Special Evening Telegram.
LONDON, Aug. 30.
The question of Tibet's future promises to become as great a bone of contention as Persia. The same section of the Liberal Party which accused Foreign Minister Grey of sacrificing Persia, and incidentally, Morgan Shuster to Russian interests, declares that Britain's Tibetan policy is on parallel lines. The Conservatives who support Grey more strongly than a number of the members of his own party, approve his ultimatum to China; and the desirability of having a buffer state between India and China furnishes ground for his action in the case. Predictions are made of another British expedition to Lhasa from North Eastern India, in order to protect the Tibetan ministers from the Chinese.

Germany and England are in a state of war, according to J. A. Aikins, a Canadian M.P., who has just returned here from a continental trip. In an interview, he said that from his investigation on the Continent and here, he was convinced that Germany and England were now in a state of war. No overt blow had been struck, but when it is, all may be over in three months or three days. When Canada understood this situation, he believed the Dominion's hearty help would be forthcoming.

An official statement declares that Judge from Premier Borden's reply, such agitation will meet with success, as the only obstacle suggested by Borden is that the provincial franchise had hitherto been accepted as that of the Dominion Parliament.

A Deserving Charity.

At all the masses in the R. C. Cathedral, St. Patrick's and St. Joseph's tomorrow the annual collection will be made for the orphans of St. Michael, Belvidere. To no more deserving charity could people subscribe as over 100 little girls are housed and fed, clothed and educated in this admirable institution, which is looked after by the good nuns. Considering how well and happy the children are and the excellent manner in which the institution is conducted we feel certain that to-morrow's collection will be a record one and that all creeds and classes will contribute to this very deserving institution. The Roman Catholic people especially, we feel sure, will see to it that to-morrow's collection will be the largest on record.

Serious Accident

MAN FELL 25 FEET.
Yesterday afternoon Benjamin Allan, painter, fell off a house and narrowly escaped being killed. He was engaged painting a house on Le-Merchant Road and in doing so was using a step ladder. At this particular time Allan was working at the side of the building when in some unaccountable way the ladder, though properly secured, suddenly slipped and fell, throwing the painter violently to the ground, a distance of twenty five feet. As a result his left arm was broken in two places, while his face, right side and lower limbs were badly cut and bruised; also being shaken up internally. He was picked up in an unconscious condition by the occupants of the house and soon after conveyed to the General Hospital where the broken bones were set and his injuries otherwise attended to by Dr. Knight. It will be several weeks before Allan can resume work.

Gas is Coal With the Trouble Taken Out.

Gas is really nothing more than coal, only with gas you have the coal less the dirt, ashes and smoke. These have been taken out by the Gas Company. The weight, too, has been taken out, for when you use gas you don't have to carry it up from the cellar in buckets, straining your back in the attempt. All of the drudgery has been removed. The Gas Company has taken everything out of the coal but the heat—and that's the one thing you want. This they deliver to you right to the burner of your range. You only have to turn a tap and strike a match in order to have it. If your mind is half made up to buy a GAS RANGE, remove the remaining doubt by thinking of last summer and the many days when your kitchen was like a burning furnace. The gas range never overheats the kitchen. Phone the Gas Company, or call at their showrooms and get full particulars.—June 20, 1912, t.h.t.f.

When the S. S. Prospero moored at her pier last night the passengers on board gave loud cheers for His Grace Archbishop Howley and Capt. Kean, who were on the ship. It was a still night and when the crowd on the wharf recoiled the cheering the vivats could be heard all over the harbor.
