DRESS and MANTLE MAKING

The Fashionable West End.
To the Ladies:
We have during the past two years contemplated the establishment of a Dress Making Department, in connection with our other branches. The difficulty of obtaining a suitable person to take charge, has, up to the present time, only prevented us from doing so.

We have now great pleasure in informing you that we have secured the services of Miss MORRISON, of Toronto, a lady of first-class abilities, highly recommended to us, and we believe eminently qualified to give complete satisfaction in every respect. Miss Morrison has for the past six years occupied the position of cutter and fitter in one of the leading Fashionable Dress Making Establishments in the City of Toronto.

Miss Morrison is also an experienced Mantle maker, and all orders entrusted to her will be executed in a style equal to anything that can be obtained in the largest cities.

Orders for these departments will be received on and after Monday next, the 4th of May.

A. O. BUCHAN, Fashionable West End Dress, Mantle and Millinery Establishment.

Town and County News.

Don't forget the Baptist Bazaar tomorrow and Saturday.

Mr. McConnell, tanner, who has just removed from Cheltenham to Mount Forest, received a supper and presentation on his departure.

FOR THE OLD COUNTRY.—Messrs. Thos. A. Heffernan, Wm. Stewart, merchants; Alex. Hill, Chas. Leonard; and Jas. Innes, of THE EVENING MERCURY, left to-day for the old country. They sail from New York on Saturday in the steamer Callifornia, of the Anchor Line. Mr. Bryce, Express Office, is agent in Guelph for that line.

THE EAST WARD.—Mr. Chas. Davidson is announced as a candidate for the East Ward, in the place of Mr. Bell, resigned. We learn that it is the desire of a number of ratepayers in the East Ward that Mr. David McCrae should be elected to fill the vacancy. Mr. McCrae is a young man of ability, has already had experience in the Council, and is well fitted for the work. We hope he will allow himself to be put in nomination.

Since the above was written, we learn that Mr. McCrae has consented to stand.

FATALITY AT ACTON.

A sad and fatal accident happened at the stone quarry near Acton on Wednesday, by which a respectable and industrious man named Joseph Medland, aged twenty-four years, lost his life. While in the act of hoisting a large block of stone, one of the guys of the derrick broke and the mast fell, striking Mr. Medland on the head killing him instantly. Great sympathy is expressed for his young wife, who was absent at Guelph, and knowing nothing of the accident till he returned home on the evening train.

THE ANNUAL PICNIC OF CHALMERS.

Church Sabbath-school was held yesterday afternoon in Mr. Guthrie's grounds. About two o'clock the children began to form little groups. The numbers rapidly increased, and soon both lawn and wood resounded with their glee. The weather was mellow, the grass was closely mown, trees and shrubbery were in full foliage. The play-ground, as seen from the elevated terrace in front of the house, with the river just visible through the trees, and the troops of boys and girls eagerly engaged in favorite games, presented an attractive and animated scene. The lovers of croquet, swing, and ball had full scope for the gratification of their tastes. Provisions were abundant, and they appeared to be relished as highly as the games. Mention should be made of the teachers to whose zealous work so much of the afternoon's enjoyment was due, and of the friends who sent in so bountiful a supply of refreshments. Nor must we omit to say how much Mr. Maitland, with his singing classes, contributed to the pleasure of the assembly. The scholars, the teachers, and other friends who were present, seemed all alike gratified by the intercourse and recreation which the happy gathering afforded them.

Y. M. C. A.—The festival last (Wednesday) evening was a decided success, the drill shed being crowded with the members, and members' friends, of the respective churches. The interior of the building looked exceedingly well in its decorations. What can we say of the festival itself? Not much that is new. A battalion of young ladies, in single rank, stood to their posts, and dispensed the delicacies. They were in good military order, for they had faithfully obeyed the command, "Buy the right dress—dress up!" And they gave a great many of their friends a very cool reception, yet these could not but acknowledge that they were treated in a nice manner. The same throngs promenaded round and round, and round again; the same sitters criticised the promenaders; the same blue-uniform band followed the silver cornet's lead; the same social chat was indulged in; and the same expression of "work's over" was on every face. Financially, the result was good, the proceeds amounting to \$110.

Since the St. George's club of St. Catharines have got their reputation up by defeating the Toronto eleven, they have had challenges from a number of other clubs, Ottawa, Guelph, Hamilton, and Toronto has again challenged them, but they have had so little time to play matches that they have had to reject the offers of all.—So says the News. But isn't there a method about this refusing? The laurels are slippery.

Minute of Presbytery.

DEATH OF REV. ANDREW McLEAN.
In our report of the proceedings of Presbytery, published on Wednesday, it should have been stated that a committee which had been appointed to prepare a minute on the death of the late Mr. McLean, of West Pauline, reported, and their report was received, ordered to be engrossed in the minutes, and copies to be forwarded by the Clerk to Mrs. McLean and the congregation. To-day we publish the minute in full:

1. The Presbytery, while receiving with sorrow the tidings of the decease of the Rev. Andrew McLean, would at the same time humbly recognize the hand of God in this afflictive dispensation, remembering that even when His dealings seem mysterious, He "doeth all things well."

2. They would remember, with gratitude to Him who is the giver of every good and perfect gift, the faithfulness and perseverance with which he was enabled to discharge the duties of his ministry, and entertain the hope that, besides results of his labor, which he was privileged to see, the good seed sown by him may yet spring up with an abundant harvest, to the praise and glory of God's grace.

3. They would cherish the hope that their departed brother, having ceased from his labors, sleeps in Jesus until the day of God shall dawn and the shadows flee away.

4. They would place on record an expression of their sympathy with his flock, thus deprived of a pastor, and of their hope that a faithful minister may soon be sent by the Great Head of the Church, fill the place of him who has been taken away.

5. And they would sympathize also with his bereaved widow and children, deprived now of his presence and protection; commending them, as well as the congregation, to God and to the Word of His grace, which is able to build them up and to give them an inheritance among all them that are sanctified.

POLICE COURT.

Before T. W. Saunders, Esq., P. M. Thursday, July 10, 1873.

ASSAULT.

Henry Joseph Chipelase was charged by Thos. Worwick with assaulting his nephew in the township of Guelph, about two miles from town. The boy is aged about 16, and was in the service of the defendant. It appears he annoyed the latter in some way, and got a severe beating in consequence. The punishment was thought unequal for the offence, which fined him \$2 and costs.

SUSPICION OF THEFT.

Mary Clarke was brought up on suspicion of stealing some articles of wearing apparel from Mr. Green, Waterloo Road. Remanded until Saturday.

THE WHISKEY STEALING.

This case was brought up, and remanded for a week, in consequence of the evidence not being complete.

The Ottawa correspondent of the London Advertiser is informed that Sir Hugh Allan has submitted an offer from European capitalists for the purchase of Pacific bonds at 86 per cent. The French Canadians are highly indignant at Sir Hugh's reference to them in his correspondence, and prominent members of that party in the Commons have demanded from Mr. Langvin his retirement from the Pacific Railway Company.

THE LONDON ADVERTISER SAYS SIR HUGH'S AFFIDAVIT, SO FAR AS HIS BINDING EFFECT IS CONCERNED, IS ENTIRELY POWERLESS.

The oath he is supposed to have taken was administered by a Justice of the Peace who had no authority to take affidavits, and consequently no indictment for perjury could be brought in connection with it, though Sir Hugh should have sworn to lie from beginning to end. So much for the force of the great affidavit.

On Tuesday evening as he was sitting on a verandah of the house of Hon James McKay, Winnipeg, he was seized, pistols held to his head, tied, and borne off to a carriage in waiting, and driven away towards Pembina. A telegram was sent to Mr. Bradley, reporter of Customs there, who arrested the whole party. The two American detectives are returned to this place, and will be examined. On suspicion of being implicated, Hon. Mr. Fletcher and Mr. Merriam, banker, both of Minnesota, and an American merchant, have been arrested here.

Overwork and Want of Sleep.

Overwork causes a great deal of ill-health in farming communities. Very many farmers, in their efforts to avoid idleness, which they consider a sin and a shame, go to the other extreme and lose both health and happiness thereby. While industry tends to health, overwork breaks down the constitution and shortens life. It injures both the body and mind, and if long continued results either in death or premature old age. For this sin, and sin it is to overwork, there is not nearly the excess on the part of farmers which there was twenty years ago. Now one has machines to take in a great degree the place of hand labor, and the farmer who will use them need not break down his health by working too hard. But it is not the farmer who is most liable to overwork. The farmer's wife is generally the greatest sufferer. Every day in the year, Sundays not excepted, she has much to do. Often there is as much required of her as two women ought to perform. As the result of her overwork, health is lost, and she either dies long before her time or lives only to suffer the penalties of the law she has transgressed. For this course there is no justification. No woman ought to work herself to death, and no man is justified in requiring or allowing his wife to do so. He ought to furnish her with household machines, and if her health is poor either help her himself or hire a girl to help her. This killing himself and his wife, which so many farmers do, for the sake of laying up a few dollars which they never expect to use, and which they cannot carry with them when they die, is a miserable speculation as far as profit and loss are concerned, and a sinful, shameful thing for any man to do.

Want of sleep is one of the chief causes of much of the physical and mental trouble of farmers and their families. During the busy season, when the farmer rises at four in the morning and works until six or seven in the evening, then eats his supper, does his chores, and sits up an hour or two later to read his paper or chat with a neighbor, he does not obtain sleep enough to keep either body or mind in perfect health and vigor. The evil consequences of his course may not be apparent for many years, but sooner or later they will come. The waste of the brain is not fully made up. Little by little it decays, and insanity or incurable disease is the final result of using the hours which should be devoted to sleep for other purposes. Farmers' wives, who are often kept awake at night by the exhaustion caused by overwork or by crying and fretting of children, are the greatest sufferers, and year by year a vast number of this class go to the insane asylum or the grave. It is slow but certain suicide to curtail the hours of sleep, and no man, woman or child need expect to long continue in good health without taking the fullest amount of quiet rest.—Working Farmer.

East Garafraxa.

(From Our Correspondent.)

An accident occurred to Noble Hanna last Saturday, July 6th, while helping his father at a sawing machine, on the 12th Con., East Garafraxa. The young man was engaged in rolling blocks from saw, and accidentally a large block was rolled against his leg, which was badly bruised; but we are happy to learn that no bones are broken.

A farmer residing not a thousand miles from Marsville heard his dog making a fuss the other evening, and going out to see what was the matter, beheld to his horror a large black bear on the fence. Mustering courage he seized his axe to face bruin, but his heart failed him. By this time his family had notified some of the neighbours, but they, being of the feminine gender, dare not face the monster. Then they sent for neighbour Charley to come with his gun and spot him; but, before Charley arrived, a kind farmer came to their assistance; he walked straight up to the animal, and lo, it was—a BEAR!

Hesperer Correspondence.

The scholars of the public schools purpose having an exhibition in the Sunday-school Rooms of the Methodist New Connexion Church on the evening of Monday, July 14th, charging an entrance fee of ten cents. Proceeds to be expended in knick-knacks for the Public-School rooms.

At a regular meeting of the Council, held on Monday evening, the rate for the current year was struck at one cent on the dollar. A communication was received from Messrs. Randall, Farr & Co., asking a bonus of ten thousand dollars, in consideration of which they promise to increase their present capacity. The petition of ninety four ratepayers, presented at the June meeting of the Council, asking a side walk along Adam and Forbers streets, was wholly ignored, local improvements being too plebeian to take the attention of the Council in these days of bonuses on the brain.

Hesperer, July 9th, 1873.

The Dominion Company is erecting a telegraph line from Clinton to Wingham.

ST. LAWRENCE BANK.—About \$25,000 stock in the St. Lawrence Bank has been subscribed in and about Wingham.—This secures an agency, which will be opened about the 1st September.

A lodge of Odd Fellows is about to be opened at Wingham.

ONTARIO TEACHER.—The July number of this useful periodical begins to try conclusions with the "Journal of Education," respecting the duties of public School Inspectors, and the best method of giving weight to their expressions of opinion, by urging them either publicly or officially. Some of the contributions are very good, especially "Recollections of a Visiting Day," and "About Canadian Literature." The conductors have reason to be gratified with the increasing success of their undertaking.

An accident happened on Monday morning, to Magnus Lonnit, of East Wawanosh, near Belgrave, which might have resulted fatally but for the presence of mind of the wounded man. It appears that whilst a boy was chopping, Lonnit accidentally received the stroke of the axe, cutting a deep gash on the shoulder, and then down the arm, severing the artery. The loss of blood was great, but fortunately the man had sufficient presence of mind to advise the immediate tying of a towel above the wound very tight, which stannohed the flow of blood, thereby saving his life.—Clinton New Era.

A QUEER TALE.—The St. Catharines Daily News has the following:—On Sunday afternoon four young men, boarders at Morrison's Hotel, Niagara, took a sail boat thence and went out for a sail on the Lake. Some time after starting a sudden drowsiness came over them, and in a short time they were fast asleep. On awakening some time afterwards they found themselves near the lighthouse at Toronto. They at once put back and arrived at home shortly after twelve on Monday, without sustaining any accident. It was exceedingly fortunate for them that the lake was calm.

STRANGE AND SHOCKING DEATH.—Miss M. Ryan, an accomplished young lady residing at Ogdensburg, while promading on State-street, on Wednesday, is supposed to have stepped on a nail, which ignited her clothing and was burned to death in a few moments. She was to have been married at an early date.

Mr. Jones, of North Leeds, declares that on the meeting of Parliament next month, he will submit to the House Sir Hugh's claim to have won over 27 members of Parliament, and prove that Sir Hugh brought to the bar and interrogated as to the names of the members he had bribed as alleged. The impression is now general that there will be a full meeting of the House on the 13th prox. So anxious does Sir John feel about the situation, it is said that he has already communicated with the British Columbia and the Manitoba members, with the view of securing their attendance.

A melancholy accident occurred on Wednesday, at Bradford, by which Mr. William Blankely lost his life. He was going down Holland River in a tug, and met by some mischance have fallen overboard, as he was soon missed by the hands on the boat. He leaves a wife and child.

The Minister of Marine and Fisheries has directed an enquiry to be made into the cause of the loss of the Inman steamer City of Washington, on the coast of Nova Scotia.

An indication of the change that is taking place in Spanish public feeling is the fact that the lieutenant-colonel of a regiment of Chasseurs, stationed at Tarifa, has been cashiered for challenging Senor Compos to fight a duel.
