Hardigan, W. Rumsey, Miss Forscy, Mrs. Paul, Master Paul, Mr. and Mrs. Richards and child, Mrs. T. Burke, Miss Doyle, Miss Mahoney, Miss Flynn, Miss Bold, Miss Pitcher, Miss Baker, Miss Wagh, Miss Rose, Miss Broderick, Miss Brown, three Sisters of Mercy, and 14 second class.

## Police Worked Hard.

Consts. Hutchings, Crocker, Kelly, Scobie, Humbley and Keefe who was in charge, were engaged beating out the fires on the South Side Hill all Sunday and Monday nights, and did not get back to the city till yesterday morning. Despite the rain which fell yesterday morning the turf held the fire, and last night in the high wind the crest of the hill was dotted with small fires. A large section is denuded of its forest growth.

## Mr. Winston Churchill

Deprecates Exaggerated Report of Strike Scenes.  
London, Aug. 28.—Winston Churchill, the Home Secretary, in the House of Commons yesterday, said that the strike situation in London had improved very much. He denied that the soldiers at Liverpool charged the rioters on Monday with fixed bayonets, and also denied that there was any volley firing. The troops, said the Home Secretary, had fired only individual shots.

The Home Secretary declared that there were good grounds for believing that the London freight handlers were beginning to realize the advantages that they had secured by the recent settlement arranged between them and the employers, and that they realized that it would be folly to jeopardize these advantages by any ill-considered action. If no untoward events occurred, Mr. Churchill continued, the commissioner of police hoped to continue to maintain order in London without the necessity for calling in military aid.

The situation in Liverpool, continued the Home Secretary, was not satisfactory, but the last reports received were favorable as regards the keeping of order and the distribution of the necessary food. The chief of police at Liverpool had sent a telegram that there need not be any great importance attached to the rioting in the city yesterday. The rioting, the police chief said, took place in an area where disorder is chronic when there is any abnormal excitement. The object of the rioters, Mr. Churchill said, according to the police chief's report, was simply to attack the police, who were tempted into side streets where barricades, the sanitary bins and wire entanglements had been placed in order to entrap the police and enable the rioters to fight them to more advantage.

## Parrot Saves Lives.

Of Twenty Persons by Giving Alarm of Fire at New York.  
New York, Aug. 21.—A talented green parrot gave an alarm of fire in a ten story Madison Avenue apartment house early to-day and saved the lives of twenty persons who would otherwise have been suffocated by the dense smoke which filled the upper floors.

The parrot owned by H. W. Dearborn, Secretary of the Hudson-Pulmon Celebration Association, noticed the smoke shortly after midnight and roused its master by calling repeatedly "Come on, Harry, come on, come on," the fire was in the apartment just above.

CRIPPLED FROM CHILL.—By last night's train a young man named M. Graco of Salem, came along, accompanied by his cousin. He was suffering from a chill in the leg, could barely walk along and was taken to the boarding house of Mrs. Woods. He will go to Hospital for treatment today.

## Uncle Walt

THE POET PHILOSOPHER.

My home should be a home of peace; there everything is slick as grease. The wolves don't have a chance to roar around my handsome cottage door—they soon would get it in the neck; the horn of HUNTING GRIEF plenty is on deck; the larder's full of cake and jam, and codfish balls and shredded ham. The hauser and her bunch of kids would be as gay as karydids, if I could but my home enjoy, and not let outside its annoy. But I must fret my derved fool soul over such things as Alaska's coal, the wiles of those blamed Guggenheims, and Rockefellermorgans' crime's. The wicked tariff makes me sweat; our naval needs I can't forget, and when I hear that Hobson man predicting warfare with Japan, all sunshine leaves my haunted life, and I get up and beat my wife. I can't indulge in harmless chaff; I can't enjoy my photograph; I can't return my wife's kind looks, or get much comfort from my books, because the referendum cake has filled me with a blue roan ache. What blooming fools we mortals be! With old Bill Shakespeare I agree. Our lives might be serene and calm, and Gilead would give its balm, if I were of wifery would step aside, and take the gifts the gods provide.

## Wire Flashes Around Globe in Record Time.

New York, Aug. 21.—In order to ascertain the speed at which a commercial message could be sent around the world by cable, the New York Times filed a dispatch in the telegraph room of the Times building at 7 o'clock last night, and a reply was received by the same operator at 7:16:30 p.m.

The time occupied in the journey of 25,612 land miles was 16 minutes and 39 seconds, including sixteen relay which gave an average speed of twenty-nine miles a second.

An official of the Commercial Cable Company said that the time made by this message was the fastest ever achieved by a commercial cablegram since the opening of the pacific cable by President Roosevelt and Clarence H. Mackay, eleven years ago, when a record was made of 9 minutes and 30 seconds.

SUNLIGHT SOAP

Thirty-Seven Over Sixty

MANCHESTER, N. Y., Aug. 25.—Speeding eastward behind time, the Lehigh Valley passenger train No. 4 ran into a spread rail, on a trestle near here to-day, and two day coaches from the mid-section of the train plunged downward forty feet striking the east embankment like a pair of projectiles.

In the awful plunge and crash at least 37 persons are to-night believed to have been killed, and more than sixty injured. The injuries of several are so serious that it is feared they will die.

The wreck was the worst in the history of the Lehigh Valley line in this State, and one of the most disastrous ever recorded on the system. Crowded with passengers many of whom were war veterans and excursionists from the G. A. R. campment at Rochester. Train No. 4 made up of 14 cars, drawn by two big Mogul engines was 40 minutes late when it reached Rochester Junction and from there sped eastward to make up time before reaching Geneva.

PLUNGED DOWNWARD.  
The engines and two day coaches had just passed the centre of a 40-foot trestle over Canadaigua outlet 150 yards east of the station at Manchester, at 12:35 o'clock when the pullman car Austin, the third of a long train left the rails. It dragged the dining car with it and two day coaches, and two pullmans in the order followed. All bumped over the trestle a short distance when the coupling between day coach No. 237 and the rear end of the diner broke. The forward end of the train dragged the derailed pullman Austin, and the diner over safely, after which both plunged down the south embankment and rolled over. The front end of the ill-fated Lehigh Valley day coach, where most of the slaughter occurred was shoved out of the gully and followed by a Grand Trunk day coach, stripped the rear guard of the south side of the trestle, and plunged to the shallow river bed, more than forty feet below.
