Hot Time
in Commons.

Special to Evening Telegram.

LONDON, To-day.

The Commons met yesterday; there was a conference between Premier Asquith and General Paget, which was also attended by Churchill and ex-Sec. War, Seeley. True to his promise of yesterday, Bonar Law yesterday afternoon demanded from the Premier a judicial inquiry into the recent Ulster revelations. I do not know exactly what is meant by judicial inquiry, replied the Premier. I see no grounds for such a procedure. If the honorable gentleman's charge is that the Government advised and organized a plot with the object of promoting an armed rising in Ulster, if such a charge is seriously made in this House, I will gladly give a day for the making of such a charge at earliest possible date. This point-blank refusal of a judicial inquiry led to a remarkably heated series of exchanges between the leaders of the Government and the Opposition. Hon. Law asked heatedly, "Is not the Rt. hon. gentleman aware that statements made by him have been proved false?" "What guarantee have we that a similar line of defense will not be taken on a future occasion?" "Why," asked Mr. Law, "if the Premier has nothing to be ashamed of, should he object to have the truth tested at an inquiry where the statement could be made under oath." Again the Premier rose with every sign of anger. "I am not aware of anything of the sort," he declared. "If the hon. gentleman is prepared to sustain his allegations, I will give him a day for that purpose at the earliest possible date." "I have made the charge twice and the Right Hon. gentleman has not dealt with it," retorted Law. "Then am I to understand that he does want a day for this discussion?" asked the Premier.

"This House and country wants to know the truth," replied Law. "It is only by getting testimony of those directly implicated by the Government that we shall get at the truth." "I really do not know on what authority the hon. gentleman claims to speak for the country," replied the Premier. There was an angry growl from the Opposition at this taunt. Asquith proceeded said that the additional papers which had been promised in reference to these incidents, regarding the

army's duty on Ulster would be ready to-day. "When we see these papers we shall consider what steps we may think it worth our while to take," retorted Law amidst laughter from the Opposition ranks. "Why is the Right Hon. gentleman afraid of a judicial inquiry," proceeded Law. "Is it that all evidence must be under oath?" "I am not the least afraid," retorted the Premier. "But if the leaders of the Opposition are to make any charges against hon. Ministers, they must make them in this House." Law's reply to this was lost in general noise, he being heartily cheered by his followers at the firm stand he had presented.

THE GREATER QUESTION

At this season of the year for Farmers with up-to-date ideas is, what are the best means to use to get the best returns from the land.

Fertilizers must be used liberally if large returns are looked for. There are several good chemical fertilizers which may be recommended, but Sulphate of Ammonia has been proved to give the best returns, and is the most valuable and economical source of Nitrogen for agricultural purposes.

For vegetables, grass, and all leafy crops, about one and a half cwt. per acre is the best quantity to use, and this should be applied when the plant is making its growth, as well as before sowing the seed.

If a liquid manure is preferred, a ½ oz. of Sulphate to one gallon of water should be used, and applied once a week for a month. This quantity should not be exceeded.

It is a good plan to reduce the Sulphate to a fine powder, and mix with four or more times its own bulk, for the purpose of diluting the manure, which is very powerful.

For potatoes the following mixture is strongly recommended:—

40 lbs. Superphosphate.
26 lbs. Fine bone meal.
10 lbs. Carbonate of Magnesia.
15 lbs. Sulphate of Potash.
21 lbs. SULPHATE OF AMMONIA.

1 cwt.
Apply at the rate of 10 to 11 lbs. to 40 square yards.

The use of Carbonate of Magnesia, in conjunction with Sulphate of Ammonia, is of great importance in potato culture.

For turnips use the following:—
66 lbs. Superphosphate.
12 lbs. Fine bone meal.
13 lbs. Sulphate of Potash.
20 lbs. Sulphate of Ammonia.

1 cwt.
Apply at the rate of 10 to 11 lbs. to 40 square yards.

Sulphate of Ammonia of excellent quality is now made by the St. John's Gas Light Company, and may be obtained on very reasonable terms.

Full particulars may be obtained at the Gas Works, or at the Board of Trade Building, Ask for special booklet on the use of Sulphate. It will be found of great value in securing the heaviest crops.

A Claim Upon
The Empire.

Times Editorial, April 7th.

We feel sure that the appeal on behalf of the Newfoundland sealers which we publish to-day will meet with a ready and a generous response. It has a double claim upon us—a claim upon our charity and a claim upon our patriotism. British hearts are never insensible to either. The story of the Newfoundland and her crew as it has been told in our columns has moved them deeply. Not less tragic, we must fear, has been the fate of the Southern Cross and of those that carried. Hope for them, the appeal tells us, must now be abandoned. It is almost certain that they perished in the blizzard which overtook the sealers of the Newfoundland a week ago. As she carried a crew of 170 men, while 85 men of the Newfoundland have perished and most of the fifty survivors have suffered injuries which will unfit them to earn their bread, the number of dependents and of cripples to be provided for is very large. It is estimated that they will include some 150 widows and from 600 to 800 children. To meet the wants of so many helpless souls is altogether beyond the resources of the Colony.

A subscription, has been opened at St. John's and our fellow-subjects of Newfoundland will give, and give freely, as is their wont. But so great a calamity is too overwhelming for their abilities, and in their need they turn to their fellow-subjects and fellow-countrymen at home. They will not turn to us in vain. The charity which has so often supplied funds for the widow and the orphan who are tied to us by no bonds of blood, will not be deaf to the cry of those of our own Empire and of our own stock. These Newfoundland fishermen are of English and of Irish race and they possess the finest gifts of their people. They are brave and enduring; honest, sober, and laborious. They are deeply religious, and loyal to the heart's core. The sealers are the flower of the fishing population, for none but picked men can face the hazards and the hardships of the work. They are men in the prime of life, and almost all of them are the breadwinners of a home. These homes are now laid desolate by a sudden and appalling calamity which no foresight could have prevented and no exertion remedied. It is for the countrymen and countrywomen of the victims and of the afflicted to mitigate the sufferings of the survivors, and to relieve, so far as in them lies, the lot of the widows and of the fatherless who are left. It is a duty of charity and of patriotism which they will feel it a privilege to discharge.

More Fires.

Fires provoke immediate sympathy for the sufferers and also thankfulness for personal escape. Another thought should be whether one is personally and sufficiently protected? An insurance policy with Percie Johnson would provide for you this desired security and at small expense. Have you enough insurance?—ap17,tf

S. S. Association

Increasing Fund.

The members of the Star of the Sea Society held a very successful card tournament in their rooms last night, the funds of which will go, towards supplementing their donation to the disaster fund.

Despite the inclemency of the weather, and the many other attractions there was a large attendance. The winner of the first prize, Mr. A. Abbott, of Pennywell Road, very generously placed the same at the disposal of the committee in order to further increase the proceeds.

Arrangements are being made for a lecture in aid of the fund, to take place at an early date.

Ore Shipment.

The S. S. Wascona sailed from Bell Island yesterday for Philadelphia taking 7,800 tons of ore. This is the first ore shipment to leave the Island for the season.

The Tellus and Themis will follow shortly.

Rain Storm
and Blizzard.

Last evening a S. E. gale accompanied by rain, raged on the West Coast and in consequence the express train did not get away from Port aux Basques until 4 o'clock this morning. On the Topsails a blizzard prevailed and a rotary plow left Kitty's Brook this morning to clean the road for the east bound and west bound trains.

LAST GULF SEALER.—The S. S. Neptune, the last sealer to come out of the Gulf, is expected to reach here the later part of the week. It is thought that she is doing well with old seals.

he Boy Hero.

We know who he will buy it for! But who will he buy it from? Hundreds of Engagements and Weddings are sealed yearly in Newfoundland with Trappell's Solid Gold Rings. Hundreds of friendships and tokens of affection to sweetheart, wife, mother, sister and friend are embodied in lasting embrace with Trappell's Rings, the popularity of which is based upon their quality, finish and variety and beauty of design. Rings for men, women, baby and miss for every occasion. Gem Rings, Chased Rings, Signet Rings, Birthday Rings. Should you have a desire to get a ring of such design as you may create yourself, or that you had seen somebody else wear, just take your design to Trappell; there is nothing impossible along these lines for his talented workmen. A splendid assortment of unset stones can be seen if your design calls for a Gem Ring. Ask to be shown the new White Sapphires. They are hard and brilliant like diamonds so much so that they puzzle experts.—ap20,tf

BOATS GETTING READY.—The S. S. Dundee sailed yesterday, and will soon be ready to take up her regular service. All the other ships of the Reid Company are now being made ready for their respective routes.

LARGE OIL SHIPMENT.—The Sardinian took a large shipment of cod oil for Philadelphia yesterday.

Here's a hand to the boy who has courage
To do what he knows to be right;
When he falls in the way of temptation
He has a hard battle to fight;
Who strives against self and his comrades,
Will find a most powerful foe,
All honor to him if he conquers,
A cheer for the boy who says "No!"
There's many a battle fought daily
The world knows nothing about;
There's many a brave little soldier
Who's strength puts a legion to rout.
And he who fights single-handed
Is more of a hero, I say,
Than he who leads soldiers to battle
And conquers by arms in the fray.
Be steadfast, my boy, when you're tempted,
And do what you know to be right;
Stand firm by the colors of manhood,
And you will overcome in the fight.
"The Right!" be your battle cry ever
In waging the warfare of life;
And God who knows who are heroes,
Will give you the strength for the strife.
