

London Advertiser.

FOUNDED BY JOHN CARBON IN 1833.

London, Tuesday, Nov. 2, 1897.

Why not put the United States lake navy in leading strings. The Yantic cannot be trusted around loose.

Talk about carrying coals to Newcastle! Two hundred tons of Nova Scotia granite are about to be conveyed to Aberdeen, Scotland. Canada's resources are many and profitable.

The rain of the last two days does not add to the pleasures of pedestrianism or the comforts of travel on poorly kept roads, but it is of great value to the country, which has been suffering from lack of moisture.

Gen. Miles, commander-in-chief of the United States Army, punctures some popular ideas in regard to the use of bicycles of the present style in the army in the following cold and cruel words: "All the energy would have to do to stop a forward move by the bicycle corps would be to scatter carpet tacks along the road and all would blow up."

The Toronto News, which is a supporter of the Opposition leader, says that the prospect of a winter campaign in Ontario makes some of the politicians shiver. No doubt that is the effect on Mr. Whitney and his associates, who till recently were hoping that the Provincial elections would be rushed on before another session of the Legislature was held.

Our Riches in the Northland. Explorations of Canada's far northern territory, made this summer by three distinct exploring parties, show the vastness and variety of the yet undeveloped resources of this great country.

Dr. Bell, the distinguished officer of the Geological Survey, who accompanied the Diana expedition, sent to explore the navigability of Hudson Strait, reports on his investigation of Baffinland, a country many hundreds of miles north of any point in our civilization, yet undoubtedly a portion of the Dominion.

It is proved by Dr. Bell to be the third largest island in the world—only Australia and Greenland exceeding it in extent—while it is settled beyond dispute that it is a land of big lakes and great rivers. Vast herds of reindeer or barren ground caribou, roam its plains and mountain parks.

One lake is 150 miles long, and nearly as wide. The waters of all the lakes are transparent and colorless. Dr. Bell did not see a foot of really good soil on any part of the vast territory of 1,100 miles long, by from 200 to 500 miles broad.

It is a bleak land; grasses and sedges are its tallest plants, and its trees are chiefly creeping willows, which cling to the earth, hardly ever rising more than an inch above its surface.

Salmon and seals of several varieties haunt its waters in abundance, and whales and polar bears are often met with. The island may yet prove valuable for mineral deposits, otherwise its attractions to the man of commercial instincts must prove comparatively small.

In any case, it was a very proper thing for the Canadian officers on the Diana to hoist the British flag on the territory, and once more formally lay claim to its ownership.

If the explorations in Baffinland are at present of comparatively small practical interest to the people of Ontario, not so are the investigations made by explorers in the territories bordering on James Bay, and a contract schedule is already under consideration.

Superintendent Leonard, of the C. P. R., says that the 800,000-bushel elevator at Owen Sound will not accommodate the grain coming in.

The Union Pacific Railroad was sold today (Monday) to the reorganization committee for \$29,882,281 87 for railroad property and \$11,645,250 99 for bonds.

Mr. Blair, minister of railways, had a conference Saturday with the general manager of the Grand Trunk, and arranged for the extension of the Intercolonial to Montreal.

As it will take a couple of weeks to complete the Drummond Railway, the extension will have to be postponed, but Mr. Blair says that everything will be in running order within a fortnight.

A Denver, Col., dispatch says: The Busk-Ivanhoe tunnel was abandoned by the Colorado Midland road yesterday. This great bore is two miles long, piercing the main chain of the Rocky Mountains, and cost a million and a quarter of dollars.

All trains of the Colorado Midland will hereafter go over Hagerman Pass. The tunnel company refused to accept the offer of the reorganized Colorado Midland Company, and the latter consequently built the high line over Hagerman Pass.

ACCIDENT ON THE C. P. R. Toronto, Ont., Nov. 2.—An eastbound Canadian Pacific freight train broke in two at Guelph Junction, on the main line yesterday morning. The rear half of the train then ran into the front half and a couple of cars were smashed. The main line was blocked for a couple of hours, and passengers on the Canadian Pacific express from Detroit and London were brought into Toronto on a special.

KILLED NEAR CHATHAM. Chatham, Ont., Nov. 2.—Yesterday morning an unknown but well-dressed man was killed at Weaver Crossing, on the G. T. R. The man was stealing a ride.

The Aldermen

Make Feeling Reference to Their Late Comrades.

Dr. George C. Davis and Dr. J. H. Gardiner.

The Aged Peoples' Home Full—Those Market 'Spaces'—New Bylaw in Re Street Signs and Streamers To Be Introduced.

The city council held a regular meeting last evening, with all the members present. Little business was done. Feeling resolutions of regret and sympathy were passed regarding the deaths of Dr. George C. Davis and Dr. J. H. Gardiner, both of whom were at one time aldermen.

Applications were received for the admission to the Aged Peoples' Home from Mrs. Wm. Flood, on behalf of her mother, from Mr. Jones, on behalf of Alexander Noble, from Rev. Evans Davis, on behalf of Ellen Casey, and from Squire Smyth on behalf of Michael. Referred to the mayor and relief officer. They had not been getting over-crowded, and it had been recently sent two applicants to the Range Home at Stratford.

A protest was received from Mr. McDowell against his having to pay ground rent for a market stall which he vacated, but which had not been taken away by the contractor within the specified time. No. 3 committee.

A petition from Mr. T. Wrighton for a tile sewer on Oxford St. between Richmond and Wellington streets, was referred to No. 2 committee.

The report of the auditor was presented by Ald. McCallum (chairman). The first clause discussed referred to the petition of Walter Wilkins and other fruit dealers for the refund of money paid for market spaces. No action.

Mr. Stuart Harris, one of the petitioners, described the auction sale which the right to spaces had been purchased, and how dealers who had paid nothing for the spaces were allowed to sell within five feet of them. The petitioners felt it unfair that they were not protected.

Ald. Turner moved to refer the matter back to No. 3, with power. Ald. Dimstead supported the petitioners.

Ald. Taylor held that no guarantee had been given, and the men did not seem to be a grievance, but there seemed to be a grievance in that they did not receive it. He was, and had always been, opposed to renting this space, on the ground that it was contrary to the bylaw.

Ald. Douglass blamed No. 3 committee for not carrying out the bylaw. Ald. McCallum limited that the committee had followed the precedent of former years in selling the spaces.

Ald. Carrothers favored refunding the money. He said the committee had been overstepping their rights for years.

Ald. Cooper was one of the fruit-sellers who took up the matter, paying for it. He had been blamed, he said, for the part he had taken in this matter, but he was not in the wrong. He would not be much more if he had not been stopped.

Laughter. The petitioners, he said, knew they had no right to protection, but made up their minds to monopolize and control these spaces until the season was over. Personally he had paid for his license as a dealer, and had a right to sell on the market.

Ald. Parnell seconded Ald. Turner's motion.

Ald. Stevens saw no reason for referring the matter back to the committee. There seemed to be an injustice done these men, and it should be made right.

Ald. Cooper termed it a "hole and corner business" throughout.

Ald. McCallum upheld the market clerk, who had, he said, tried to do his duty.

Ald. Hunt's amendment that a refund be made of one half the fees, which amounted to about \$60, was adopted, and a motion referring the matter back to No. 3 carried.

Another clause referred to the petition for provision to be made at the protection in stormy weather of the rigs of the greenhouses. Referred to next year's council.

Tenders will be called for the erection of a brick shed at the rear of the central fire hall, the cost to be met by the department's surplus, \$887 89.

A motion to amend the bylaw referring to streamers and signs was brought in by No. 2 committee. It was decided to introduce a new bylaw covering the matter.

Dr. Chase - Cures Asthma

OPINION OF MR. CORRIGAN, Of London, Ont.

Dr. Chase's Syrup of Linseed and Turpentine.

In conversation with a News reporter, he stated that for several years "I used to dread the approach of night—for as soon as I laid down the misery began. First I would breathe heavy and then fairly choke up and suffocate; it was impossible to sleep at times. Only those who have had asthma can tell what I suffered. My family doctor helped me at times and I hoped for recovery, but it was only temporary relief and I was soon plunged again into despair. One day I was talking to a druggist who knew my case and he urged me to try Dr. Chase's Syrup of Linseed and Turpentine. I had seen it advertised extensively throughout Canada, and had almost made up my mind not to buy any quacks again, but on the recommendation of the druggist I used it faithfully, thinking all the time 'I'm a sucker, but to my surprise, I woke one morning to find that I had slept all night without once awakening. I have been taking Linseed and Turpentine for a month, and consider myself completely cured and shall be pleased to answer all correspondence.'"

Unsolicited Testimony: ASTHMA FOR YEARS. "I have suffered very severely from asthma for over twenty-five years," says R. G. Moore, of Hamilton. "If I ventured away from home the change of air would bring on such bad attacks that I was afraid I would suffocate at times. A short time ago I found it necessary to go to Paris, Ontario, on business. On the way my old enemy attacked me with great severity. As soon as I got to Paris, I went to Armitage's drug store and bought a bottle. It relieved my Asthma, and although I have been away from home several times since, I experienced no more trouble. I regard my quarter as well spent, and intend to send some more after it."

A PREVENTATIVE OF COLDS. "I have been a chronic sufferer from severe colds for a long time," says Miss Hattie Delaney, of 174 Crawford street, Toronto. "Usually at this season of the year I did not know what it was to be free from them. Nothing did me much good until I got a bottle of Chase's Linseed and Turpentine. It not only cured my cold, but I have not had another since. I ascribe the credit wholly to Dr. Chase's."

A CROUPY COUGH. "My little boy had a bad croupy cough," says Mrs. Smith of 255 Bathurst street, Toronto. "My neighbor, Mrs. Hopkins, recommended me to try Dr. Chase's Syrup of Linseed and Turpentine. I did so, and the first dose did him good. One bottle completely cured the cold. It is surprising the popularity of Chase's Syrup. It appears to me it can now be found in every house."

PROVED MOST EFFECTIVE. "I used Dr. Chase's Syrup of Linseed and Turpentine for severe throat trouble," writes Mrs. Hopkins, of 254 Bathurst street, Toronto. "It proved most effective. I regard it as one of the best household remedies there is. It is easy and pleasant to take and drives out the cold with surprising celerity."

Dr. Chase's Syrup of Linseed and Turpentine soothes and heals the affected parts, relieves the overcharged membrane, relieves congestion of the air passages, arrests the progress of fever and inflammation. It is prepared from the finest demulcents and expectorants, from the prescriptions of Dr. Chase, and is specially effective in Croup.

CHILDREN JUST LOVE IT. At All Druggists 25 CENTS.

CROWS NEST GRADIENTS Sir William Van Horne Says They Will Be Less Than Those of Any Other Railroad Across the Rockies.

Montreal, Nov. 1.—Sir Wm. Van Horne, who was interviewed, said that the maximum gradients on the Crow's Nest Pass road from the main line at Dunmore to Robson, on the Columbia River, crossing both the Rocky and Selkirk ranges, would not be one foot in a hundred. In other words, the maximum gradients of the Crow's Nest are only about half of those of the other mountain lines in the United States and Canada. As for the rumored building of a smelter in Rossland, he also declared that the C.P.R. were about to build a line of their own from Robson to Rossland, a distance of 25 miles.

FOUND DEAD IN BED. Toronto, Nov. 2.—Wm. J. Dugdale was found dead in bed yesterday in a room over Duggan's bookstore, on King street east, where he lived. Deceased was over 80, and had been living in a meagre fashion in this room for some time. He is said to have lived like a recluse. He was for 40 years a well-to-do grocer and was not without means.

OUR DEAR ONES. Mothers, Wives and Daughters. Thousands of Them Suffer. Paine's Celery Compound Gives Them Health and the Freshness of Youth.

When the nervous energies are exhausted, women suffer from constipation, dyspepsia, kidney disease, liver trouble and prostration. They are weak, tired, have headache, backache, sideache and cannot sleep. It is then that the wrecking of woman's delicate organism begins.

When sickness, disease and disaster threaten, Paine's Celery Compound should be used without delay. This marvelous modern medicine will quickly impart strength to every weak organ, and restore the greatest blessing of life—health. A few weeks' use of Paine's Celery Compound will give vigor to the nervous system; nutrition digestion and every special womanly function will be natural and regular.

FACE HUMORS. Pimples, blotches, blackheads, red, rough, oily, mothy skin, itching, scaly scalp, dry, thin, and falling hair, and baby blemishes are cured by CUTICURA, the most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery.

Cuticura EVERY HUMOR. From Pimples to Scrofula cured by CUTICURA. BAZZANO.
