### Rotary Luncheon

at the weekly luncheon of the St. John's Rotary Club held on Thursday the Stirling Restaurant, Chairman Rotarian J. J. Mu.cany latroduced the Rev. Chas H. Johnson Paster of achrane Street Church, who gave very interesting address on the most practical method for roue obering historical dates, facts and incl-Many inceresting topics for daily conversation as well as subjects for club addresses would be fu nished if people could recall some of the hisorical events which occurred in the

go, for instance, the Methodist Misonary Society of Canada and Newoundland, was inaugurated at Hallovell. Ont., starting off with a budget of \$144.00 which has gradually increasd to \$1.200,000 to date. The 21st day of August, 1833, is memorable for the reedom of the slaves of Great Britain, and the same day, 65 years ago (in 1859) the first great oil well was blown at Titas Ville, Penn. During the month of September other historical incidents might be recailed. For instance, on the first of September, 1858. £ S. D. Currency was discontinued in Canada. On the 2nd of September, 1665, the first white man Allowez, saw Gitchee Gummee (Lake Superior). Just as America celebrates the 4th July, September 3rd is celebrated by the British, as on that memorable day, in the year 1782, the Treaty of Paris was signed. On Sept. 9th, 1583, on the good ship "Squirrel," Sir Humphery Gilbert signallel to the "Golden Hind," the famous message: by sea as land.' On Sept. 12th, 1759, the battle of the Plains of Abraham occurred, and on Sept. 14th, 1752, the twelve days were dropped in order to bring the calendar up to date. On that day also, the Manchester-Liverpool Railway was opened-the first railway in England. In 1830 the Sewing Machine was invented by Elias Howe. On Sept. 25th, 1857, the Re-Hef of Lucknow is commemorated. This method of remembering history is particularly use ul in teaching the

Another method is the topical side f history. For instance, incidents of revenge with its sub-divisions of retaliation, punishment and retribution. Cain who murdered his brother Abel for revenge is, of course, first on the list. The historical incidents as noted in the savings of Mary Queen of Scots that she would rather lose her Crown than lose her revenge on Murray. Developments arising out of this disagreement and desire for revenge were eventually instrumental in causing her to lose her Crown. The revenge of James II. may also be cited; when he realized he would be deprived of his Crown, he threw the Great Seal of England into the Thames, Henry VII, who after his conquest made his victim a scullion in his kitchen Charles II had the body of Cromwell exhumed in order to have it hanged and quartered. Fulvia who with a bobkin from her hair repeatedly stabbed Cicerd. Other historical incidents, of course, can be recalled by contrast to that of vengeance, for instance the words of Caesar at Pompeii, "I see victory not vengeance." The great Napoleon was never personally revengeful, and whilst imprecations have been hurled upon him for numerous bloodsheds and losses of life, still impartial historians claim that he never sought revenge for any personal hurt.

3000

By placing historical facts under definite headings such as mentioned above they can much more readily be retained and quickly recalled when required. Rev. Mr. Johnson was accorded the usual vote of thanks for his instructive address.

One new member in the person of Fred M. Cornell was accorded a hearty welcome to the ranks of Ro-

Among the guests were Harold Foster, W. H. Peters, Leonard Redmond and R. Janes.

### Lucilla B. Creaser

LOST DECE CARGO.

Schr. Lucilla B. Creaser, which was owed into Capa Broyle, on Tuesday last, will sail in a day or two for Trinity. Losing practically all her sails in the storm of the 2ith of August. Captain Fiander had to come on to the city to procure sufficient to take the vessel to her destination. He left here this morning to rejoin his vessel at Cape Broyle. . Richard George, the 19 year old seaman, who was washel overboard and drowned, was only 15 days on board. He joined the vessel at Corner Brook. The storn was one of the werst in the experience of the captain, and but for the promptness of the mate, a second man would have seen lost. The mate just caught him as he was going overboard with a ics. The vossel's cargo of coul shifted and the deck cargo was lost.
