After that he was pastor in Woodstock from 1888 to 1896, when he was called to the pastorate of the Olivet Church, Montreal. He was a senator and one of the governors of McMaster University where ernors of McMaster University, where he received the degree of D. D." Dr. Dadson was well known in this city, where his faithfulness as a preacher was fully recognized and appreciated. THE MUNICIPAL GUIDE.

We have received from the publishers, The Hunter, Rose Company, Limited, Toronto, the "Municipal and Assessment Guide," a manual of the statutory law, containing the municipal and assessment acts of this province. The author, J. J. Kehoe, barrister-atlaw, who is county crown attorney at Sault Ste. Marie, has condensed all the numerous provisions in every-day language, with a suitable index, into a compact and handy pocket volume of 193 pages. The work, being without citations of decisions, is not intended for the legal profession, but will be an invaluable vade mecum for every present or prospective member of a muncipal council, and for all municipal corporation officials. The preface is dated Feb. 1, 1900, so that it is up to date. The book will simplify the knowi-edge of the law by those who are called upon to work it out, and thus prevent the raising of disputed questions to be expensively litigated in the courts. PATRIOTIC SCHOOL CHILDREN. The sixth annual entertainment of

ship (Hamilton road), was held in the school house on Friday evening, March The principal, Mr. G. Duncan, and his assistant, Miss L. Claris, worked hard to make the concert what it proved to be, a decided success. The school room was tastefully decorated with wreaths of evergreens and flowers, pictures of the Queen and drawings on the blackboard done by the children, consistent with the patriotic feelings of the times, with flags and banners suitable for the occasion. One of the novel features of the evening was an ambulance drill, given by six boys, in which they had been instructed by Mr. Emery, showing how to give first aid to the injured, by binding a com-pressed fracture of the head, a broken wrist or a broken leg. The entertainment was brought to a close by a very interesting tableaux, "The Soldiers Protecting Our Queen and the United Empire," during which the scholars sang "The Soldiers of the Queen" and the National Anthem. The school room was crowded to the doors with the parents and friends of the children. Mr. R. H. Sanders was chairman, and Miss L. Claris presided at the piano.

RAVAGAS OF FEVER. Pte. Ray Little, B Company, R. C. R., in a letter from Belmont, South Africa, dated Feb. 8, speaks of the order to pack up and move to Modder River. "We were on duty on Kidney Kopje at the time," he writes, "and were watching a fight between some scouts in the distance. We set out on the march about 4 p.m., and arrived at Gras Pan at dark, a distance of about ten miles. The Gordon Highlanders, who were stationed there, conducted us into camp, with the bag-pipes, and offered to pitch our tents, but we bivouacked. Gras Pans isn't much of a place to

look at, but there is fine water there, which is a great thing out here. Besides there is a bath about 4 feet deep, which will hold 10 at a time. As there was no fighting going on at Modder, and an awful lot of fever there, we were ordered back to Belmont at the end of two days. We have 30 cases of enteric fever in our regiment. Two men in my company died last week. One was a St. Thomas man. Another man, Tony Moore, came to me one day, as I was orderly corporal, and asked to be paraded "sick," if it wasn't too much thouble. Four days after he was dead. Two other petients are not expected to live."

## City Hall Notes.

A committee of investigation met yesterday afternoon at the Colborne street school to inquire into the complaint recently made that Principal Latta was unjustly excluding a pupil from the school. Some time ago a pupil in Miss Winnett's class claimed that, in the correction of her spelling, a mistake had been made. The teacher thought otherwise and ordered the girl to change it. The latter was so impertin-ent that she was sent to Mr. Latta, who expelled her, and would not allow her to return unless she apologized. The parents brought the matter before No. 1 committee, and claiming that their daughter had been in the right, and asking that she be allowed to resume her studies. The committee decided that Mr. Latta was altogether within his rights in the matter, and the pupil will have to apologize for her impertinence before being allowed to return to school.

Terrible Suffering From Asthma. Mrs. J. Wethom, of Mount Forest. Ont., says: "For a number of years have been a sufferer from asthma, and during that time I have consulted many doctors on my case, and have used many of the so-called cures for Asthma, but never got relief. At times I have been so bad that I found it necessary to have all the doors and windows open to get my breath. I had given up in despair of ever being cured till I heard of your preparation -Catarrhozone. I have used it and am now perfectly cured-thanks to your wonderful medicine. I recommend it as a positively sure cure for Asthma.' Catarrh-o-zone is a guaranteed cure for Catarrh, Asthma and Bronchitis. Sold by all druggists. Trial outfit sent for 10c in stamps by N. C. Kruger Gives a Unique Reason for the Boers Being Deteated.

Driefontein, Orange Free State, Sunday, March 11.-General Roberts' dvance here yesterday across the scorching plains from Poplar Grove was marked by the most severe day's engagement since crossing the Modder River. The Boars stubbornly contested every foot of ground, fleeing only at dusk, when Lord Roberts threw most of his troops against the center of their weakened line.

At the point where Col. Broadwood turned the Boer left, he found himself under the fire of their nine-pounder. The Boers, however, ultimately hoisted the white flag. When Col. Broadwood advanced he was surprised to find the Boers had taken advantage of the ces-sation of fire to escape during the

WHY THE BURGHERS ARE BEATEN.

A Free Stater, whose house President Kruger occupied during the Boer flight from Osfontein, said he complained to the president about the depredations of the Transvaalers, whereupon the president replied: "No wonder we are beaten. The burghers entered into the war to fight for a righteous cause, but now they have developed into horse and cattle stealers."

LORD ROBERTS' PROGRESS. Lord Roberts' actual entry into the Orange Free State capital seems likely to be delayed until tomorrow, or late today, as his statement that he is going to reinforce Gen. French implies that opposition is being encountered on the outskirts of the town, though the definite statement that the British cavalry leader has positions which com-mand the situation leaves no doubt that the occupation will speedily be effected, and with it, the London critics believe, will accrue to the British important captures of supplies, if not of

MAREKING. ### Tis Something Good to Eat.

The use of imperfectly cooked cer-eals is, without doubt, responsible for a great share of the prevailing dyspepsia among the people of this country. The well-known specialist Dr. Kellogg says so and the statement is backed up by innumerable other authorities. Oatmeal porridge, cracked wheat and similar preparations, he says, are absolutely unfit for food, and can be digested only by very sound stomachs. Cereals must be cooked dry in order to be thoroughly cooked. When prepared in this way, and this is the way Granose is prepared, cereals are well adapted to the human stomach and are easily digested. But there are other claims for Granose than that it is the ideal food for dyspeptics. Granose contains the substances best adapted to building strong and enduring muscles, pure blood, active and well-balanced nerves. It is the food that will best sustain mental and physical effort. Ask your grocer for it.

Adopted by Kruger in His Appeal to Salisbury.

FERVID PHRASES

The Premier's Response Plain and Definite-Germany Will Not Me diate Unless Both Parties Desire It.

New York, March 13.-The London correspondent of the World says that he learns on trustworthy authority that the appeal sent last Saturday to England by President Kruger was remarkable in both manner and matter. The language of the document fairly pulsates with religious fervor, and the appeal for peace is made in solemn phrases, such as "In the name of the Triune God."

UNCLE SAM AS MEDIATOR. London, March 13 .- It is stated that

the United States Government, at the request of President Kruger and President Steyn, has offered to the British Government its services as inter-mediary, with the view of bringing about peace in South Africa. Lord Salisbury has not yet replied.

SALISBURY TO KRUGER. London, March 13-4:47 p.m.-In the House of Lords today the premier, Lord Salisbury, read the British Gov-ernment's reply to Presidents Kruger and Steyn. The concluding sen tence is as follows: "Her Majesty's Government can only answer your honors' telegram by saying it is not prepared to assent to the independence of either the South African Re-public or the Orange Free State."

GERMANY'S POSITION. Berlin, March 13 .- It is semi-officially announced that when the Orange Free State and the Transvaal addressed to a number of the larger and smaller state a request for friendly mediation the German Government replied that it would willingly participate, provided the essential condition of such mediation were present, namely, the certainty that both belligerents desired it. BRITISH SUPREMACY - EQUAL

RIGHTS. London, March 13.-The London Standard (ministerial) says: "The re-ply of her majesty's Government (to Kruger and Steyn) will indicate clearly that the only lines on which a settlement can be effected, the supremacy of Great Britain over South Africa, must be explicitly recognized. The two republics will be disarmed, and the control of their military affairs placed in the hands of the Imperial Government. Equal political rights will be granted to all the white races, subject to those conditions. A large amount of local independence will be conceded when South Africa has settled down after the war.'

NEARLY TWO HUNDRED YAQUIS KILLED.

Austin, Texas, March 13 .- A special from Potam, Mexico, states that during the four days ending on Friday the Yaqui Indians and the Mexican troops had four engagements near Corciet, Mexico. Nearly 200 Indians are known to have been killed. The Mexican troops suffered little. Fully 2,500 Yaquis now in the neighborhood Guaymas, and fully as many more are prowling between Medino and Potam.
