

COUNCIL COMMITTEE FAVORS TAKING CARE OF THE SMALL FACTORY FIRST

President Devenish of Industrial Bureau and New Industries Committee of the City Council Confer on Resubmission of Housing Bylaw

THE industrial bylaw, by which it is proposed to finance the housing of new industries, will probably be submitted to the ratepayers again at an early date. President Devenish of the Industrial Bureau, and the members of the new industries committee of the city council were in conference yesterday afternoon, and the proposal received favorable action. It is probable that the election for the bylaw will be arranged for some Saturday, which will give the ratepayer an opportunity to vote on the proposition.

The ratepayer of the Eastern Motor company, who presented the proposition, was not considered favorably. Practically everyone present felt that the ratepayer should be given an opportunity to vote on the proposition, which might develop into a question of the future of the city, and that it was better to have the community to have ten small factories, employing twenty-five men each, than to have one large institution employing 250 men. At the same time the ratepayer will be made to take care of the housing of the workers in some other way.

LACK OF ATTENTION PROVES FATAL TO SICK CHILD

Newcomers to Calgary Live in Squalid Conditions and Measles Causes Death

Another distressing case of death, resulting in the death of a young child, has come to the notice of the health department. A fortnight ago, a family of newcomers arrived in Calgary, and took up their abode in a shack in the north end where there were no

fewer than 16 persons living in one room. To add to this state of affairs, the young child fell sick with the measles.

The inspector arrived duly on the scene and placed his yellow card on the door. The parents took no notice of it, thinking that it was a card of healing of some kind or other. The child died without attention of any kind. The parents then proceeded to have it buried and were going to do so without the aid of an undertaker when the Associated Charities came to the rescue and the body was interred at the expense of the city.

Bartlett Meets Stefansson.
Vancouver, B. C., June 9.—Captain Bartlett, the veteran skipper of many expeditions to the Arctic and who is to command the Karluk, arrived here tonight to meet Stefansson, the chief of the next expedition to the north. He declined to discuss the report that he had declared the vessel unsuitable, but stated that he had been misrepresented by certain newspapers.

THE WONDERFUL COW THAT SMASHED ALL CANADIAN RECORDS—owned by W. H. Cherry, of Garret, Ontario. In thirty days she produced 1,542 pounds of milk and \$3.45 pounds of butter, breaking the former Canadian record by 4 1-4 pounds. She is a Holstein-Friesian heifer, and is expected to break numerous records at the Canadian live stock show next winter.

CHURCHILL REFUSES TO TALK OF NAVY AT PRESENT TIME

First Lord of Admiralty Makes No Attempt to Explain His Statement

London, June 9.—In the house of commons today, Sir William Byles asked the first lord of the admiralty whether, in view of the fact that he had informed the house last December that the Canadian contribution to the navy was to be in addition to and not in any degree in substitution for the existing British program, he would explain why that program should be rendered in any degree inadequate by a temporary check in providing the Canadian addition.

Winston Churchill, replying, referred Sir William to the admiralty memorandum of December last, and to his own speeches in March.

Sir W. Byles asked if this acceleration was not in conflict with the spirit of the naval holiday. Mr. Churchill said this had been most carefully kept in mind, but expressed the opinion that he could not discuss these matters with any advantage or in a manner satisfactory to the house at the present time.

May Cut Affiliation.
There is some talk of the Calgary board of trade ceasing to be a member of the Western Associated boards. Calgary is the only Alberta board to belong to that body and with the prospective formation of an Albertan association, it is likely that Calgary will join that body.

DOCTORS PUZZLED BY NEW DISEASE

London, June 9.—English doctors are puzzled by a new disease which has appeared in the west country and spread with almost the rapidity of an epidemic. The chief symptom of the disease is the appearance on the tonsils and back of the throat of a membrane resembling that of diphtheria, with a swelling of the lymphatic glands from the neck, very high temperature, severe erysipelas, swelling in the joints and heart failure and other symptoms. The heat weakness often persists indefinitely after all the throat symptoms have disappeared. It was at first thought the disease was diphtheria, but exudate from the throat was examined by the clinical research association in London, and no trace was found of diphtheria. Since then it has been suggested that the disease may prove to be a non-typical variety of scarlet fever or measles.

Paris is suffering from a similar epidemic, and there the death rate among children affected averages fifteen to twenty per cent, which is worse than the mortality from diphtheria before the days of anti-toxin.

Calgary Delegates Off For Winnipeg.
The convention of the Western Associated Boards of Trade will open in Winnipeg next Monday. The delegates who will attend from Calgary are J. A. Valliquette and R. J. Hutchings.

Street Car Victim Dies.
Vancouver, B. C., June 9.—Without regaining consciousness since he was struck by a street car, Robert Estabrook, 15 years old, died at the hospital tonight. Dressed was riding a bicycle in front of a car and did not see a car coming on the other track. In the fall he sustained concussion of the brain.

Sporting Earl Coming.
Earl Winterton, who is well known in old country political and sporting circles, is expected in Calgary this week. His lordship has many interests in Western Canada and has been here before. He will have an interview with Mayor Sinnott on his arrival.

SNELL'S The House of Quality

Corner First St. West and Thirteenth Ave.

Come Up Where You Belong!

In the human body, "man power" comes from food.

But the food must be right.

The gray tissue cells of Brain and Nerves are composed principally of water, albumen and Phosphate of Potash. The first two exist in every-day food, but phosphate of potash is frequently lacking.

This necessary element is supplied in

Grape-Nuts FOOD

Made of choice wheat and barley, it contains all the vital mineral salts of these grains, including the phosphate of potash so essential for proper nourishment of Brain and Nerves.

Grape-Nuts food is thoroughly baked, digests easily (in about one hour), and thus forms a perfect complement to ordinary food in the dietary of the average person.

Grape-Nuts—more than any other one factor—supplies both body and Brain with nourishment up to the standard of Nature's requirements.

If health and the efficiency which comes with it appeal to you, try Grape-Nuts!

Ready to serve direct from the package with cream and sugar—and wonderfully appetizing.

"There's a Reason" for Grape-Nuts

Sold by Grocers everywhere.

Made by Canadian Postum Cereal Co., Ltd., Windsor, Ont.

AN UNUSUAL DOUBLE-YOKED EGG—Sergeant Childs, of Toronto, found this freak of nature in his hen-house the other morning. The top part is like an ordinary egg with a soft shell, which contains nothing but the white of the egg. The lower portion is connected with the upper part by a soft-shelled tube, and is about the size of a pigeon's egg and contains the yolk.
