Reddening of Fish.

Last week an article in this column was devoted to a dissertation on the reddening of codfish under salt, and the main contributory cause thereof. The contents of that article were based on reports of Canadian and United States scientists, who declared in practically the same language that the discoloration of codfish in the cure was due to the quality of salt used in preservation, and recommended the use of saline products other than those at present employed in the curative process.

command the higher price if our products are inferior to those of our competitors. As the report of Professor Harrison states the demand of progressive civilization is in the increasing attractiveness of food, particularly fish food, which is shipped in bulk. Unless we meet that demand, we cannot hope to hold our original markets, let alone enter new zones of demand.

Methodist Conference.

REV. W. J. MORRIS, PRESIDENT. GRAND BANK, July 3. The 38th session of the Methodist Conference opened here on Saturday, July 1st, Rev. Dr. S. D. Chown, presiding. Rev. W. J. Morris, was elected President, and Rev. Ezra Broughton, elected Secretary.

The C. C. C. Tug of War Team

will meet in the Armory tonight at 8.30. C. E. JARDINE, Convenor.—Jy4.11

Silver Cliff Mines.

OUTLOOK VERY PROMISING. Mr. W. A. McKay and Mr. H. J. Earle of Fogo returned to the city yesterday from a visit of inspection to Silver Cliff Mine, Argentina. As the drift known as Camp Adia has been cleaned out they were able to view the underground workings as they were left some years ago.

The Humber Project.

NEGOTIATIONS WITH AN ENGLISH FIRM.

Interviewed by the Telegram this morning Hon. Dr. Campbell, Minister of Agriculture and Mines, said that negotiations re the handling of the Humber proposition by the English firm of Armstrong Whitworth, Ltd., were progressing, but that so far nothing beyond the initial stages had been accomplished, and any pronouncement beyond this would be premature. The Minister stated that it was the Government's intention to make the best deal possible in the interests of the country, and not grant concessions that would endanger our resources.

Rotary Luncheon.

LORD MORRIS ON INDUSTRIAL CONDITIONS.

Industrial conditions in England formed the subject of an interesting address made by Lord Morris before the Rotary Club at the Green Lantern to-day. About forty Rotarians and their guests sat down to luncheon. Lord Morris expressed his pleasure at the address made by Lord Morris before the Rotary Club at the Green Lantern to-day.

In the Realms of Sport.

BASEBALL. Should the weather be fine to-night the Cubs and B.I.S. will mix it up in what should be the finest game for the season. Both have their eyes on the pennant this year, and since the Harps vanquished the Wanderers in the regular League game their supporters opine that they can break through the barrage.

REGATTA. Thank goodness the Boat Clubs have seen the error of their ways and unconditionally have thrown in the lot with the Regatta Committee as in other years. After all it was most unfair to attempt to penalise the public for what was a misunderstanding or disagreement between the Committee, the Club and "the powers that be" over sweepstakes. However, all well that ends well, and here's hoping that our 1922 Derby will be the best ever.

FOOTBALL. The C.L.B. completely whitewashed the C.E.I. in the regular league fixture last night and were decidedly improved in their game since last appearance. Playing conditions were ideal and there was a fairly large attendance. The game started off at a fast clip and honours were about even for a quarter of an hour when the Brigade started a "goal-fest" and before they let up Chafe was good for two and Snow and Curlew one each.

AT THE LINKS. Just a round at twilight. With the walking dinners cold and colder grow; Golfers rather weary; On a course that's long; But they're there at twilight Still going strong.

ST. MICHAEL'S. The Sports Programme arranged for to be held at Lester's Field, Cornwall Avenue, on to-morrow afternoon promises to be very interesting and every event will be closely contested, as a large number of entries have been made. The programme will include the following items—100 yards, one mile, sack race, potato race, broad jump and inter-parish tug-of-war. Entries will close on the field. The finals in the League Football lives

Vandalism. What is supposed to be one of the most barefaced acts of vandalism perpetrated for some time was witnessed Sunday afternoon by residents of the Higher Levels. Two well dressed middle-aged ladies (?) wandering their way in that locality were attracted by a lilac tree profusely decorated with its annual flower. Not content with viewing it from a distance, one of them hooked a large branch down within reach with a walking cane which she sported, and the two of them stripped the tree of its contents. We understand that a good description of these women has been given the owner of the property, and a very interesting court case may be the outcome. We are trying to educate the youth of the city to respect the beauty of both public and private properties, but what is the use when people of this sort show such an example and generally get off scot free.

Advertisement for Removing Rails. 'Removing Rails. FORTUNE BRANCH LINE TORN UP. The rails on the proposed Fortune Bay Branch Railway are now being removed and will be used when needed, to replace broken rails on other sections of the line. R. C. Morgan, General Manager of the railway made this statement to the Telegram this morning. The branch is 30 miles in length and cost over \$740,000 to build. It has never been used and the sleepers have become rotten. The new Management Committee has wisely decided to put the rails to some use.

Visit the Garden Party, then come to the junction of Cornwall and Hamilton Avenues and try a "Waldmere" Ice Cream. Jy4.21

Newfoundland History (?)

GULLIBLE AMERICAN PAPERS.

According to a news item in certain American papers, Newfoundland was colonized only 89 years ago. The following item appears in a Washington and an Alabama paper: FIRST ENGLISH IN NEWFOUNDLAND. "In 1583 an English colonizing expedition was led to Newfoundland by that chivalrous navigator, Sir Humphrey Gilbert, who belonged to that group of enterprising and patriotic men whose names shine forth in the history of the reign of Queen Elizabeth. He was a half-brother of the gallant but ill-fated Sir Walter Raleigh."

Seaman Drowned.

DORY SWAMPED. The following message has been received by the Marine and Fisheries Department from the Lightkeeper at Aquatort:—"Richard Osmond of the Schr. Gordon Hollett was drowned here yesterday whilst taking a dory load of ice to his vessel. The plug came out of the dory which filled and foundered. Osmond's dory mate swam to land."

M. G. C. A. Sports, St. George's Field, to-morrow afternoon, will be well worth seeing.—11

Shipping Notes.

S.S. Rosalind left Halifax at 1 p.m. to-day and is due here on Thursday. S.S. Manoa left Charlottetown at 1.30 p.m. Monday, for Montreal. S.S. Canadian Sapper sails from Montreal on July 6. S.S. Sachem leaves here on July 12th for Halifax. S.S. Silvia is discharging her coal cargo; a definite date of sailing has not yet been set.

Looking Toward California.

ORDER BLAST FURNACES.—According to the "Wall Street Journal" of June 30th the Government of Newfoundland has placed a contract for the construction of blast furnaces with a capacity of 100,000 tons per annum.

THE LAND OF EASY MONEY.

It is said that a number of citizens, including several well known business men, are adjusting their affairs here and will shortly leave for California. The glowing accounts brought back by visitors to this sunny land, and the success of several Newfoundlanders since settling there have induced these others to seek what they failed to find in their own land.

Who Pays for It?

According to the Star-Telegram of Fort Worth, Texas, the Russian Soviet government is purchasing 20,000 tons of codfish from the Newfoundland Government. We wonder how the roubles necessary to pay for this fish will be transported. The amount is estimated to be in the neighbourhood of fifty or sixty billion paper roubles. (Why not engage the Lobelias to bring them?)

College Men Work North.

COLLEGE MEN WORK NORTH. The New York American for June 11th, has the following item of local interest:—"John M. Reynolds, twenty-one, of No. 641 East Nineteenth Street, will be one of a large group of college men who will sail for North Newfoundland next Saturday to work among the destitute natives of that country. Reynolds, who is a senior at Princeton, is a graduate of Adelphi College. Each summer a journey to the northern country is made by a number of college men who work during the summer instructing the natives. MINARD'S LINIMENT FOR THE GRIP AND FLU.
