No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

HATTIE WARREN

Port Robinson, Ont., July 8th, 1915. 'We have used "Fruit-a-tives" in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try "Fruita-tives". She began to show improvement after we had given her afew lablets. In a short time, the swelling had all gone down and he flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for "Fruit-atives" and would never be without

FLEET OF VESSELS VICTIMS OF MINES.

Germany's Method of Undersea Warfare Will be Exemplified at the Exhibition.

The ever-present perils which must be faced and circumvented by the British Navy when scouring the broad bosom of the sea for a glimpse of the Hun vessel sneaking furtively about, hiding itself under water or sowing treacherous death-dealing mines broadcast, will be vividly pictured at the Canadian National Exribition. Hidden mines, torpedo attacks, and desperate onslaughts by the aerial corps will each afternoon threaten a sturdy ship of war, which will eventually succumb to the murderous action of an undersea mine the magazine exploding with a deafening crash, throwing tons of water and wreckage in the air. Surround ing mines will explode at intervals while the land batteries and antiaircraft guns devote their energies to the invading airmen, who are hovering about endeavoring to drop their explosive cargoes on a vital spot. It will be a picture of war never excelled at the Canadian National Exhibition.

TO CURE SUNBURN.

Sunburn is often extremely painful. in many cases, where a girl has been out in the sun practically all day, the skin blisters and causes very real suffering. It is a wise girl who knows how to care for her own sunburn, for she will save herself a good bit of pain by doctoring it at once.

When you return to the house after a day in the open and find your arms, neck, and face all rose colored from the sun, don't stop to question why, but start in treating it at once The burn never hurts the first day and sometimes it does not the second day, but you will certainly get t the third day unless you are careful. Don't wait until the skin begins to itch and smart before you put on a cream, but at the first of rose color where white usually is, start your doctoring at once.

Cocoa butter is excellent to take he sting out of sunburn and witch hazel cream is another fine emolient Rub either one in well the first appearance of the burn and then again he next day and you will not be pothered so much by the pain and
